Before GRUENDER, BENTON, and KELLY, Circuit Judges.

PER CURIAM.

Former Missouri resident Setondji Nahum appeals the district court's¹ adverse grant of summary judgment in his pro se employment discrimination action. After careful review of the record and the parties' arguments on appeal, we find no basis for reversal. *See Brooks v. Roy*, 776 F.3d 957, 959-60 (8th Cir. 2015) (reviewing the grant of summary judgment de novo). Accordingly, we affirm the judgment, *see* 8th Cir. R. 47B; and deny Nahum's pending motion.

¹The Honorable Rodney W. Sippel, United States District Judge for the Eastern District of Missouri.
