19	SPECTRUM LABORATORIES, LLC	)	<b>DEADLINES</b>
20	Defendant/Counterclaimant.	)	<b>(THIRD REQUEST)</b>

21 Plaintiff/Counter-Defendant, Aim High Investment Group, LLC (“Plaintiff” or “Aim  
 22 High”) and Defendant/Counterclaimant Spectrum Laboratories, LLC (“Defendant” or  
 23 “Spectrum”), by and through their counsel of record, hereby respectfully submit this Stipulation  
 24 and Order for Extension of Discovery Deadlines in this case. This is the third request to extend  
 25 discovery deadlines in this matter and seeks a ninety (90) day extension of all current discovery  
 26 deadlines.

1 **PROCEDURAL BACKGROUND**

2 Plaintiff filed the Complaint in this action on January 28, 2022 (ECF No. 1) and Defendant  
3 filed its Answer and Counterclaims on March 14, 2022 (ECF No. 7). On May 12, 2022, this Court  
4 entered a Discovery Plan and Scheduling Order (ECF No. 18), which set the close of fact discovery  
5 on February 1, 2023. The Order further noted that if the Court is unable to issue a Claim  
6 Construction Order by January 19, 2023, the Court may reset the subsequent deadlines as requested  
7 by a party or by stipulation. On January 13, 2023, the parties filed their first stipulation for  
8 extension of case deadlines, which the Court granted on January 19, 2023. (ECF Nos. 47, 50.) On  
9 April 17, 2023, the parties stipulated and obtained a second extension of deadlines. (ECF Nos. 75,  
10 76.) The parties now stipulate and seek a third extension of deadlines because they are still  
11 conducting written discovery, have written discovery disputes pending before this Court via  
12 motion, pending before the U.S. District Court for the Central District of California, and currently  
13 in the meet-and-confer phase between counsel for the parties that they are attempting to resolve.

14 As of the date of this Stipulation, because the parties wish to complete written discovery  
15 to make sure they have all the relevant documents before taking the major fact witness depositions,  
16 and because the Court has not set a claim construction hearing or issued a claim construction order,  
17 the parties stipulate and respectfully submit that there is good cause for the requested extension.

18 **COMPLETED DISCOVERY**

19 The parties' prior stipulation details all of the fact discovery work that the parties conducted  
20 prior to April 17, 2023, including discovery motion practice, meet-and-confer work, the few  
21 limited depositions that occurred, subpoenas issued to third-parties, and patent-related  
22 infringement and invalidity contentions and supplements thereof. (*See* ECF No. 75.) For  
23 efficiency, the parties will not repeat that procedural history here. The parties will, however,  
24 identify some of the written discovery issues that remain outstanding.

25 On May 13, 2022, Aim High, served a subpoena on non-parties Element Sante Fe Springs  
26 ("Element") and S&N Labs ("S&N") seeking documents relating to testing done by one or both  
27 of the non-parties for Spectrum on Aim High's accused product. After Element and S&N, together  
28 with Spectrum, objected to the subpoenas, Aim High filed an action in the Central District of

1 California seeking to compel compliance with its subpoenas. *See AIM High Investment Group,*  
2 *LLC v. Spectrum Laboratories, LLC*, Case 8:22-mc-00011-DOC-ADS (C.D. Cal.) (the “CDCA  
3 Action”). On October 20, 2022, the Magistrate denied Aim High’s motion to compel, and Aim  
4 High filed an objection to the Magistrate’s ruling on November 3, 2022. On January 24, 2023, the  
5 court indicated that Aim High’s objections are under consideration. As of the current date, no  
6 decision by the court has been rendered.

7 On December 16, 2022, Aim High filed a motion to strike Spectrum’s infringement  
8 contentions (ECF No. 42). Spectrum filed its opposition on January 13, 2023 (ECF No. 48). Aim  
9 High filed its reply on January 27, 2023 (ECF No. 52). On June 30, 2023, the Court granted Aim  
10 High’s motion in part and denied it in part. (ECF No. 83.) The Order requires Spectrum to amend  
11 two aspects of its infringement contentions, which Spectrum will do by the Court-ordered July 20,  
12 2023 deadline.

13 On December 30, 2022, Aim High filed a motion to compel seeking a court order  
14 compelling Spectrum to respond to certain discovery requests (ECF No. 45). Spectrum filed its  
15 opposition on January 27, 2023 (ECF No. 51). Aim High filed its reply on February 10, 2023  
16 (ECF No. 55). Aim High’s motion has not yet been decided by the Court.

17 On February 8, 2023, Spectrum filed a motion to compel seeking a court order compelling  
18 Aim High to respond to certain discovery requests (ECF No. 53 – filed under seal; redacted version  
19 filed February 28, 2023 – ECF No. 65). Aim High filed its opposition on February 22, 2023 (ECF  
20 No. 61). Spectrum filed its reply on March 1, 2023 (ECF No. 66). Spectrum’s motion has not yet  
21 been decided by the Court.

22 On February 17, 2023, Aim High filed a motion for leave to file supplemental contentions  
23 (ECF No. 58). Spectrum filed its opposition on March 13, 2023 (ECF No. 71). Aim High filed  
24 its reply on March 24, 2023 (ECF No. 74). Aim High’s motion has not yet been decided by the  
25 Court.

26 On June 9, 2021, Spectrum filed a motion to compel seeking a court order compelling Aim  
27 High to produce samples of ingredients in the *XStream* product (ECF No. 80). Aim High filed its  
28 opposition on June 23, 2023 (ECF No. 81). Spectrum filed its reply on June 30, 2023 (ECF No.

1 82). Spectrum’s motion has not yet been decided by the Court.

2 **REMAINING DISCOVERY**

3 The parties are still completing written discovery, and the pending motions before this  
4 Court and the CDCA Action could lead to more written discovery. Aim High expects to notice the  
5 deposition of the inventor of the patents at issue along with a Rule 30(b)(6) deposition notice to  
6 Spectrum and subpoenas to several other fact witnesses. Spectrum also intends to depose Aim  
7 High’s owner, its Rule 30(b)(6) designee, and others; and Spectrum is continuing to follow-up  
8 with the issued subpoenas to third-parties. There also has not been a claim construction hearing or  
9 claim construction ruling, and the Court’s scheduling order contemplates that the next phase of  
10 deadlines, such as expert discovery, not begin until after the claim construction ruling, so that the  
11 experts can incorporate the claim construction ruling into their patent-specific opinions.

12 **GOOD CAUSE TO EXTEND DISCOVERY**

13 The parties have been diligent in conducting discovery in this matter so far and remain  
14 diligent in doing so. The parties need additional time to complete third-party discovery, including  
15 working to obtain documents and potentially depositions from the third parties that have been  
16 subpoenaed. The parties also need additional time to complete fact witness depositions. And the  
17 parties also await the outcome of multiple discovery motions before the Court including Aim  
18 High’s pending Motion to Compel, and Motion for Leave to File Supplemental Contentions as  
19 well as Spectrum’s Motions to Compel as well as the still-pending Objection in the CDCA Action  
20 – decisions which are not expected to be rendered prior to the current close of discovery on August  
21 1, 2023.

22 In order to allow the parties more time to complete these fact discovery tasks and consistent  
23 with the Court’s order providing for extensions upon request when the Court has yet to schedule a  
24 claim construction hearing or render a claim construction order, the Parties have stipulated and  
25 agreed to extend all discovery deadlines by ninety (90) days as set forth below<sup>1</sup>. For these reasons,  
26 this Stipulation is made for good cause and not for purposes of delay.

27 \_\_\_\_\_

28 <sup>1</sup>Where the revised deadline falls on a weekend, the revised deadline is the next court day.
