5 UNITED STATES DISTRICT COURT
6 EASTERN DISTRICT OF WASHINGTON

7 GUNNAR HOLMQUIST, *et al.*

8 Plaintiffs,

9 v.

10 UNITED STATES OF AMERICA,

11 Defendant.

NO. 2:17-CV-0046-TOR

ORDER GRANTING DEFENDANT'S
MOTION TO DISMISS

12
13 BEFORE THE COURT is Defendant's Motion to Dismiss for Lack of
14 Subject Matter Jurisdiction and Failure to State a Claim (ECF No. 11). This matter
15 was submitted for consideration with oral argument. The Court held a hearing on
16 July 12, 2017. At the hearing, Lindsey Schromen-Wawrin represented Plaintiffs
17 and Serena M. Orloff represented the United States. The Court has reviewed the
18 record and files herein, and is fully informed. For the reasons discussed below,
19 Defendant's Motion to Dismiss (ECF No. 11) is **GRANTED**.

20 //

ORDER GRANTING DEFENDANT'S MOTION TO DISMISS ~ 1

1 BACKGROUND

2 This case arises out of a failed initiative to ban the transportation of certain
3 fossil fuels by rail through the city of Spokane. Relevant to this case, Spokane
4 encourages residents to take part in the legislative process by allowing its citizens
5 to submit citizen’s initiatives. Spokane City Charter § 82. Citizens submit the
6 initiative by filing the proposed law with the City Clerk, who forwards the initiative
7 to the City Council for consideration. Spokane Municipal Code § 02.02.030.

8 The City Council “may pass the measure as proposed, reject [it] and
9 propose another one dealing with the same subject to be considered as council
10 legislation, or submit the initiative measure to the voters” *Id.* § 02.02.040.
11 If the City Council “does not pass the measure as proposed or submit [it] to the
12 voters,” the initiative is forwarded to the City Hearing Examiner who must “issue a
13 formal written opinion as to the legal validity and effect of the proposed measure .
14” *Id.* With the benefit of that analysis, the proponent can choose to revise the
15 measure by withdrawing it and submitting a new one. *Id.*

16 Alternatively, the proponent may seek to bypass the City Council by
17 collecting signatures from Spokane voters. *Id.* If the proponent is able to collect
18 the signatures of at least five percent of the electorate, “the council shall either pass
19 such ordinance without alteration or submit it to popular vote at the next available
20 general municipal election.” Spokane City Charter § 82.

FACTS

Plaintiff Dr. Holmquist submitted two initiatives (Initiative Nos. 2016-2 and 2016-6) to amend the City Charter and City Code, respectively—the first on June 10, 2016, and the second on July 6, 2016. ECF Nos. 1 at ¶¶ 13, 17; 1-2; 1-3. The initiatives sought to ban the transportation of coal and oil by rail within the City of Spokane, citing concerns that such violated the “right of the people of Spokane to a healthy climate.” ECF No. 1 at ¶¶ 14, 18. The City Council took no action to place the first initiative on the ballot and declined to place the second initiative on the ballot, “citing concerns about federal preemption. ECF No. 1 at ¶¶ 16, 19.

Spokane City Councilmember Breean Beggs introduced Resolution No. 2016-0064 on July 18, 2016 proposing a similar prohibition of the transit of certain fossil fuels by rail within the City of Spokane. ECF No. 1 at ¶ 20. The Spokane City Council voted unanimously to adopt the resolution, and requested that the Spokane County Auditor hold a special election on November 8, 2017 for the ballot proposition. ECF No. 1 at ¶ 21.

On August 2, 2016, the Hearing Examiner for the City of Spokane issued a legal opinion regarding Initiative 2016-6 opining that federal law would preempt any attempt to restrict or prohibit the operations of a rail carrier and that a “ban on the transport of oil and coal by rail is therefore outside the scope of the initiative power.” ECF No. 1 at ¶¶ 22-23. On August 15, 2016 Council President Ben

1 Stuckart, citing preemption concerns, introduced Resolution No. 2016-0071 to
2 rescind Resolution No. 2016-0064 and thereby withdraw the Spokane City
3 Council’s request to the Spokane County Auditor for the placement of the
4 Resolution on the November 8, 2016, ballot. ECF No. 1 at ¶¶ 24-25. The City
5 Council adopted the resolution to rescind by a 5-2 vote. ECF No. 1 at ¶ 26. Later,
6 Councilmember Beggs filed a new initiative seeking – once again – to ban the
7 transit of coal and oil by rail through the City of Spokane, but the City Council
8 decided to take no action on the initiative. ECF No. 1 at ¶¶ 26-28.

9 INTRODUCTION

10 The parties do not dispute that the Interstate Commerce Commission
11 Termination Act of 1995 (ICCTA) preempts the proposed initiatives. The dispute
12 centers on whether – as Plaintiffs argue – the preemptive effect violates Plaintiff’s
13 purported constitutional right to a livable and healthy climate by prohibiting
14 Plaintiffs from passing legislation that would curb the purported deterioration of
15 the climate. Defendant has moved the Court to dismiss the action for failure to
16 state a claim and lack of standing. The Court finds Plaintiffs claim fails on
17 justiciability grounds because the issue is not ripe, fails for lack of standing, and
18 any relief requested would amount to an advisory opinion; the Court need not
19 address the remaining contentions.

20 //

1 mutually exclusive, and “the same concerns often can be reflected in the language
2 of two or more of these categories.” 13 Fed. Prac. & Proc. Juris. § 3529.

3 1. Standing

4 The party invoking a federal court’s jurisdiction must demonstrate it has
5 standing. *Wittman v. Personhuballah*, 136 S. Ct. 1732, 1736 (2016) (citing
6 *Arizonans for Official English v. Arizona*, 520 U.S. 43, 64 (1997)). “A party has
7 standing only if he shows that he has suffered an ‘injury in fact,’ that the injury is
8 ‘fairly traceable’ to the conduct being challenged, and that the injury will likely be
9 ‘redressed’ by a favorable decision.” *Wittman*, 136 S. Ct. at 1736 (citing *Lujan v.*
10 *Defenders of Wildlife*, 504 U.S. 555, 560–561 (1992)). “[T]he injury or threat of
11 injury must be ‘real and immediate,’ not ‘conjectural’ or ‘hypothetical.’” *City of*
12 *Los Angeles v. Lyons*, 461 U.S. 95, 95 (1983).

13 2. Ripeness

14 “Ripeness is peculiarly a question of timing.” *Thomas v. Union Carbide*
15 *Agr. Prod. Co.*, 473 U.S. 568, 580 (1985) (brackets omitted) (quoting *Blanchette v.*
16 *Connecticut Gen. Ins. Corps.*, 419 U.S. 102, 140 (1974)). “A claim is not ripe for
17 adjudication if it rests upon ‘contingent future events that may not occur as
18 anticipated, or indeed may not occur at all.’” *Id.* at 580-581 (quoting 13A C.
19 Wright, A. Miller, & E. Cooper, Federal Practice and Procedure § 3532 (1984)).
20 “[I]f the contingent events do not occur, the plaintiff likely will not have suffered

1 an injury that is concrete and particularized enough to establish the first element of
2 standing . . . In this way, ripeness and standing are intertwined.” *Bova v. City of*
3 *Medford*, 564 F.3d 1093, 1096 (9th Cir. 2009) (citing *Lujan*, 504 U.S. at 560).

4 3. Advisory Opinions

5 “[T]he oldest and most consistent thread in the federal law of justiciability is
6 that the federal courts will not give advisory opinions.” *Flast*, 392 U.S. at 96
7 (internal quotations and citation omitted). Under Article III, Federal courts are
8 confined to “real and substantial controversies admitting of specific relief through
9 a decree of a conclusive character, as distinguished from an opinion advising what
10 the law would be upon a hypothetical state of facts.” *Lewis v. Cont’l Bank Corp.*,
11 494 U.S. 472, 477 (1990) (citations and brackets omitted). “In any case the Court
12 will not pass upon the constitutionality of legislation in a suit which is not
13 adversary, or upon the complaint of one who fails to show that he is injured by its
14 operation, or until it is necessary to do so to preserve the rights of the parties.”
15 *Coffman v. Breeze Corp.*, 323 U.S. 316, 324-25 (1945) (citations omitted).

16 Relevant to this case, “[t]he declaratory judgment procedure is available in the
17 federal courts only in cases involving an actual case or controversy, where the
18 issue is actual and adversary, and it may not be made the medium for securing an
19 advisory opinion in a controversy which has not arisen.” *Coffman*, 323 U.S. at 324
20 (citations omitted).

1 DISCUSSION

2 At its base, Plaintiffs complaint alleges: ICCTA “prohibits local laws” – in
3 this case, laws prohibiting the transit of certain fossil fuels by rail – that would
4 secure Plaintiff’s right to live in a healthy and safe Spokane and this undermines –
5 and thus infringes on – Plaintiff’s purported constitutional right to a livable habitat.
6 See ECF Nos. 1; 15. In other words, (1) the federal law prohibits local laws (2)
7 that would secure (3) Plaintiff’s right to live in a healthy and safe Spokane.

8 First, of special import here, the federal law does not *prohibit* the passing of
9 local laws. Rather, it may only preempt certain law’s application. This distinction
10 highlights the impropriety of deciding the merits of this case—because there has
11 been no preemption, there has been no harm in fact traceable to ICCTA, the issue
12 is not ripe for review, and any relief would amount to an advisory opinion and fail
13 to redress Plaintiffs’ concern.

14 There has been no harm traceable to ICCTA and the issue is not ripe because
15 the challenged law has not been applied—*i.e* there has been no injury by its
16 operation. *Coffman*, 323 U.S. at 324-25. Accordingly, deciding the case now is
17 not necessary and would not cause any significant hardship on Plaintiffs. *Id.*; *Joint*
18 *Anti-Fascist Refugee Committee*, 341 U.S. at 156. While the City Council cited
19 preemption concerns in their ultimate decision not to place the initiatives on the
20 ballot, this was based on a legal opinion by a third party, not an actual application

1 of the statute.³ Notably, the opinion also cited concerns that the measure would
2 strip business entities of legal rights, an “outcome [that] cannot be squared with the
3 constitution or the associated case law.” ECF No. 1-2 at 10.

4 Further, Plaintiffs could have attempted to circumvent the City Council by
5 garnering support from five percent of the electorate, which would have placed the
6 measure on the ballot regardless of any legal opinion. This seriously undermines
7 any claim that that ICCTA is preventing the initiative from passing, as opposed to
8 the Plaintiffs’ lack of effort. Plaintiffs argue that pursuing the initiative through
9 support of the electorate would be futile because third parties can bring suit
10 challenging the legality of the initiative based on preemption. This potential does
11 not render this avenue of action futile—rather, it highlights why this action is
12 premature. If the initiative were placed on the ballot, any legal challenge would

15 ³ “[T]he ‘case or controversy’ limitation of Art. III requires that a federal
16 court act only to redress injury that fairly can be traced to the challenged action of
17 the defendant, and not injury that results from the independent action of some third
18 party not before the court.” *Simon v. E. Kentucky Welfare Rights Org.*, 426 U.S.
19 26, 41-42 (1976); *see also Washington Env’tl. Council v. Bellon*, 732 F.3d 1131,
20 1141 (9th Cir. 2013).

1 bring the present issue front and center, as Plaintiffs would be able to defend the
2 initiative based on the arguments posed here.⁴

3
4 ⁴ Plaintiffs argue that their right to self-governance is being infringed because
5 federal law preempts state and local laws. For the reasons discussed above, this is
6 not the case. Moreover, Plaintiffs are not precluded from influencing state and
7 federal legislation, which are likely the best avenues where any concern for the
8 climate can be addressed on a state or national scale. Importantly, we have a
9 representative government at the federal level—even if Plaintiffs’ power to change
10 and create laws are diluted, this is the nature of our well-established system of laws
11 and self-governance by representation. It is noteworthy that Plaintiffs did not even
12 exercise the rights available to them. Plaintiffs could have tried to convince the
13 City Council that the law would not be preempted because such would be
14 unconstitutional; and Plaintiffs could have sought the requisite votes to get the
15 initiative on the ballot. Further, other avenues of redress exist. For example, “to
16 the extent that state and local agencies promulgate EPA-approved statewide plans
17 under federal environmental laws (such as ‘statewide implementation plans’ under
18 the Clean Air Act), ICCTA generally does not preempt those regulations because it
19 is possible to harmonize ICCTA with those federally recognized regulations.”

20 *Ass’n of Am. Railroads v. S. Coast Air Quality Mgmt. Dist.*, 622 F.3d 1094, 1098

1 Similarly, the requested relief – *i.e.* declaring ICCTA’s preemptive effect
2 unconstitutional – would only amount to an advisory opinion and would not
3 redress Plaintiffs’ claimed injury. Without a concrete application of the statute at
4 issue, any opinion and corresponding order would have no immediate effect, but
5 would rather amount to an advisory opinion as to whether *future* legislation would
6 be preempted. Whether a similar initiative will be placed on the ballot in the future
7 and whether the proposed law would be passed is speculative, at best. As such,
8 Plaintiffs’ claim rests upon “contingent future events that may not occur as
9 anticipated, or indeed may not occur at all.” *Thomas*, 473 U.S. at 580-581 (1985)
10 (internal quotations and citation omitted). In the words of the Supreme Court,
11 “[w]e can only hypothesize that such an event will come to pass, and it is only on
12 this basis that the constitutional claim could be adjudicated at this time. An
13 opinion now would be patently advisory” *Babbitt v. United Farm Workers*
14 *Nat. Union*, 442 U.S. 289, 304 (1979).

15
16 (9th Cir. 2010); *see also* *Quinault Indian Nation v. Imperium Terminal Servs.,*
17 *LLC*, 187 Wn.2d 460, 469 (2017) (the Washington Ocean Resources Management
18 Act is “a balancing tool intended to be used by local government to weigh the
19 commercial benefits of coastal development against the State’s interest in
20 protecting coastal habitats and conserving fossil fuels.”).

1 Second, Plaintiffs’ claim of harm is not fairly traceable to ICCTA and any
2 relief requested would not redress the purported harm. Plaintiffs’ argument is
3 premised on a causal link (1) from ICCTA to the failure of the initiative to pass
4 and (2) from the failed initiative to general global warming. The first link fails to
5 hold because ICCTA did not prevent the legislation from passing, as discussed
6 above. *Bellon*, 732 F.3d at 1142 (“where the causal chain involves numerous third
7 parties whose independent decisions collectively have a significant effect on
8 plaintiffs’ injuries, . . . the causal chain is too weak to support standing.”) (citation
9 omitted) .

10 The second link – the causal connection between the failed initiatives and
11 Spokane’s climate - is tenuous, at best. Plaintiffs do not argue that the mere transit
12 of fossil fuels through Spokane harms the environment. *See* ECF No. 1. Rather,
13 Plaintiffs rely on the purported fact that the *use* of fossil fuels is contributing to
14 global warming, which – as Plaintiffs argue – will eventually lead to mass
15 extinction. Plaintiffs’ position is premised on the idea that banning transportation
16 of certain fossil fuels through Spokane will create a choke point and effectively
17 throw a wrench in the cogs of the fossil fuel industry—thereby leading to less
18 extraction and combustion due to the inability to transport the fossil fuels. This
19 causal chain is too attenuated to establish standing—it is not the transit, but the
20 combustion, that purportedly causes climate change. Importantly, Plaintiffs cannot

1 rely on “vague, conclusory statements” that ICCTA preemptive effect “contributes
2 to greenhouse gas emissions, which in turn, contribute to climate-related changes
3 that result in their purported injuries.” *Bellon*, 732 F.3d at 1142. Although an
4 avalanche of similar legislation across the country may achieve Plaintiffs’ goal,
5 this possibility is highly questionable and purely speculative. Indeed, the proposed
6 legislation may even increase fossil fuel emissions if trains must travel around
7 Spokane or if the fossil fuel is delivered by truck. *Lewis*, 494 U.S. at 477 (“Article
8 III denies federal courts the power ‘to decide questions that cannot affect the rights
9 of litigants in the case before them’”) (quoting *North Carolina v. Rice*, 404
10 U.S. 244 (1971)).

11 AMENDMENT OF THE COMPLAINT

12 At oral argument, Plaintiffs’ counsel conceded that Plaintiffs have put their
13 best foot forward with respect to the complaint⁵; and when the Court asked
14 whether amendment of the complaint would be futile, Plaintiff’s counsel did not
15
16

17 ⁵ THE COURT: Okay. I understand your argument and I, from your
18 argument, I don’t see that you need leave to amend . . . I take it there isn’t any
19 other allegation you could make in response to the government’s motion to dismiss.

20 MR. SCHROMEN-WAWRIN: That’s right, Your Honor.

1 bring any additional argument or facts suggesting an amendment would be
2 anything other than futile.

3 **CONCLUSION**

4 Plaintiffs have brought this claim before the statute at issue has been enacted
5 and have failed to plausibly show that the relief they request will achieve their
6 concern for a healthy and safe Spokane. Amendment would be futile, so the Court
7 is **GRANTING** Defendant's Motion to Dismiss **without leave to amend**.

8 **ACCORDINGLY, IT IS HEREBY ORDERED:**

- 9 1. Defendant's Motion to Dismiss for Lack of Subject Matter Jurisdiction
10 and Failure to State a Claim (ECF No. 11) is **GRANTED**.
- 11 2. The District Court Executive is directed to **ENTER** this Order and
12 Judgment accordingly, furnish copies to counsel, and **CLOSE** the file.
- 13 3. The deadlines, hearings and trial date are **VACATED**. Each party to
14 bear its own costs and expenses.

15 **DATED** July 14, 2017.

Thomas O. Rice
THOMAS O. RICE
Chief United States District Judge
