No. 225090

Wayne Circuit Court

LC No. 99-925350-AA

Before: White, P.J., and Neff and Jansen, JJ.

WHITE, P.J. (*concurring*).

While plaintiff appears to have been a casualty of the bad relationship between Kiner and Carnegie, the record reflects that Harris made the decision to call for a second round of interviews. The CSC's conclusion that the record contains adequate reasons for this decision was supported by competent, material and substantial evidence on the whole record. I agree that the circuit court did not apply this standard in conducting its review.
