PER CURIAM:

Asmar Nafis Newsome appeals the district court's order construing his Motion for Plain Error Review as an unauthorized, successive 28 U.S.C. § 2255 motion and dismissing it on that basis. Our review of the record confirms that the district court properly construed Newsome's motion as a successive § 2255 motion over which it lacked jurisdiction because he failed to obtain prefiling authorization from this court. *See* 28 U.S.C. §§ 2244(b)(3)(A), 2255(h). Accordingly, we deny the Motion for Plain Error Review Newsome filed in this court and affirm the district court's order. We dispense with oral argument because the facts and legal contentions are adequately presented in the materials before this court and argument would not aid the decisional process.
