PER CURIAM:

David Hill appeals the district court's order denying the Fed. R. Civ. P. 60(a) motion to correct a clerical error that Hill filed in his underlying criminal case. We have reviewed the record and find no reversible error. Accordingly, we affirm for the reasons stated by the district court. *United States v. Hill*, No. 1:01-cr-00191-CMH-1 (E.D. Va. Nov. 4, 2021). We deny Hill's motions to place this appeal in abeyance pending the district court's resolution of another postjudgment motion; for limited remand to the district court; for judicial notice of FBI documents; and for reassignment to a different district court judge. We dispense with oral argument because the facts and legal contentions are adequately presented in the materials before this court and argument would not aid the decisional process.
