Get your Paper Jamz Guitar Questions Answered

October 16th, 2010 |

A Paper Jamz Guitar is manufactured from pressed paper laminated and printed to appear like a classic copy of a real guitar. The guitar has unique sensors that picks up your finger movements, allowing you to play along with pre-recorded songs. Paper Jamz have a speaker incorporated in each guitar so you can have fun with the guitar straight out of the box. You can also connect headphones or an external amplifier for improved sound quality. In series one, there are 6 paper jamz guitar styles to choose from. Designed differently, each guitar body is created to reflect a famous guitar from Fender Statocasters to Gibson Les Paul. Different songs are pre-loaded on each guitar but the main functionality are the same. The low cost of the Paper Jamz Guitar is one of it's main benefits.

Paper Jamz

Which is the best Paper Jamz Guitar?

There are six guitars in the Paper Jamz series 1, each with 3 unique pre-programmed songs. Choosing the right guitar for you or as a gift is as simple as finding the guitar that you like best.

What's Different?

One of the main differences in each of the Paper Jamz guitars is that there are different songs preloaded into the guitar. For example, the **Rock style 2** guitar is loaded with the songs **It's the End of the World As We Know It (And I Feel Fine)**, **What I Like About You**, and **Two Princes**. Each of the six guitars is packed with three different songs, so you can choose the ones that you like best. The guitars are also each designed differently, as well.

The designs of each Paper Jamz guitar are similar to a classic that is highly sought after. For example, the **Rock Style 6** guitar in Series 1 of Paper Jamz is made to resemble a **Gibson SG** while the **Rock Style 1** is made to look like the famous **Gibson Les Paul**. You can choose from your favorite styles of guitar, with the styles ranging from the classic **Fender Stratocaster** to the **Gibson Flying V Design**.

A great thing about the Paper Jamz guitars is that you can buy different designs for the children's gifts, and won't have to worry about arguments over who has which guitar. The designs are all very different from each other, and all of them are bold and fun for people of all ages.

Features

Each of the six guitars in the Paper Jamz series also allows you to learn real chords, thanks to the working fret bar. Even though the strings aren't real, you can learn to play by strumming the chords appropriately.

09 PAPER JAMZ GUITARS WILL BE THE HOTTEST TOY OF THE YEAR

Nov 2 Downloading Comments (0)
A brand new gadget to hit the market recently is the Paper Jamz Guitar. Essentially it's a musical toy, but produced from paper. These are an amazing creation and provide a musical instrument playing discovery unlike any other. They are a great way for virtually every guitar fan to learn the guitar without having virtually any know-how. This Anyone can potentially start to play the guitar just like a professional. It is a guitar that features no strings. This guitar is perfect for playing like a rock legend.

There are various types of Paper Jamz Guitars to choose from. Every different type is inspired by a vintage rock guitar, including the Fender Strat, the Fender Telecaster, and the Gibson Flying V. In addition, each guitar type incorporates several different tracks that you can play along to.

Learning to play the paper Jamz Guitar is simple, and it provides 4 choices or settings with regard to trying to play. One of the settings is termed "Perfect Jamz", that you can choose on top of your Paper Jamz fret bar. Select the setting switch along the front of the paper Jamz guitar. After you hear the music track start simply decide on the tune you would like. After you hear the tune that you wish to play you simply click the fret bar. After that begin to strum the strings. This begins what is known as the "Perfect Play" setting. Whenever you cease strumming you won't hear the guitar sound. You just hear the song carry on playing.

A different playing choice is referred to as "Rhythm". This style enables you to strum the rhythm part of the song. Simply click the "rhythm" switch on the fret bar. Once the count in happens, you are able to strum the guitar strings. Another choice is the "Freestyle" style that you can choose from the fret bar. Play a solo song for the crowd. It allows you to feel as if you've been playing for years. All of the Paper Jamz Guitars make you think that you are an actual rock star. Additionally there is the "Karaoke" playing style. Select the Karaoke setting on the front of the paper guitar hold down the setting switch before you hear the songs. Whenever you hear the music start to play you simply select a tune. After that choose fret number 1 so that you can remove the singing track.

The next two frets remove the music group. By Pressing frets 1 to 3, you can easily revert back to Freestyle mode. The level of volume is changed by holding down the volume switch and sliding your finger up the fret to a volume you feel happy with. Paper Jamz Guitars are best played as a band. You can enjoy your music even further by picking up one of the Paper Jamz Guitars amp.

- Every Paper Jamz Guitar includes a mini

Each has three different modes of play: 'fall-safe', rhythm, and freestyle. 'fall-safe' mode will likely be your first port of call as you strum along indiscriminately to one of the three pre-loaded tracks, an ideal mode for getting used to really looking the part of a rock star, perfecting your strut, and pour. Rhythm mode has you strumming along in time with a pre-loaded track, giving you a taste of rhythm and timing.

Freestyle is where it gets really interesting though. This is where you can put together your best rock star posing and posturing, and shred out some riffs that the likes of Hendrix and Slash would be proud of. In Freestyle mode you can utilise the fret board in open E tuning. Let your fingers spider-walk their way along the fret board to hit the various notes up and down the scale. One finger on the fret board gives a major, two does minor, and three fingers does a 7th. The ingenious thing about the Paper Jamz is that they let you do all of this **without strings!** That's right, the fret board of these wafer thin wonders houses Active Graphics Electronics. Basically this means that you can use the touch sensitive fret board to create some truly magnificent riffs, running your fingers up and down its length without needing to worry about strings, because there aren't any!

Paper Jamz come in five different classic designs such as the **Gibson Flying V**, and Fender Stratocaster, with three other designs. Each includes 3 pre-loaded rock anthems from heavyweights of the genre such as Steppenwolf, Deep Purple, REM, The Kinks, Blue Oyster Cult, and more besides. Paper Jamz are great just as a bit of fun, or maybe a prelude to a real six string bought at the five and dime.

All that remains to say is that for those about to rock, we salute you.

Features:

- Paper thin, string less guitar
- Touch sensitive fret board contains Active Graphics Technology
- Each pack contains 1 Paper Jamz Guitar, instruction manual, and quick start guide
- Requires 3x AAA Batteries (Included)
- Approximate dimensions 730 x 320 x 15mm
- Available in five different designs, each with different tracks pre-loaded:
 - Rock 1 - "What I Like About You" "Two Princes" "It's The End Of The World As We Know It"
 - Rock 2 - "Born To Be Wild" "Mississippi Queen" "Smoke on the Water"
 - Rock 3 - "You Really Got Me" "Blitzkrieg Bop" "Godzilla"
 - Rock 4 - "Hey There Delilah" "All Star" "Helicopter"
 - Rock 5 - "Woman" "Rockstar" "Take It To The Limit"

Paper Jamz Guitar

Paper Jamz Guitar is the only affordable and innovative play instrument with circuit-embedded paper that lets you play by simply touching the paper surface. The guitars have three different playing modes: perfect play, rhythm mode and freestyle. The first two are simply playing along with the three songs included with the guitar but it's the freestyle that I thought interesting. The greatest toys that you could ever have this season is the paper jamz guitar. But what exactly is this toy? Let's give it a review.

The Paper Jamz Guitar is a musical toy instrument made from paper and cardboard with sensors that makes the sound when you touch the imaginary fret board and strum the imaginary strings. The guitar exactly like a pro. It's a guitar that features no strings. The Paper Jamz Guitar is made for jamming just like a rock and roll legend. There are various types of Paper Jamz Guitars to choose from. Every model is based on a classic rock and roll guitar, like the Fender Strat, the Fender telecaster, or the Gibson Flying V. Furthermore, each individual guitar product contains several different songs that you can play along to. Playing these little gadgets is easy, and it features four variations or modes to get you playing. One of many modes is called Perfect Jam, that you can pick on top of your guitar fret bar. Select the setting button along the front of the guitar.
