

To: Judge Steven Rhodes  
CASE# 1353846

I am retired & living on my small pension. If you allow Kevin O'Keefe to cut my pension it would effect my ~~health~~ health because of stress & anxiety. I am already stretching my budget. I am 68 & try to not worry. My health is very weak I must use oxygen because my lungs function at 50% do to working around aspartis. I have one kidney, we know getting old is not easy why are we tho old & weak being attacked. Please rule to save us from welfare. I work 35 years to keep off public assistance not to be humiliated. The little money that I receive keep me independent. I cannot afford to take any cut, my medical keeps me alive. Please please don't take any of the little I receive now. I am sitting here now with aching legs
