RE: CASE # 13-53846

Dear Judge Rhodes:

Just a note to give you an idea of what the cut to my pension along with the cuts in healthcare will do to me and I'm sure other retirees. I have End Stage Renal Disease (new kidney) which requires anti-rejection medications plus other medication for illnesses that occur as we grow older. I am on twelve (12) different medications and now with the cuts in our healthcare I will be paying between \$160 and \$200 each for medication after being accustomed to paying between \$10 and \$20 each. And now, my pension can be cut 34%. No one seems to understand that seniors need healthcare simply because of nature catches up and with the cost of medications we need the money.

Respectfully,

Octavius E. Sapp
