

Re: Case #13-53846
Judge Steven Rhodes
C/O Clerk of the court

Your Honor,

I am a retired employee of the city of Detroit writing in regards to Kevln Orr and Governor Snyder's plan to bring Detroit back to prosperity at the expense of the employees who were promised that if they worked diligently to perform the duties of our classifications we would be duly rewarded with the things promised in our contracts. This great city should not be used as a test case for politicians whose agendas do not include the welfare of present or past employees. We cannot afford to live on half of the pension we were entitled to, with insurance costs tripled with less service. We are the people who have taken concessions for the last 20 years trying to help the city survive and as we move into our twilight years we should be able at the very least "eat" we cannot do that if the bankruptcy as it is presented is finalized. Please consider our plight.

Sincerely,

Peggy A. Heade
