Story: Police Blotter: Dark side of 'reputation defending' service

I am the manager at Killeen Texas Computer Nerds located in Killeen Texas. The gentleman talked about in this article is Ed Magedson. I had received a phony report on his web site authored by Magedson himself. I sued the lady who originally posted the report and when I had attended a motion for summary judgment hearing in cause of action 206,117C, a District Court in Bell County Texas, the Defendant Glenda Chappel announced under oath that the report in question on ripoffreport.com was not the report she had drafted and that in fact Magedson himself was a co author. A few days ago, I had a telephone conversation with Edward Magedson, one of the owners of ripoffreport.com. I taped the telephone conversation. You can listen to the conversation at www.freeripoffreport.com . Ed Magedson is fraud. He will more then likely end up in prison. Please call me if you would like to here all of the taped conversation I had with this guy (254) 690-6373 ? Shawn A. Richeson ? Computer Nerds Killeen Texas

Story: Police Blotter: Dark side of 'reputation defending' service

I would wholeheartedly invite Ed Magedson - Maria Crimi Speth - The Law Firm of Jaburg and Wilk, P.C., to take the original (un edited) telephone recording made by Ed Magedson and post it on the Web. We would all like to hear it !

Ed is notorious for taping phone calls. I would imagine a person like him is looking over his shoulder, sleeping with one eye open and employing electronic surveillance around his perimeter 24 hours a day seven days a week.

A ruthless website operator (Ed Magedson) that is pointing fingers at another website operator that is having tremendous success in burying negative and inflammatory reports engineered by ripoffreport.com and its agents, needs to be concerned.

When a criminal enterprise such as ripoffreport.com derives 100% of its revenue by collecting protection money and extortion fees from businesses in exchange for removing fabricated, modified and at times fraudulent reports posted on its own forums and a person with as much energy and resources as myself comes along and flat knocks him on his ass, it is time to look for another job Mr. Edward Magedson.

Thank you for pointing out the editing of the audio recording. (Imao) I just want to amplify what type of demented idiot Ed Magedson is and let the victim Businesses of Ripoffreport.com get a closer look at who they are dealing with and why it important to not pay any extortion moneys to ripoffreport.com.

CNET was correct in drawing attention to Russo, Stanley and the other SEO experts that have locked arms in a collective effort to dismantle arguably the most successful internet criminal extortion enterprise since the internet began.

Fortunately, the very few "Corporate Advocacy" ripoffreport.com clients, aka Business extortion victims will soon learn of me and my capabilities to shut you down and end your reign of extortion.

Please visit my website and see how we can help you get relief from the damaging effects of ripoff report: <http://www.freeripoffreport.com>
