DEFENDANTS

ORDER

The Court is working through the injunction papers. As with most preliminary injunctions, the likelihood of success on the merits is critical. Because of the nature of the case, the Court believes it can make a final decision about the merits and injunctive relief. If either party wishes to be heard further, please file simultaneous briefs on 5 May 2021. Citations to the Administrative Record are welcome, including

specific evidence required, considered, or ignored during the administrative proceedings.

So Ordered.
