**Proceedings:** TELEPHONIC STATUS CONFERENCE

Cause called; appearances made. Also present is the Honorable Stephen J. Hillman, Magistrate Judge.

Court questions Microsoft's counsel regarding the current status of the case and the feasibility of coordinating the discovery between all three related actions. The Court is provided with Microsoft's position on the matters discussed at the last hearing between plaintiff Perfect 10 and defendants Google and Amazon.com.

Court authorizes Magistrate Judge Hillman to take off calendar all pending motions currently scheduled for hearing on September 8, 2008.

Court and counsel discuss whether or not to separate the three issues contemplated in A9's forthcoming summary judgment motion into separate motions. The Court agrees that the Safe Harbor issue can be distilled in another motion whereas the direct and vicarious infringement issues should remain in a single motion.

Court orders the parties to order a transcript of this hearing. The cost is to be split four ways.
