Proceedings: (IN CHAMBERS)

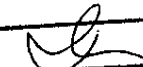

Plaintiff has brought a discovery motion to compel production of documents from Defendant Kaiser. The motion is DENIED. Local Rule 37-2.2 requires any party wishing to pursue a discovery motion to meet and confer with opposing counsel and to prepare a joint stipulation setting forth the issues that are unresolved and the parties' positions on the issues. Local Rule 37-2.4 provides that the Court will not consider any discovery motion in the absence of a joint stipulation under Rule 37-2.2, unless opposing counsel has refused to cooperate. Plaintiff has failed to allege that a meet and confer took place or that Defendant's counsel has refused to cooperate. In fact, Defendant's counsel has informed the Court in its opposition that Plaintiff never even attempted to have the meeting. For this reason, the motion is DENIED.

The hearing scheduled for April 5, 2004, is taken off calendar.
