Best to read below.

Right or wrong.. true or false... Best to respond to the report. Be pleasant and show consumers what kind of person ./ company you are... it works for other business. If you handle it the right way, it will bring you new found business. Consumers like to hear a 3rd party opinion. They like to see how a business handles problems, whether they be true or false, ... if false, explain why, .. if true, who would not want to do business with a company that can admit, maybe they made a mistake, .. this shows a consumer that you have nothing to hide, it will show them that you want to take care of business, by taking care of that consumer, telling them to please contact you (in your rebuttal) so you can make things right for them. What consumer would not want to do business with someone that knows how to make things right... Just file a rebuttal.. the truth shall set you free.

We do hear what you are saying - and let's say we believe you - but, we never really know for sure about those who email us, ..as you can imagine people tell us all kinds of things, lying to us... just to try to convince us to remove the report about them. How are we to know who is telling the truth? And how could we afford to investigate all of the claims that are made by people who want their report taken down. Hopefully you realize the true value of Rip-off Report for consumers, ..the authorities and the media do..

Our philosophy is that Rip-off Report is a permanent record just like when someone files a complaint in court. You can file a rebuttal, like when you file an answer in court when someone files a bogus law suit, ... the court will never remove the complaint from the public records either. They are now being found on the search engines too... When we get sued, those court record law suits are found right on the same page with Rip-off Report.
