This is a fair warning. If you or somebody you know is thinking about working or interning at the Asia Economic Institute or anything associated with the Asia Economic Institute, please read on. I have known and worked with many people from that same institute and the collective feeling is quite the same.

The Asia Economic Institute was supposedly found in 1999 by Raymond Mobrez and Iliana Llaneras, former bankers as far as I know. It is privately funded by the two who co-currently run another business that leverages their connections in the real estate industry. Asia Economic Institute has never made money and has gone back and forth as a non-profit to a for profit company many times.

The one thing they succeed at doing well is hiring vulnerable recent grads and international students to join this "firm." They have promised many previous workers work visas, reference letters for university, and numerous raises and they have failed
