

DRAFT - EDWARD MAGEDSON - 6/8/10

*** UNEDITED UNCERTIFIED TEXT ***

Q. Dating back to February 2009 saying to the effect of, I have false inflammatory and derogatory reports about me on RipOffReport.com and requesting the IP addresses of those authors. And then I have --

A. How did I respond.

Q. Oh, you are asking the questions. I'm sorry.

Q. As far as I know, the response was to advise her to read about CAP?

A. That would not happen. Just doesn't happen. It's not --

Q. There's no question.

A. Well, you gave an opinion about something, I think or a statement, and I'm saying it just wouldn't happen.

Q. Why do you say that it wouldn't happen?

A. Because somebody asked you for an IP address, even author address, asking for removal. There is a standard e-mail. There is one of two standard e-mails that are sent. They just kind of reads a different way, the two of them. But they both basically say the same thing and none of it just -- or go look at CAP. Because CAP doesn't get you the IP address.
