ULP-30 & UTL-30 SERIES: IMPROVED STRINGS!

MAHALO LP & T STYLE UKULELES

The most exciting brand of ukuleles on the market today just got even better by offering several new ukuleles in two of the most iconic guitar shapes made famous throughout the 1950s and '60s. Though the look of these instruments speaks of rock and roll, each still retains that traditional tone and charm of the Hawaiian Islands and the honor of being the most played instrument the world over.
