Santa Fe Railway Company, and successor to Atchison Topeka & Santa Fe Railway Company) ("BNSF Railway") collectively referred to herein as the "Parties," hereby stipulate and agree as follows:

4 A. DTSC filed a Complaint in this action against Dow, Shell, Hercules and BNSF 5 Railway (jointly "Stipulating Defendants") on January 14, 1998 in connection with the 6 environmental cleanup of the Brown & Bryant Shafter Site, in Shafter, CA ("the Shafter Site").<sup>1</sup> 7 DTSC filed a First Amended Complaint on March 9, 1998 and a Second Amended Complaint on 8 November 6, 1998 (the Complaint and Amended Complaints are jointly referred to as 9 "Complaint").<sup>2</sup> The Complaint seeks recovery of DTSC's response costs and declaratory relief 10 under the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C § 9601 et seq. ("CERCLA"), arising from alleged releases and threatened releases of hazardous substances at and from the Shafter Site. The Complaint also seeks civil penalties under California Health & Safety Code § 25359.2 for non-compliance with the Imminent or Substantial Endangerment Determination Order and Remedial Action Order, In the Matter of: Brown & Bryant, Inc., 135 & 140 Commercial Drive, Shafter, CA, issued by DTSC on July 23, 1993 ("ISE Order"). B. The Stipulating Defendants filed their respective Answers to the Complaint. Dow also filed counterclaims against DTSC and a third party complaint against the Hazardous Waste 19 Control Account and Hazardous Substances Account, on April 4, 1998. Dow filed First 20 Amended Counterclaims against DTSC on May 5, 1998, and filed a Notice of Voluntary 21 Dismissal of its third party complaint against the Hazardous Waste Control Account and 22 Hazardous Substance Account on that date. The Court entered the order of dismissal on May 12, 23 1998. Hercules filed counterclaims against DTSC and cross-claims against BNSF Railway on 24 <sup>1</sup> DTSC's Complaint was originally numbered CV-F-98-5050-OWW-DLB; it was 25 consolidated with the already pending action numbered CV-F-96-5879-OWW-DLB. (Minute Order, May 7, 1998). 26 DTSC's Complaint included claims against additional defendants. DTSC settled its claims against Chevron Chemical Company (Orders Approving Settlement, filed October 4 and 27 26, 1999) and dismissed its claims against Novartis and Ciba-Geigy Corporation (Order

Dismissing Claims, filed January 28, 1999 and Stipulation Substituting Party, April 2, 1998). 28

Stipulation For Dismissal of Claims and [Proposed] Order (CV-F-96-5879 OWW/ DLB)

October 30, 1998. BNSF Railway filed cross-claims against a number of parties, including Shell, Dow and Hercules, on May 6, 1998 and filed amended cross-claims on November 9, 1998. DTSC filed a motion to dismiss Dow's Counterclaims on June 5, 1998. That motion was argued on August 24, 1998, and is still pending.

C. When DTSC's Complaint in this action was filed, it was related to pending cases in this court involving claims arising from releases and threatened releases of hazardous substances from the Brown & Bryant Shafter Site and from another location where Brown & Bryant conducted business, in Arvin, CA ("the Arvin Site"). The claims related to the Arvin Site were tried from March through September 1999, and judgment was entered by the district court on September 10, 2003. The judgment was appealed to the U.S. Court of Appeals for the Ninth Circuit (U.S. v. Burlington Northern and Santa Fe Railway Co. (9th Cir. 2008) 520 F.3d 918), and the U.S. Supreme Court (Burlington Northern and Santa Fe Railway Co. v. U.S. (2009) 129 S.Ct. 1870).

D. The claims regarding the Shafter Site in this action were stayed and the trial date for the Shafter Site was vacated by stipulation of the parties and the order of this court entered on December 16, 1999. The purpose of the stay was to provide the parties with the opportunity to develop information regarding human and environmental risks posed by the Shafter Site and the 18 feasible alternatives for remediation of the alleged releases or threatened releases of hazardous 19 substances at the Shafter Site.

E. On May 21, 2009, DTSC approved the Final Remedial Action Plan, identifying the appropriate remedial actions for the Shafter Site.

22 F. On May 4, 2009, the U.S. Supreme Court issued its decision in *Burlington Northern* 23 and Santa Fe Railway Co. v. U.S. (2009) 129 S.Ct. 1870. Among other things, the Supreme 24 Court found that Shell is not a person who, under CERLCA, "arranged" for disposal of hazardous 25 substances at the Arvin Site, and therefore Shell is not liable for U.S. EPA or DTSC's response 26 costs for the Arvin Site. This decision provided new guidance from the Supreme Court on 27
