	SECOND JOINT STIPULATION AND ORDER AMENI	-1- DING SCHEDULE FOR TRANSMITTAL OF DRAFT SMELT BIOP

RECITALS

- 1. On May 19, 2011, this Court entered its Amended Judgment in these *Delta Smelt Consolidated Cases* requiring the United States Fish and Wildlife Service ("FWS") to "transmit to [the Bureau of] Reclamation by October 1, 2011 a draft delta smelt Biological Opinion consistent with the requirements of law." (Amended Judgment, Doc. 884 at 3:18-19.)
- 2. On September 30, 2011, this Court vacated the October 1, 2011 deadline in the Amended Judgment (Doc. 884) for transmittal of the draft delta smelt Biological Opinion ("draft BiOp"). (Doc. 1061.) The Court ordered instead that by October 31, 2011 the parties file a written report stating whether the parties have jointly agreed upon a revised completion date for the draft BiOp. The Court further ordered that failing such agreement, the draft BiOp was to be transmitted by November 11, 2011.
- 3. Since the Court's order, a number of the parties have engaged in discussions regarding a restructuring of the consultation process and a new deadline for the draft BiOp, but have not yet reached agreement. However, these parties would like to continue these discussions, and agree they need more time beyond October 31, 2011 to complete discussions and potentially reach agreement.

Good cause exists for the granting of the below requested schedule change for transmittal of the draft BiOp, and the parties respectfully request that the dates set by this Court be modified as shown below.
