UNITED STATES DISTRICT COURT  
EASTERN DISTRICT OF CALIFORNIA

----oo0oo----

COUNTY OF STANISLAUS,  
Plaintiff,  
  
v.  
  
TRAVELERS INDEMNITY COMPANY;  
and DOES 1 through 50,  
inclusive,  
  
Defendant.

CIV. NO. 1:14-00666 WBS SMS  
MEMORANDUM AND ORDER RE: CROSS-  
MOTIONS FOR SUMMARY JUDGMENT

----oo0oo----

This action seeks to resolve disputes regarding the coverage due under a comprehensive general liability policy issued to plaintiff County of Stanislaus by the Insurance Company of the Pacific Coast, which was a former entity of defendant Travelers Indemnity Company. Pursuant to Federal Rule of Civil Procedure 56, both parties move for summary judgment to resolve defendant's obligations under the policy.

I. Factual and Procedural Background

From 1970 until 1990, plaintiff operated the Greer

1 Landfill in the eastern edge of the San Joaquin Valley adjacent  
2 to the Tuolumne River. (Docket No. 28-13.) The Greer Landfill,  
3 which closed in 1995, contains approximately 4.5 million tons of  
4 residential, commercial, industrial, construction, and demolition  
5 waste that was deposited into excavated cells in the ground.

6 (Id.) The policy at issue in this case was in effect from only  
7 October 13, 1972 to October 13, 1975. (Docket No. 28-8.) The  
8 policy excludes coverage for contamination, but reinstates  
9 coverage for "sudden and accidental" discharges. (Id.)

10 In 1985, groundwater degradation was identified at the  
11 landfill and efforts have been undertaken to remediate the  
12 groundwater contamination since at least 1991. (Docket No. 28-  
13 13.) In 2009, the California Regional Water Quality Control  
14 Board ("CRWQCB") issued an order identifying plaintiff's "Waste  
15 Discharge Requirements." (Id.) Finding that the "extent of the  
16 groundwater contamination has not been defined" and that the  
17 existing "landfill gas and groundwater extraction systems are not  
18 adequate," the CRWQCB issued a Cease and Desist Order in 2011.  
19 (Docket No. 32-3 at STATRAV2316-STATRAV2318.)

20 On August 5, 2011, plaintiff initiated an action in  
21 state court against the City of Modesto (the "City") seeking  
22 damages against the City based on contamination at the Greer  
23 Landfill. On August 24, 2011, the City filed a Cross-Complaint  
24 against plaintiff seeking indemnity and damages incurred as a  
25 result of the contamination. Plaintiff informed defendant of its  
26 lawsuit against the City five months after filing it and then  
27 tendered the defense of the City's Cross-Complaint on January 27,  
28 2012. (Barillari Decl. ¶¶ 3, 5 (Docket No. 28-7).) Defendant

1 accepted the tender subject to a complete reservation of rights  
2 and informed plaintiff that the "defense may be conducted by  
3 appropriately qualified counsel of the County of Stanislaus's  
4 choice, in any manner deemed appropriate to protect the interests  
5 of the County." (Docket No. 28-15.)

6 While defendant has paid legal fees incurred in  
7 defending against the City's Cross-Complaint, it has not paid any  
8 of the non-legal environmental consultant invoices plaintiff  
9 submitted. Plaintiff initiated this action in state court  
10 seeking declaratory relief to resolve defendant's obligations  
11 under the policy and alleging claims for breach of contract and  
12 breach of the implied covenant of good faith and fair dealing.  
13 (Docket No. 1.) Defendant removed the action to federal court,  
14 and the parties now seek summary judgment resolving whether  
15 defendant has a duty to defend plaintiff and, if so, whether the  
16 non-legal environmental consultant costs are defense costs.

### 17 III. Analysis

#### 18 A. Legal Standard

19 Summary judgment is proper "if the movant shows that  
20 there is no genuine dispute as to any material fact and the  
21 movant is entitled to judgment as a matter of law." Fed. R. Civ.  
22 P. 56(a). A material fact is one that could affect the outcome  
23 of the suit, and a genuine issue is one that could permit a  
24 reasonable jury to enter a verdict in the non-moving party's  
25 favor. Anderson v. Liberty Lobby, Inc., 477 U.S. 242, 248  
26 (1986). The party moving for summary judgment bears the initial  
27 burden of establishing the absence of a genuine issue of material  
28 fact and can satisfy this burden by presenting evidence that

1 negates an essential element of the non-moving party's case.

2 Celotex Corp. v. Catrett, 477 U.S. 317, 322-23 (1986).

3 Alternatively, the moving party can demonstrate that the non-  
4 moving party cannot produce evidence to support an essential  
5 element upon which it will bear the burden of proof at trial.

6 Id.

7           Once the moving party meets its initial burden, the  
8 burden shifts to the non-moving party to "designate 'specific  
9 facts showing that there is a genuine issue for trial.'" Id. at  
10 324 (quoting then-Fed. R. Civ. P. 56(e)). To carry this burden,  
11 the non-moving party must "do more than simply show that there is  
12 some metaphysical doubt as to the material facts." Matsushita  
13 Elec. Indus. Co. v. Zenith Radio Corp., 475 U.S. 574, 586 (1986).

14 "The mere existence of a scintilla of evidence . . . will be  
15 insufficient; there must be evidence on which the jury could  
16 reasonably find for the [non-moving party]." Anderson, 477 U.S.  
17 at 252.

18           In deciding a summary judgment motion, the court must  
19 view the evidence in the light most favorable to the non-moving  
20 party and draw all justifiable inferences in its favor. Id. at  
21 255. "Credibility determinations, the weighing of the evidence,  
22 and the drawing of legitimate inferences from the facts are jury  
23 functions, not those of a judge . . . ruling on a motion for  
24 summary judgment . . . ." Id. On cross-motions for summary  
25 judgment, the court "must review the evidence submitted in  
26 support of each cross-motion [in a light most favorable to the  
27 non-moving party] and consider each party's motions on their own  
28 merits." Corbis Corp. v. Amazon.com, Inc., 351 F. Supp. 2d 1090,

1 1097 (W.D. Wash. 2004).

2 B. Duty to Defend and the Pollution Exclusion

3 An insurer's duty to defend "runs to claims that are  
4 merely potentially covered, in light of facts alleged or  
5 otherwise disclosed" and "extends to all specified harm that may  
6 possibly have been caused by an included occurrence." Aerojet-  
7 Gen. Corp. v. Transp. Indem. Co., 17 Cal. 4th 38, 58 (1997)  
8 ("Aerojet"). "[T]he insurer must defend in some lawsuits where  
9 liability under the policy ultimately fails to materialize; this  
10 is one reason why it is often said that the duty to defend is  
11 broader than the duty to indemnify." Montrose Chem. Corp. v.  
12 Superior Court, 6 Cal. 4th 287, 299 (1993). "Any doubt as to  
13 whether the facts establish the existence of the defense duty  
14 must be resolved in the insured's favor." Id. at 299-300.

15 The duty to defend "arises as soon as tender is made"  
16 and is "discharged when the action is concluded" unless it is  
17 "extinguished earlier" because the insurer shows "that no claim  
18 can in fact be covered." Aerojet, 17 Cal. 4th at 58. "[I]n an  
19 action wherein none of the claims is even potentially covered  
20 because it does not even possibly embrace any triggering harm of  
21 the specified sort within the policy period caused by an included  
22 occurrence, the insurer does not have a duty to defend." Id. at  
23 59.

24 "An insurer is entitled to limit its coverage to  
25 defined risks, and if it does so in clear language, [the court]  
26 will not impose coverage where none was intended." Am. States  
27 Ins. Co. v. Sacramento Plating, Inc., 861 F. Supp. 964, 968 (E.D.  
28 Cal. 1994) (quoting Titan Corp. v. Aetna Casualty & Sur. Co., 22

1 Cal. App. 4th 457, 469 (4th Dist. 1994)) (alteration in  
2 original). Here, the policy excluded coverage for contamination,  
3 but reinstated coverage if the contamination was "sudden and  
4 accidental":

5  
6 It is agreed that the insurance does not apply to  
7 bodily injury or property damage arising out of the  
8 discharge, dispersal, release or escape of smoke,  
9 vapors, soot, fumes, acids, alkalis, toxic chemicals,  
10 liquids or gases, waste materials or other irritants,  
11 contaminants or pollutants into or upon land, the  
12 atmosphere or any watercourse or body of water, but  
13 this exclusion does not apply if such discharge,  
14 dispersal, release or escape is sudden and accidental.

15 (Docket No. 28-8.)

16 When addressing similar exclusions, California  
17 appellate courts have held that the insured "establishes that  
18 [the insurer] is obligated to defend . . . if there is any  
19 potential that the release or escape of at least some of the  
20 pollutants was 'sudden and accidental.'" Vann v. Travelers  
21 Cos., 39 Cal. App. 4th 1610, 1616 (1st Dist. 1995); A-H Plating,  
22 Inc. v. Am. Nat'l Fire Ins. Co., 57 Cal. App. 4th 427, 437  
23 (1997); accord Arrowood Indem. Co. v. Bel Air Mart, No. 2:11-CV-  
24 00976 JAM-AC, 2014 WL 841314, at \*5 (E.D. Cal. Mar. 4, 2014);  
25 Bolton v. Lumbermans Mut. Cas. Co., No. 05-1109 SC, 2006 WL  
26 193519, at \*4 (N.D. Cal. Jan. 23, 2006) ("[S]o long as [the  
27 insurer] is unable to conclusively establish that the underlying  
28 claim cannot fall within the ambit of the policies, it will be  
bound to defend Plaintiff."). As the California Supreme Court  
has more generally explained in the context of a dispute about  
the duty to defend, "the insured must prove the existence of a

1 potential for coverage, while the insurer must establish the  
2 absence of any such potential." Montrose Chem. Corp., 6 Cal. 4th  
3 at 300.<sup>1</sup>

4 "[I]n the phrase, 'sudden and accidental,' 'accidental'  
5 conveys the sense of an unexpected and unintended event, while  
6 'sudden' conveys the sense of an unexpected event that is abrupt  
7 or immediate in nature." Shell Oil Co. v. Winterthur Swiss Ins.  
8 Co., 12 Cal. App. 4th 715, 755 (1st Dist. 1993). Courts have  
9 repeatedly held that "sudden and accidental" cannot include  
10 gradual pollution. See, e.g., FMC Corp. v. Plaisted & Cos., 61  
11 Cal. App. 4th 1132, 1146 (1998); ACL Techs., Inc. v. Northbrook  
12 Prop. & Cas. Ins. Co., 17 Cal. App. 4th 1773, 1787 (4th Dist.  
13 1993); Am. States Ins. Co. v. Sacramento Plating, Inc., 861 F.  
14 Supp. 964, 970 (E.D. Cal. 1994). As a "coverage provision" the  
15 sudden and accidental exception to the pollution exclusion must

16 \_\_\_\_\_  
17 <sup>1</sup> Defendant relies on Aydin Corp. v. First State Ins.  
18 Co., 18 Cal. 4th 1183, 1194 (1998), to argue that plaintiff has  
19 the burden of proving a sudden and accidental discharge. The  
20 California Supreme Court in that case, however, held that "in an  
21 action seeking indemnity under a standard commercial general  
22 liability insurance policy, once the insurer carries its burden  
23 of proving that the general pollution exclusion applies, the  
24 insured bears the burden of proving that a claim comes within the  
25 'sudden and accidental' exception." Aydin Corp., 18 Cal. 4th at  
26 1194 (emphasis added). The insured in Aydin Corp. did not seek  
27 defense costs and the Court did not address allocation of the  
28 burden of proof with respect to the duty to defend. See id. at  
1194 n.6 ("We note that some Courts of Appeal have held that  
regardless of which party bears the burden of proof when  
indemnification is at issue, when the defense duty is implicated,  
the insurer is obligated to defend its insured in an underlying  
action if there is any potential that the release or escape of at  
least some of the pollutants was 'sudden and accidental.' Since  
the duty to defend is not at issue in this case, we express no  
opinion as to which party should bear the burden of proof in that  
context.") (citations omitted).

1 be "construed broadly in favor of the insured." State v.  
2 Allstate Ins. Co., 45 Cal. 4th 1008, 1018 (2009).

3 In determining whether the sudden and accidental  
4 exception applies, "the focus of analysis must be on the  
5 particular discharge or discharges that gave rise to [the]  
6 property damage," thus the court must "look[] first to the  
7 underlying claims to determine the polluting event." Id. at  
8 1018-19. With a landfill like the one at issue in this case, the  
9 California Supreme Court has distinguished between (1) the  
10 initial discharge of the waste into the landfill; and (2) "the  
11 subsequent migration of wastes from the landfill to other  
12 property." Id. at 1019. The parties in this case do not dispute  
13 that the City's Cross-Complaint could seek damages for either of  
14 these discharges.

15 In Standun, Inc. v. Fireman's Fund Ins. Co., the  
16 insured operated a manufacturing facility in Compton and  
17 knowingly sent waste to the landfill on a regular basis. 62 Cal.  
18 App. 4th 882 (2d Dist. 1998). The insured unsuccessfully argued  
19 that even though the initial discharges were not sudden and  
20 accidental, "there may have been subsequent sudden and accidental  
21 discharges of the pollutants from the landfill into the  
22 environment." Id. at 888. The Second Appellate District  
23 rejected this theory because the underlying environmental actions  
24 sought to hold the insured liable for the discharges into the  
25 landfill and thus even if subsequent events were sudden and  
26 accidental they "were not the basis of the underlying claims . .  
27 . and were therefore irrelevant." Id. The court explained,  
28 "Where hazardous waste material is deposited directly into a

1 landfill, the relevant discharge of pollutants for purposes of  
2 the pollution exclusion is the initial release of the hazardous  
3 waste into the landfill, not the subsequent release of pollutants  
4 from the landfill into the water, air, and adjoining land." Id.  
5 at 891.

6 The California Supreme Court subsequently distinguished  
7 Standun, Inc. and explained that a subsequent release of the  
8 pollutants could be the relevant discharge under certain  
9 circumstances. In State v. Allstate Ins. Co., the state  
10 maintained "open, unlined evaporation ponds to contain the  
11 hazardous waste" and intentionally deposited hazardous waste into  
12 those ponds with the expectation that the waste would remain in  
13 the ponds. 45 Cal. 4th at 1015. It turned out what the state  
14 believed was "an impermeable layer of rock" was actually  
15 "decomposed granite and fractured bedrock," which allowed  
16 chemical pollutants to seep into the groundwater. Id. at 1015-  
17 16.

18 In the underlying environmental action, "[t]he State  
19 was not held liable for polluting the evaporation ponds," and  
20 thus it did not matter that the initial deposit of the waste into  
21 the ponds was neither sudden nor accidental. Id. at 1018-19.  
22 Instead, "the State's liability was based on its having sited,  
23 designed, built, and operated the [] facility in such a negligent  
24 manner as to allow hazardous chemicals to escape from the  
25 evaporation ponds (by both seepage and overflow) into the  
26 surrounding environment." Id. at 1018. The relevant discharge  
27 for purposes of the sudden and accidental exception was thus "the  
28 release of wastes from the site when, because of the State's

1 negligence, the site failed to contain them properly.” Id. at  
2 1020.

3 The Court further explained, “When, as in Standun,  
4 pollutants are deposited directly onto land or into water,  
5 without any attempt at containment, their further migration may  
6 reasonably be viewed as an aspect of property damage rather than  
7 an additional release or discharge; arguably, the only  
8 ‘discharge’ to be considered in such a case is the initial  
9 deposit.” Id. at 1020. In contrast, the unlined evaporation  
10 ponds were “intended and expected” to contain the hazardous  
11 waste, even though they were “poorly sited and designed for that  
12 purpose.” Id. “The instances of seepage and overflow from the  
13 ponds were therefore liability-causing events, not merely aspects  
14 of the property damage as in Standun.” Id. at 1021.

15 1. Sudden and Accidental Discharge After the Initial  
16 Deposit

17 Relying on Allstate Insurance Co., plaintiff first  
18 seeks to establish defendant’s duty to defend as a matter of law  
19 based on the possibility that a sudden and accidental discharge  
20 occurred during the coverage period when flooding caused the  
21 groundwater to seep into the deposited waste and thereby  
22 contaminate the groundwater. Under this theory, plaintiff must  
23 show the possibility that it intended the landfill to contain the  
24 waste, but “sited, designed, built, [or] operated the [Greer  
25 Landfill] facility in such a negligent manner as to allow  
26 hazardous chemicals to escape from the [landfill cells].”  
27 Allstate Ins. Co., 45 Cal. 4th at 1018.

28 a. Intent for Landfill Cells To Contain Waste

1           In Allstate Insurance Co., the California Supreme Court  
2 found that waste was placed into containment in evaporation ponds  
3 because the state "intended and expected" the layer of rock  
4 beneath the ponds to contain the waste. Id. at 1015, 1020.  
5 Similarly, in Patz v. St. Paul Fire & Marine Ins. Co., the  
6 Seventh Circuit found that an "evaporation pit was a containing  
7 structure, despite its lack of artificial materials" lining the  
8 bottom of the pit. 15 F.3d 699 (7th Cir. 1994). The Seventh  
9 Circuit found that the unlined pit was a "containing structure"  
10 because the insureds believed that the "clay composition of the  
11 soil . . . would stop the water" from "leaching through the  
12 bottom of the pit." Id. at 704. These cases show that an  
13 insured could believe that waste was placed into containment even  
14 though the landfill is unlined.

15           Here, the CRWQCB's "Waste Discharge Requirements" for  
16 the Greer Landfill issued in 1970 conditioned plaintiff's and the  
17 City's ability to operate the landfill on the limitation that the  
18 deposited waste would "not cause a pollution of ground or surface  
19 waters." (Docket No. 32-6.) It further prohibited the  
20 "discharge of solid or liquid wastes, including leachate, to  
21 surface or underground waters." (Id.)

22           Although the CRWQCB recognized that "a portion of this  
23 parcel may be flooded on occasion," it seemed to believe that  
24 "discharge to ground or surface waters" would be avoided so long  
25 as waste was not "deposited below the elevation of seventy-seven  
26 feet above sea level" and "disposal trenches [were] bottomed  
27 above the anticipated high ground water level including the  
28 capillary fringe and surface waters [were] diverted around the

1 disposal site.” (Id. at 1, 2, app. A.) Plaintiff has therefore  
2 shown the possibility that it, along with the CRWQCB, believed it  
3 was placing waste into containment if the cells were not  
4 excavated too close to the groundwater.

5 b. Negligent Excavation

6 Plaintiff must also show the possibility that it  
7 accidentally excavated the cells too close to the groundwater.  
8 Plaintiff put forth evidence that the County purchased parcels of  
9 land and excavated those parcels during the coverage period and  
10 that waste was deposited into the landfill during the coverage  
11 period. (E.g., Docket No. 32-3 at STATRAV2398-2411, STATRAV2415-  
12 2452.) Tom Brower, who worked at the Greer Landfill during the  
13 1970’s, indicates that he “saw the cells being excavated for the  
14 trash to be deposited in” and that the contractor “excavate[d]  
15 into wet clay during the constructions of the cells at the Site.”  
16 (Bower Decl. ¶¶ 3, 7-8 (Docket No. 37-13).)<sup>2</sup> Bower explains

17 <sup>2</sup> Defendant objects to consideration of Bower’s  
18 declaration because Bower was never identified in discovery,  
19 which closed on June 17, 2015. Federal Rule of Civil Procedure  
20 37(c) (1) provides:

21 If a party fails to provide information or identify a  
22 witness as required by Rule 26(a) or (e), the party is  
23 not allowed to use that information or witness to  
24 supply evidence on a motion, at a hearing, or at a  
25 trial, unless the failure was substantially justified  
26 or is harmless. In addition to or instead of this  
27 sanction, the court, on motion and after giving an  
28 opportunity to be heard: (A) may order payment of the  
reasonable expenses, including attorney’s fees, caused  
by the failure; (B) may inform the jury of the party’s  
failure; and (C) may impose other appropriate  
sanctions, including any of the orders listed in Rule  
37(b) (2) (A) (i)-(vi).

In determining whether the sanction of exclusion is merited, the

1 that, "from his experience excavating in the Central Valley . . .  
2 when you hit clay in [the] area, you are just above the  
3 groundwater, which presents a danger of the groundwater rising  
4 into the excavated area." (Id. ¶ 9.) Brower's testimony, along  
5 with the CRWQCB's requirement that the trenches be "bottomed  
6 above the anticipated high ground water level," establishes the  
7 possibility that plaintiff accidentally excavated too deep during  
8 the coverage period.

9 c. Flooding During Coverage Period

10 Plaintiff also put forth evidence showing "above-normal  
11 rainfall" in February 1973, (Cal. Dep't of Water Res. Bulletin  
12 No. 69-73, California High Water 1972-1973 at iii, 1, 7, (Docket  
13 No. 37-10)), which resulted in the cresting of the Toulumne River  
14 on February 12, 1973, (see Nat'l Weather Serv.'s Advanced  
15 Hydrologic Prediction Servs. (Docket No. 37-9 at 3) (showing that  
16 the Toulumne River crested at 49.55 on February 12, 1973).)<sup>3</sup> The

---

17 court must consider "1) the public's interest in expeditious  
18 resolution of litigation; 2) the court's need to manage its  
19 docket; 3) the risk of prejudice to the defendants; 4) the public  
20 policy favoring disposition of cases on their merits; 5) the  
21 availability of less drastic sanctions." Wendt v. Host Int'l,  
Inc., 125 F.3d 806, 814 (9th Cir. 1997).

22 Plaintiff's counsel represents that he did not discover  
23 Bower's identity until September 25, 2015. (Supp. Syz Decl. ¶ 12  
24 (Docket No. 37-11).) Although plaintiff's counsel should have  
25 been more diligent in performing discovery, the untimely  
26 disclosure in this case does not merit the drastic sanction of  
27 exclusion, especially when three months remain before trial.  
28 (See Docket No. 36.) To address any prejudice defendant may  
suffer at trial from the untimely disclosure, the court will  
reopen discovery to allow defendant to depose Bower.

<sup>3</sup> For purposes of the motions before the court, the court  
takes judicial notice of the above-normal rainfall recorded in  
the Department of Water Resources Bulletin No. 69-73 (Docket No.  
37-10) and the cresting of the Toulumne River memorialized in the

1 Greer Landfill is adjacent to the Toulumne River, (Docket No. 32-  
2 6 at 1), and the groundwater beneath the landfill is in  
3 "hydraulic communication" with the river and thus can rise as the  
4 river rises, (Docket No. 32-3 at STATRAV2317). According to  
5 plaintiff, when the river crested in February 1973, groundwater  
6 elevations potentially flooded the buried waste at the landfill  
7 and thereby potentially resulted in a sudden and accidental  
8 discharge of pollutants into the groundwater.

9 The CRWQCB's 2009 Cease and Desist Order corroborates  
10 the possibility that contamination occurred when the groundwater  
11 levels raised: "It is highly probable that groundwater rises into  
12 the waste mass at times." (Id.) Plaintiff has thus established  
13 the possibility that the groundwater level rose during the  
14 coverage period due to above-average rainfall and was potentially  
15 contaminated when it came in contact with the waste.

16 d. Defendant's Showing

17 Plaintiff has put forth sufficient circumstantial  
18 evidence establishing the possibility that the Greer Landfill was  
19 intended to contain the waste, but was suddenly contaminated when  
20 it seeped into the cells during heavy rain because plaintiff had  
21 accidentally excavated the cells too close to the groundwater.

---

22 National Weather Services Advanced Hydrologic Prediction Services  
23 (Docket No. 37-9). See Fed. R. Evid. 201(b) ("The court may  
24 judicially notice a fact that is not subject to reasonable  
25 dispute because it: . . . (2) can be accurately and readily  
26 determined from sources whose accuracy cannot reasonably be  
27 questioned."); Sanchez v. City of Fresno, Civ. No. 1:12-00428  
28 LJO, 2014 WL 2042058, at \*2 (E.D. Cal. May 16, 2014) (taking  
judicial notice of weather information from the National Climate  
Data Center). Although defendant disputes the inferences to be  
drawn from this evidence, it does not dispute the accuracy of the  
information in these documents.

1 To negate plaintiff's showing of a potential for coverage,  
2 defendant "must establish the absence of any such potential."  
3 Montrose Chem. Corp., 6 Cal. 4th at 300. "Facts merely tending  
4 to show that the claim is not covered, or may not be covered, but  
5 are insufficient to eliminate the possibility that resultant  
6 damages (or the nature of the action) will fall within the scope  
7 of coverage, [] add no weight to the scales." Id.

8 Defendant primarily argues that plaintiff should have  
9 known contamination of the groundwater could occur because the  
10 landfill was unlined. Such evidence is insufficient to  
11 conclusively show that the discharge was not accidental as a  
12 matter of law. See Allstate Ins. Co., 45 Cal. 4th at 1028  
13 ("Evidence the State should have known flooding was likely, and  
14 should have taken additional measures against it, is insufficient  
15 to prove, as an undisputed fact, that a waste discharge due to  
16 flooding was expected and therefore nonaccidental.").

17 Defendant also cannot extinguish its duty to defend  
18 based on plaintiff's inability to prove its right to indemnity at  
19 this stage in the litigation. While plaintiff is entitled to a  
20 defense under the policy upon a showing the possibility of a  
21 sudden and accidental discharge, it is entitled to indemnity  
22 under the policy only if it proves "that a claim comes within the  
23 'sudden and accidental' exception." Aydin Corp., 18 Cal. 4th at  
24 1194 (emphasis added). There is little question that plaintiff  
25 cannot sustain this burden at summary judgment based on the  
26 evidence before the court, which establishes only the possibility  
27 of coverage.

28 As the California Supreme Court has explained, however,

1 forcing plaintiff to establish coverage prior to resolution of  
2 the underlying action could prejudice the insured. Montrose  
3 Chem. Corp., 6 Cal. 4th at 301. "For example, when the third  
4 party seeks damages on account of the insured's negligence, and  
5 the insurer seeks to avoid providing a defense by arguing that  
6 its insured harmed the third party by intentional conduct, the  
7 potential that the insurer's proof will prejudice its insured in  
8 the underlying litigation is obvious." Id. at 302. Forcing  
9 plaintiff to establish that it negligently excavated the landfill  
10 cells to establish coverage could undoubtedly prejudice it in the  
11 City's underlying action against it, and thus the court cannot  
12 resolve indemnity at this time. Id.; Montrose Chem. Corp. v.  
13 Superior Court, 25 Cal. App. 4th 902, 907-11 (2d Dist. 1994).

14 e. Conclusion

15 Because plaintiff has carried its burden of showing the  
16 possibility of coverage under the sudden and accidental exception  
17 to the pollution exclusion and defendant has not established the  
18 absence of a potential for coverage as a matter of law, defendant  
19 has a duty to defend plaintiff under the policy. Montrose Chem.  
20 Corp., 6 Cal. 4th at 301. Accordingly, the court must grant  
21 plaintiff's motion for summary judgment with respect to  
22 defendant's duty to defend and deny defendant's motion for  
23 summary judgment on that issue.

24 2. Sudden and Accidental Discharge at the Time of  
25 Deposit

26 Plaintiff also seeks to show the possibility that a  
27 sudden and accidental discharge occurred when the waste was  
28 initially deposited into the landfill cells because the cells

1 were accidentally excavated so deep that deposited waste was  
2 immediately exposed to the groundwater. Under this theory,  
3 plaintiff relies primarily on Kleinfelder's May 23, 2007 "South  
4 Area Groundwater Investigation Report" (the "Kleinfelder  
5 Report"), which states:

6 An employee from Stanislaus County, who was present at  
7 the landfill in 1985 and 1986, reported that  
8 excavations in the landfill area north of Jantzen Road  
9 were dug to depths of approximately 80 feet below  
10 grade, which would have potentially immersed landfill  
11 waste in the groundwater table when groundwater  
elevations were high. In the southern area, waste  
cells were also dug in the summer close to  
groundwater.

12 (Docket No. 32-3 at STATRAV7233.) Although this description  
13 refers to excavations in 1985 and 1986, which is outside of the  
14 coverage period, plaintiff argues that the statement is  
15 circumstantial evidence about how the landfill was excavated ten  
16 years earlier during the coverage period.

17 Putting aside the attenuated relevance of evidence  
18 about excavations that occurred a decade past the coverage  
19 period, defendant objects to consideration of the Kleinfelder  
20 Report on the ground that it contains inadmissible hearsay within  
21 hearsay. Because the Kleinfelder Report is central to  
22 plaintiff's theory of a sudden and accidental discharge at the  
23 time of the initial deposit of the waste, the court provided  
24 plaintiff with the opportunity to reply to defendant's  
25 evidentiary objections and resubmit any evidence in light of  
26 them. (See Docket No. 35.)

27 "Hearsay 'is a statement, other than one made by the  
28 declarant while testifying at the trial or hearing, offered in

1 evidence to prove the truth of the matter asserted.'" Wagner v.  
2 County of Maricopa, 747 F.3d 1048, 1056 (9th Cir. 2013) (quoting  
3 Fed. R. Evid. 801(c)). "Hearsay within hearsay is not excluded  
4 by the rule against hearsay if each part of the combined  
5 statements conforms with an exception to the rule." Fed. R.  
6 Evid. 805.<sup>4</sup>

7 Rule 801(d)(2) provides that an admission by the  
8 opposing party, including a statement made "by the party's agent  
9 or employee on a matter within the scope of that relationship and  
10 while it existed," is not hearsay. The Kleinfelder Report,  
11 however, was prepared at the behest of plaintiff and it is  
12 plaintiff's own employee who described the excavations from 1985  
13 to 1986. (See Crandall Decl. ¶ 3 (Docket No. 37-14).) As is  
14 clear in Rule 801(d)(2), a party "may not offer his own  
15 statements as party admissions, as only statements offered  
16 against a party-opponent are admissible under Federal Rule of  
17 Evidence 801(d)(2)." United States v. Castro-Cabrera, 534 F.  
18 Supp. 2d 1156, 1162 (C.D. Cal. 2008). Nor can plaintiff  
19 characterize the CRWQCB as the "opposing party" at the time of  
20 the investigation and somehow construe the report as against  
21 plaintiff's interest vis-à-vis the CRWQCB.

22 The Kleinfelder Report also does not become a public  
23 record subject to the exception in Rule 803(8) merely because the  
24 CRWQCB summarized the findings from the Kleinfelder Report in its  
25

---

26 <sup>4</sup> Plaintiff's reliance on a case discussing California's  
27 "invited error doctrine" in the context of a bar to federal-court  
28 habeas relief of a state conviction is misplaced. (See Pl.'s  
Evidentiary Br. at 12 (citing Jackson v. Herndon, Civ. No. 09-  
01145 RSWL, 2009 WL 3122552, at \*5 (C.D. Cal. Sept. 25, 2009)).

1 documents. (E.g., Docket No. 20-13 ¶ 28); see Fed. R. Evid.  
2 803(8) ("A record or statement of a public office if: (A) it sets  
3 out: (i) the office's activities; (ii) a matter observed while  
4 under a legal duty to report, but not including, in a criminal  
5 case, a matter observed by law-enforcement personnel; or (iii) in  
6 a civil case or against the government in a criminal case,  
7 factual findings from a legally authorized investigation; and (B)  
8 the opponent does not show that the source of information or  
9 other circumstances indicate a lack of trustworthiness.").

10           Although Michael Franck, the employee interviewed for  
11 the Kleinfelder Report, is now deceased, (Supp. Aggers Decl. ¶ 8  
12 (Docket No. 37-12)), his statements do not come within any of  
13 Rule 804's hearsay exceptions when a declarant is unavailable.  
14 While his statement could be viewed as against plaintiff's  
15 interest, Rule 804(b)(3) allows admission of a statement against  
16 interest by an unavailable witness when that statement is "so  
17 contrary to the declarant's proprietary or pecuniary interest or  
18 had so great a tendency to invalidate the declarant's claim  
19 against someone else or to expose the declarant to civil or  
20 criminal liability." Fed. R. Evid. 804(b)(3)(A). "A statement  
21 is against pecuniary and proprietary interest when it threatens  
22 the loss of employment, or reduces the chances for future  
23 employment, or entails possible civil liability." Gichner v.  
24 Antonio Troiano Tile & Marble Co., 410 F.2d 238, 242 (D.C. Cir.  
25 1969). Although Franck reported that excavations were dug too  
26 deep, nothing in the record suggests that Franck was responsible  
27 for those excavations or that the statements were against his  
28 pecuniary interest for some other reason.

1           Lastly, the court finds that the hearsay statement  
2 within the Kleinfelder Report would not be admissible under Rule  
3 807's residual exception, which provides:

4  
5           Under the following circumstances, a hearsay statement  
6 is not excluded by the rule against hearsay even if  
7 the statement is not specifically covered by a hearsay  
8 exception in Rule 803 or 804:

9           (1) the statement has equivalent circumstantial  
10 guarantees of trustworthiness;

11           (2) it is offered as evidence of a material fact;

12           (3) it is more probative on the point for which it is  
13 offered than any other evidence that the proponent can  
14 obtain through reasonable efforts; and

15           (4) admitting it will best serve the purposes of these  
16 rules and the interests of justice.

17 Fed. R. Evid. 807(a). "Under the Rule, a district [court] has  
18 the discretion to admit a hearsay statement in 'exceptional  
19 circumstances' so long as it meets the Rule's requirements."  
20 Draper v. Rosario, Civ. No. 2:10-32 KJM EFB, 2014 WL 1664917, at  
21 \*4 (E.D. Cal. Apr. 25, 2014) (citing United States v. Bonds, 608  
22 F.3d 495, 500-01 (9th Cir. 2010)). "The most important  
23 consideration is whether the hearsay has circumstantial  
24 guarantees of trustworthiness 'equivalent to those present in the  
25 traditional exceptions to the hearsay rule.'" Id. (quoting Fong  
26 v. Am. Airlines, Inc., 626 F.2d 759, 763 (9th Cir. 1980)).

27           Plaintiff argues that the statement by the employee has  
28 "adequate alternative assurance of reliability," Giles v.  
California, 554 U.S. 353, 389 (2008), because it occurred during  
an administrative investigation. Plaintiff, however, initiated

1 the investigation that culminated in the Kleinfelder Report and  
2 there is no indication that the interview was done in conjunction  
3 with the CRWQCB. The statement, which is not even in the  
4 employee's own words, was not made under oath or recorded. See  
5 United States v. Sanchez-Lama, 161 F.3d 545, 547-48 (9th Cir.  
6 1998) (holding that the district court erred in excluding video-  
7 taped statements that were made under oath by witnesses who were  
8 later deported). Nor is an employee's statement about  
9 excavations in 1985 and 1986 "more probative" about how the  
10 landfill was excavated during the coverage period of 1972 to 1975  
11 "than any other evidence that the proponent can obtain through  
12 reasonable efforts." Fed. R. Evid. 807(a)(3).

13 Because Franck's statements are inadmissible hearsay,  
14 the court cannot consider them in deciding plaintiff's motion for  
15 summary judgment. See Fed. R. Civ. P. 56(c)(2) ("A party may  
16 object that the material cited to support or dispute a fact  
17 cannot be presented in a form that would be admissible in  
18 evidence."); Burch v. Regents of Univ. of Cal., 433 F. Supp. 2d  
19 1110, 1122 (E.D. Cal. 2006) ("[C]urrent law in the Ninth Circuit  
20 is arguably that the rule against hearsay, Fed. R. Evid. 802,  
21 applies to evidence submitted in support of and in opposition to  
22 a motion for summary judgment."). Plaintiff has therefore failed  
23 to establish the possibility that a sudden and accidental  
24 discharge occurred at the time of the initial deposit of the  
25 waste.

26 C. Site Investigations as Defense Costs

27 Having found that defendant owes plaintiff a duty to  
28 defend, the parties next dispute whether plaintiff's site

1 investigation expenses constitute defense costs. "In fulfilling  
2 its duty [to defend, the insurer] must undertake reasonable and  
3 necessary efforts to avoid or at least minimize liability."

4 Aerojet, 17 Cal. 4th at 60. The California Supreme Court has  
5 held that "the insured's site investigation expenses constitute  
6 defense costs" only if the following requirements are met:

7 First, the site investigation must be conducted within  
8 the temporal limits of the insurer's duty to defend,  
9 i.e., between tender of the defense and conclusion of  
10 the action. Second, the site investigation must  
11 amount to a reasonable and necessary effort to avoid  
12 or at least minimize liability. Third and final, the  
13 site investigation expenses must be reasonable and  
14 necessary for that purpose.

15 Id. at 60-61. "Whether the insured's site investigation expenses  
16 are defense costs that the insurer must incur in fulfilling its  
17 duty to defend must be determined objectively, and not  
18 subjectively from the viewpoint of either the insurer or the  
19 insured." Id. at 62.

20 "In the general case, it is the insured that must carry  
21 the burden of proof on the existence, amount, and reasonableness  
22 and necessity of the site investigation expenses as defense  
23 costs, and it must do so by the preponderance of the evidence."

24 Id. at 64. "By contrast, in the exceptional case, wherein the  
25 insurer has breached its duty to defend, it is the insured that  
26 must carry the burden of proof on the existence and amount of the  
27 site investigation expenses, which are then presumed to be  
28 reasonable and necessary as defense costs, and it is the insurer  
that must carry the burden of proof that they are in fact  
unreasonable or unnecessary." Id. Here, defendant did not  
breach its duty to defend and agreed, under a reservation of

1 rights, to provide a defense to the City's Cross-Complaint.

2 1. Pre-Tender Costs

3 Aerojet first requires that "the site investigation  
4 must be conducted within the temporal limits of the insurer's  
5 duty to defend, i.e., between tender of the defense and  
6 conclusion of the action." Here, plaintiff tendered the defense  
7 on January 27, 2012. Invoice 50613104 is dated January 22,  
8 2013,<sup>5</sup> (Docket 29-16), and is for work completed in November 2012  
9 through January 2013, (Acosta Decl. ¶ 4 (Docket 29-15)).  
10 Similarly, Invoice 50640959 is dated January 15, 2013, (Docket  
11 No. 29-17), and is for services provided in November 2012 through  
12 January 7, 2013, (Acosta Decl. ¶ 40). It is therefore undisputed  
13 that Invoices 50613104 and 50640959 satisfy the first Aerojet  
14 requirement because they are for services provided after tender  
15 of the defense and before completion of the underlying state  
16 action.

17 While the specific invoices plaintiff submitted are  
18 limited to post-tender costs, plaintiff argues defendant is also  
19 obligated to cover pre-tender costs. Generally, "under  
20 California law, '[i]t is well understood . . . that an insurer's  
21 duty does not arise until defense is tendered by the insured and  
22 the known facts point to a potential for liability under the  
23 policy.'" Burgett, Inc. v. Am. Zurich Ins. Co., 875 F. Supp. 2d  
24 1125, 1127 (E.D. Cal. 2012) (quoting Valentine v. Membrila Ins.

25 <sup>5</sup> Plaintiff initially indicates in its brief that Invoice  
26 50613104 is dated January 22, 2012, which is five days before  
27 plaintiff tendered the defense. (See Pl.'s Mem. at 4:15.) It  
28 appears plaintiff merely misstated the year as the date on the  
invoice is January 22, 2013.

1 Servs., Inc., 118 Cal. App. 4th 462, 473 (2004)) (alteration and  
2 omission in original). Insurance policies often seek to exclude  
3 coverage for pre-tender expenses through a "no voluntary payment"  
4 provision like the one included in the policy at issue in this  
5 case. (See Docket No. 28-7 ¶ 13 ("The insured shall not, except  
6 at his own cost, voluntarily make any payment, assume any  
7 obligation or incur any expense other than for such immediate  
8 medical or surgical relief to others as shall be imperative at  
9 the time of injury.").)

10           Nonetheless, California appellate courts have  
11 recognized that an insured might be able to seek pre-tender  
12 expenses despite inclusion of a "no voluntary payments"  
13 provision. In Fiorito v. Superior Court, the insureds retained  
14 counsel upon being served with the summons and complaint and did  
15 not tender the defense to the insurer until four months later  
16 after they located and reviewed their insurance policies. 226  
17 Cal. App. 3d 433, 438 (4th Dist. 1990). Despite the provision  
18 excluding voluntary payments, the insureds alleged they did not  
19 voluntarily incur pre-tender defense costs because "they were  
20 'compelled' to incur the pre-tender defense costs in order to  
21 respond to legal process and to protect their legal interests."  
22 Id.

23           The Fourth Appellate District held that the trial court  
24 erred in finding that the insurer was not required to pay pre-  
25 tender expenses as a matter of law because the insureds had  
26 sufficiently "raise[d] a question as to the 'voluntariness' of  
27 [their] actions in incurring pre-tender expenses." Id. at 439;  
28 accord Shell Oil Co. v. Nat'l Union Fire Ins. Co., 44 Cal. App.

1 4th 1633, 1649 (2d Dist. 1996) (affirming finding after trial  
2 that "defense expenditures incurred during a four-month interval  
3 between service of summons and tender of defense" while the "the  
4 insureds had 'searched for insurance policies that might provide  
5 coverage or defense'" "were not barred from recovery, because  
6 they were not voluntary").

7 Here, the City filed its Cross-Complaint on August 24,  
8 2011, but plaintiff did not tender the defense until five months  
9 later on January 27, 2012. Plaintiff's attorney, William Brown,  
10 indicates that he unsuccessfully searched for evidence of  
11 plaintiff's insurance policies in 2008, again in 2011, and a  
12 third time after the City filed its Cross-Complaint. (Brown  
13 Decl. ¶¶ 1-6 (Docket No. 32-9).) Mr. Brown's paralegal explains  
14 that, in January 2012, she located a reference to the insurance  
15 policy in a correspondence from 1975 between the City and  
16 plaintiff and that Mr. Brown's law firm was not aware of the  
17 policy until that discovery. (Depies Decl. ¶¶ 1, 3-4 (Docket No.  
18 32-10).)

19 While this case is similar to Fiorito and Shell in that  
20 there was a relatively short delay between service of the summons  
21 and complaint and the tender because the insured had not yet  
22 located the insurance policy, the insureds in those cases sought  
23 pre-tender costs that were "involuntarily" incurred to "respond  
24 to legal process and to protect their legal interests."  
25 Fiorito, 226 Cal. App. 3d at 438; see Insua v. Scottsdale Ins.  
26 Co., 104 Cal. App. 4th 737, 747 (2d Dist. 2002) (explaining that  
27 the insureds in Shell argued they were "'compelled' to respond to  
28 legal process and to protect their legal interests"). Here,

1 neither party has identified any pre-tender defense costs  
2 plaintiff incurred to "respond to legal process and to protect  
3 their legal interests."

4 The only costs discussed in both motions are  
5 plaintiff's site investigations and the court therefore assumes  
6 that pre-tender site investigation costs are the only pre-tender  
7 costs at issue. Not only are pre-tender site investigation costs  
8 distinguishable from pre-tender costs to respond to legal process  
9 and protect legal interests, Aerojet unequivocally limits the  
10 inclusion of site inspections as defense costs to investigations  
11 that occur "between tender of the defense and conclusion of the  
12 action." Aerojet, 17 Cal. 4th at 61; accord Foster-Gardner, Inc.  
13 v. Nat'l Union Fire Ins. Co., 18 Cal. 4th 857, 886 (1998)

14 ("[S]ite investigation expenses incurred prior to the instigation  
15 of a lawsuit against the insured are not defense costs the  
16 insurer must incur . . . because the insurer does not yet have  
17 a duty to defend the insured."). When the California Supreme  
18 Court articulated this requirement, the lower appellate courts  
19 had already decided Fiorito and Shell and thus the Supreme Court  
20 could have included a similar exception, but did not.

21 Accordingly, the court must grant defendant's motion for summary  
22 adjudication with respect to any pre-tender site investigation  
23 costs.

24 2. Reasonable and Necessary Effort to Avoid or  
25 Minimize Liability

26 a. Compulsion by the CRWQCB

27 Next, the site investigation costs incurred "must  
28 amount to a reasonable and necessary effort to avoid or at least

1 minimize liability." Aerojet-Gen. Corp., 17 Cal. 4th at 61.  
2 Defendant first argues that the site inspections were not related  
3 to defending against the City's Cross-Complaint because plaintiff  
4 incurred those costs in response to the CRWQCB's orders. The  
5 California Supreme Court in Aerojet, however, emphasized that an  
6 objective standard governs whether costs incurred were a  
7 reasonable effort to minimize liability "even in the general  
8 context of a governmental request or order for the insured to  
9 conduct a site investigation and/or to incur site investigation  
10 expenses." Id. at 63. It does not matter, the Aerojet Court  
11 explained, whether the insured incurred the site investigation  
12 expenses to "resist liability," to "satisfy the government," for  
13 both of those reasons, or for an entirely different reason. Id.;  
14 see id. at 66 ("What matters is what is done, not why."). Under  
15 this objective standard, it is simply irrelevant whether the  
16 insured incurred costs for the inspection voluntarily in an  
17 effort to minimize liability or involuntarily because the federal  
18 or state government ordered it to do so. Id. at 66.

19 Defendant attempts to distinguish this case from  
20 Aerojet on the ground that the CRWQCB's Orders mandated the site  
21 inspections before plaintiff tendered the defense of the City's  
22 Cross-Complaint and thus plaintiff's "obligation to investigate  
23 and remediate the Site existed independently of, and years  
24 before, the City filed its cross-complaint." (Def.'s Mem. at  
25 13:6-15.) While Aerojet requires that the site investigations  
26 occur after the tender of the defense, nothing in the opinion  
27 suggests that a government action mandating the same site  
28 investigation must also occur after the tender. Adopting

1 defendant's position would abandon the objective inquiry Aerojet  
2 requires because the court would be speculating that plaintiff  
3 incurred the site investigation costs because it had a pre-  
4 existing obligation to do so. Aerojet rejected an inquiry into  
5 the "purely fictive" "mind and heart" of a government insured and  
6 emphasized that the controlling inquiry "is whether the site  
7 investigation expenses would be incurred against liability by a  
8 reasonable insured under the same circumstances." Aerojet, 17  
9 Cal. 4th at 63 (citation omitted).<sup>6</sup>

10 b. Reasonable and Necessary Effort to Avoid or  
11 Minimize Liability in Light of the  
12 Allegations in the Cross-Complaint

13 In the Cross-Complaint, the City alleges twelve claims  
14 against plaintiff: (1) indemnity/contribution under the Hazardous  
15 Substance Account Act; (2) declaratory relief under the  
16 California Hazardous Substances Accounting Act; (3)  
17 indemnity/contribution under the Porter Cologne Act; (4)  
18 declaratory relief under the Porter Cologne Act; (5) private

---

19 <sup>6</sup> Nor does Foster-Gardner, Inc. or County of San Diego v.  
20 Ace Property & Casualty Ins. Co., 37 Cal. 4th 406 (2005), support  
21 defendant's position. In Foster-Gardener Inc., the California  
22 Supreme Court held that a policy's provision for defense of a  
23 "suit" did not extend to "environmental agency activity prior to  
24 the filing of a complaint," and "site investigation expenses  
25 incurred prior to the instigation of a lawsuit against the  
26 insured are not defense costs the insurer must incur" because a  
27 duty to defend under the policy did not arise until the "suit"  
28 commenced. 18 Cal. 4th at 860-61, 886. Ace Property & Casualty  
Ins. Co. dealt with excess indemnity coverage, not defense costs,  
and held that coverage for "damages" did not extend to "costs and  
expenses associated with responding to administrative orders to  
clean up and abate soil or groundwater contamination outside the  
context of a government-initiated lawsuit seeking such remedial  
relief . . . ." 37 Cal. 4th at 406.

1 nuisance; (6) private nuisance per se; (7) public nuisance; (8)  
2 public nuisance per se; (9) breach of contract; (10) dangerous  
3 condition of public property; (11) express  
4 indemnity/contribution; and (12) equitable  
5 indemnity/contribution. The Cross-Complaint alleges that  
6 plaintiff has operated the Geer Landfill since approximately 1970  
7 and that it caused and is responsible for the "hazardous  
8 substance contamination in and around the Greer Landfill" and is  
9 "liable for the removal and remedial action costs incurred by"  
10 the City. (Menacher Decl. Ex. D ("City's Cross-Compl.") ¶¶ 11-  
11 13, 24 (Docket No. 29-7).) The Cross-Complaint further alleges  
12 that the contamination is "continuing and abatable" and  
13 "[b]ecause of the nature, extent and magnitude of the  
14 contamination at and/or near Greer Landfill is not fully known at  
15 this time, investigatory and remedial work has not been completed  
16 and may occur in the future" and the City "may incur necessary  
17 response costs, including but not limited to investigatory,  
18 monitoring and remedial expenses . . . in the future." (City's  
19 Cross-Compl. ¶¶ 20, 31).

20 Resolution of these claims will require findings about  
21 the extent and cause of the contamination. In light of  
22 plaintiff's claims and the equitable considerations required to  
23 allocate costs, some site investigation expenses would be  
24 incurred against liability by a reasonable insured because doing  
25 so allows the insured to identify the concentration and extent of  
26 the contamination and the cause of the contamination. For  
27 example, Gregory Acosta, who was the project manager of the  
28 investigation culminating in the Plume Investigation Report,

1 indicates that the "purpose of the Plume Investigation Report was  
2 to (1) better define the nature and extent of the groundwater  
3 impacts, especially in the deeper zone, (2) to evaluate the area  
4 west of the Toulumne River with respect to landfill-related  
5 impacts and (3) to provide a groundwater model, both conceptual  
6 and numerical, for the groundwater system at the Site." (Acosta  
7 Decl. ¶¶ 2, 13.) He further explains that the work billed in  
8 Invoices 50643104 and 50640949 "included an investigation into  
9 the vertical and lateral extent of the groundwater impacts at the  
10 Site and the creation of a groundwater model both conceptual and  
11 numerical for groundwater system at the Site." (Id. ¶¶ 6, 11.)

12 c. Inadequacy of Invoices

13 The evidence before the court is inadequate, however,  
14 to determine as a matter of law whether all of the services in  
15 Invoices 50643104 and 50640949 would have been "incurred against  
16 liability by a reasonable insured under the same circumstances."  
17 Aerojet, 17 Cal. 4th at 63. The descriptions of the billed work  
18 are extremely vague. Invoice 50614103 attributes \$32,306.30 to  
19 "Task 100," which is described as "ROUTINE LFG SERVICES" and  
20 \$69,822.55 to "Task 200," which is described as "NON-ROUTINE  
21 GROUNDWATER/INVESTIGATIVE SERVICES." (Docket No. 29-16.) In his  
22 declaration, Acosta provides a short explanation of the services  
23 included in the Invoices, but it too lacks adequate detail to  
24 ensure that all costs in the Invoices are limited to site  
25 investigations that were reasonably and necessarily conducted to  
26 defend against the City's Cross-Complaint. (See Acosta Decl. ¶¶  
27 5-6.)

28 While site investigation expenses may "do double duty"

1 by constituting defense costs and fulfilling a separate  
2 obligation imposed by state or federal environmental laws,  
3 Aerojet, 17 Cal. 4th at 65-66, clean-up costs are not defense  
4 costs simply because they "minimize liability" by remediating the  
5 contamination. For example, defense costs may "promote removal  
6 and remediation[] by enabling [the responsible party] to  
7 determine how to neutralize the substance in question" or  
8 "minimize liability[] by making it possible for it to show that  
9 it was not in fact the source of the discharge." Id. Costs are  
10 no longer site investigation costs, however, when they take the  
11 next step of remediating the contamination even though  
12 remediation could have the ultimate benefit of "minimizing  
13 liability." Cf. id. at 61 n.13 ("[A]t least generally, the same  
14 costs cannot be both indemnification costs and defense costs.").

15 It is unclear from the invoices whether all of the  
16 costs are attributable to reasonable investigations performed to  
17 defend against the City's Cross-Complaint or whether some of the  
18 costs were part of on-going remediation and clean-up efforts  
19 entirely unrelated to any sudden and accidental discharges at  
20 issue in the City's Cross-Complaint. (See, e.g., Docket No. 28-  
21 13 at 11 (requiring plaintiff to "maintain in good working order  
22 any facility, control system, or monitoring device installed to  
23 achieve compliance with the waste discharge requirements,"  
24 "conduct routine maintenance of the final cover, areas with  
25 interim cover, the precipitation and drainage control facilities,  
26 the groundwater, unsaturated zone and landfill gas monitoring  
27 systems, the landfill has extraction system, and any facilities  
28 associated with corrective action").)

1 Plaintiff also references 107 other invoices that it  
2 allegedly submitted to defendant for payment, but has not  
3 submitted those invoices to the court and it is unclear whether  
4 their motion for summary judgment is limited to Invoices 50643104  
5 and 50640949 or extends to 107 additional invoices that are not  
6 before the court. Without the ability to meaningfully review the  
7 work performed, the court cannot determine as a matter of law  
8 that the charges were limited to investigations that a reasonable  
9 insured would have performed to defend against the City's Cross-  
10 Complaint.

11 Similar to Aerojet, "[w]hether and to what extent [any  
12 site investigation expenses] actually were" reasonable and  
13 necessary to defend against the City's Cross-Complaint remains an  
14 issue for trial. 17 Cal. 4th at 65. Accordingly, because  
15 plaintiff has not shown as a matter of law that the invoices  
16 defendant did not pay were defense costs under Aerojet, the court  
17 must deny plaintiff's motion for summary judgment with respect to  
18 those defense costs.

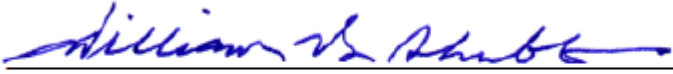

19 IT IS THEREFORE ORDERED that plaintiff's motion for  
20 summary judgment be, and the same hereby is, GRANTED with respect  
21 to defendant's duty to defend under the policy and DENIED in all  
22 other respects; and defendant's motion for summary judgment be,  
23 and the same hereby is, GRANTED with respect to any pre-tender  
24 costs and DENIED in all other respects.

25 IT IS FURTHER ORDERED that discovery is reopened for  
26 forty-five days from the date of this Order for the limited  
27 purpose of defendant deposing Tom Bower.
