UNITED STATES DISTRICT COURT  
EASTERN DISTRICT OF CALIFORNIA

COOPERATIVE REGIONS OF  
ORGANIC PRODUCER POOLS, a  
Wisconsin Stock Cooperative,

Plaintiff,

v.

STUEVE'S CERTIFIED ORGANIC  
DAIRY, a California business  
entity of unknown form; LLOYD  
L. STUEVE, individually and  
doing business as Stueve's  
Certified Organic Dairy; GAGE  
STUEVE, individually and  
doing business as Stueve's  
Certified Organic Dairy; and  
DOES 1 through 50, inclusive,

Defendants.

No. 1:14-cv-01123-GEB-SKO

**ORDER DENYING DEFENDANTS'  
REQUEST FOR EXPEDITED DISCOVERY**

Defendants filed a letter under penalty of perjury on August 7, 2014, in which they seek the opportunity to conduct "limited discovery prior to the deadline on which they are required to file their [opposition] brief" to Plaintiff's preliminary injunction motion. (Defs.' Letter p. 2, ECF No. 19.) However, Defendants' counsel avers in the letter that Plaintiff's preliminary injunction evidence concerning irreparable harm "is rife with generalities . . . , and does not contain any specific

1 facts that would support the granting of the motion." (Id.) These  
2 averments do not support Defendants' request for the referenced  
3 expedited discovery since the essence of Defendants' argument is  
4 that the preliminary injunction motion lacks facts justifying the  
5 issuance of an injunction.

6 Since Defendants' averments do not support their  
7 request for the referenced expedited discovery, it is denied.

8 Dated: August 8, 2014
