UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF CALIFORNIA

IN RE DORU GABRIEL TRIFU,

No. 1:17-cv-00920-DAD-JLT

ORDER DIRECTING THE CLERK OF THE
COURT TO CLOSE THIS CASE

On July 11, 2017, petitioner Management & Training Corporation (MTC) (“MTC”) petitioned this court for an emergency order to allow medical staff at Mercy Hospital, in Bakersfield, California, to provide respondent Doru Gabriel Trifu, then a federal prisoner, with involuntary medication, hydration, and nutrition, for a period of seven days. (Doc. No. 2.)

On July 13, 2017, this court issued an order granting MTC’s request for a period of twenty-four hours, specifically directing respondent Mr. Trifu to submit to medical treatment deemed necessary by medical officials working on behalf of MTC. (Doc. No. 6 at 2.) The following day, on July 14, 2017, in light of petitioner’s status report and renewed request, this court extended its order for a period of not more than fourteen days. (Doc. No. 11.) The court further directed petitioner MTC to file a status report before the expiration of that time to apprise the court of the nature and extent it had been determined that there was a need for continued involuntarily administered medication, hydration, and nutrition, as well as the specific

1 medication, hydration, and nutrition that medical staff has determined to be necessary in order to
2 sustain Mr. Trifu's life and health. (*See id.* at 4–5.) On July 27, 2017, petitioner MTC filed a
3 status report, indicating that a court order to continue treatment was no longer necessary due to
4 Mr. Trifu's improved condition. Accordingly, petitioner MTC noted that it does not intend to
5 seek any further relief from the court in this action. (Doc. No. 12.)

6 In light of petitioner's representations regarding Mr. Trifu's restored health and its
7 intention not to seek further relief, the court is satisfied that no further action is necessary in this
8 case. Accordingly, the Clerk of the Court is directed to close this case.

9 IT IS SO ORDERED.

10 Dated: September 6, 2017
