

admitted that Public Law 80-772 was passed by the House in 1947, but was never voted on again by the House in 1948 (Even though the Senate amended it in 1948). Therefore, a different bill passed the house in 1947 than passed the senate in 1948, rendering it unconstitutional and void. Further research showed approximately 9 constitutional flaws in the bill, any one of which rendered it void. When any form of the Argument was presented to the district courts, they tried to dodge the Issue or deferred it to a Magistrate (who has NO Constitutional Authority) to Avoid it.

It appears that the issue of the validity of Title 18 of the criminal code and 18 USC 3231 is still in question.

Why is the warbler after this? I compel this court to know if Title 18 USC 3231 is unconstitutional.
