No Child Left Behind Act; Margaret Spellings d/b/a U.S. Secretary of Education; Senate Health, Education, Labor, and Pensions Committee, Defendants

Complaint

THE Government left me behind the Gates of FCI Williamsburg

comes now the plaintiff, Jonathan Lee Riches, in pro se, moves under 42 USC 1483, racial discrimination, neglect. I want a Education. FCI Williamsburg has no Education Books in Solitary Confinement. I'm only subjected to old paperback Westerns. Defendants left me behind from peers my age, the United Negro College Fund wont answer my letters for a transfer to Morehouse College to do prison time. Felons are forbidden from getting college grants.

(PC)Riches v. No Child Left Behind Act et al

Doc. 1

This is discrimination Against my will to learn. When I was a child, the short bus left me behind, and put its exhaust to my face, that's why we have Global warming. Rescue teams left me behind at Columbine in the Silver Learning center department. FCI Williamsburg will not provide me with a dictionary to write this Lawsuit. I've been in Solitary Confinement so long I can't count the days, I don't even know what country this is because if it's America, why do they allow people to be in Solitary without windows, cold showers, cold vent air, rotten food, no medical care. I seek Education, I seek wisdom, I have potential, the government said I took millions of dollars in Identity theft money, but when I try to work at a bank, the Bank of America says I have no Education. A lot of Ironies.
