AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claim 1 (currently amended): A computer implemented method of categorizing a network page, comprising:

providing a list of categories, wherein said list of categories include a category for transacting business and a category for providing information, and wherein said list of categories include a plurality of categories based on the copyright status of material on a page; and

assigning said network page to one or more of said list of categories.

Claim 2 (canceled).

Claim 3 (original): The method of Claim 1, wherein said categories include a plurality of categories based on subject matter.

Claim 4 (previously presented): The method of Claim 3, wherein said categories comprise categories related to government, medical, education and social science, news, sports and recreation, history, science and technology, arts and humanities, finance and business, reference, and explicit.

Claim 5 (original): The method of Claim 1, wherein said categories include a plurality of categories based on the type of files associated with a page.

Claim 6 (original): The method of Claim 5, wherein said categories comprise visual, audio, multimedia, text-only, and communication.

Claim 7 (cancelled).

REMARKS

Claims 1, 3-32 and 51 stand examined and are rejected on various grounds. These objections and rejections are addressed in the appropriate sections below. By virtue of this response, claim 7 has been cancelled, claims 1, 8, 32, and 51 have been amended, and no claim has been added. Accordingly, claims 1, 3-6, 8-32, and 51 are currently under consideration. Amendment and cancellation of certain claims are not to be construed as a dedication to the public of any of the subject matter of the claims as previously presented. No new matter has been added.

In view of the preceding amendments and the remarks made herein, the present application is believed to be in condition for allowance.

Interview Summary

During the telephonic interview on August 9, 2005, between Applicant's attorney, Thomas Chan, and Examiner Robinson, the following matter was discussed:

Claims 1, 4-8, and 52 of the pending application were discussed. Applicant discussed the novel aspects of the present invention and distinguished the present invention from the Cole reference (US Patent No. 5,933,827) cited by the Examiner in the Office Action. Specifically, Applicant explained that the Coles reference does not disclose at least the aspect of the claimed invention of categorizing based on the copyright status of materials on a web page. Applicant proposed that claim 8 will be included into claim 52 and claim 7 will be included into claim 1. There was no agreement reached, but the Examiner agreed to consider the points raised by the Applicant.

35 U.S.C. § 101

Claims 1, 3-32 and 51 stand rejected under 35 U.S.C. § 101 because the claimed invention is allegedly directed to non-statutory subject matter.

In response, the preamble of claims 1, 32, and 51 are amended per the Examiner's suggestion to satisfy the requirements of 35 U.S.C. § 101.

Docket No.: 588582000120

35 U.S.C. § 102(b)

Claims 1, 3-32 and 51 stand rejected under 35 U.S.C. § 102(b) as being anticipated by U.S. Patent No. 5,933,827 to Cole et al.

In response, as amended, Applicants respectfully submit that the Cole reference does not teach or disclose the claim limitation of "a plurality of categories based on the copyright status of material on a page" of the independent claims 1, 32 and 51, and their corresponding dependent claims. Therefore, with the amended claims, the rejection based on the Cole reference is moot.

In view of the above, each of the presently pending claims in this application is believed to be in condition for allowance. Accordingly, the Examiner is respectfully requested to withdraw the outstanding rejection of the claims and to pass this application to issue. If it is determined that a telephone conference would expedite the prosecution of this application, the Examiner is invited to telephone the undersigned at the number given below.

In the event the U.S. Patent and Trademark office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no. 588582000120. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Summary of Record of Interview Requirements

Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

DETAILED ACTION

1. Claims 1, 3-32 and 51 are pending in the present application.
2. Claims 2 and 33-50 have been cancelled. Claims 1, 4, 9-18, 29-30 and 32 have been amended; and new claim 51 has been added.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 1, 3-32 and 51 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The language of the claim raises a question as to whether the claim is directed merely to an abstract idea that is not tied to a technological art, environment or machine which would not result in a practical application producing a concrete, useful, and tangible result to form the basis of statutory subject matter under 35 U.S.C. 101.

Note as presently written the claim simply recites a series of steps an abstract idea that can be implemented with a pen and paper. The examiner suggest including limitation such as "a computer implemented method" to clarify that the series of steps are implemented on a computer.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1, 3-32 and 51 rejected under 35 U.S.C. 102(b) as being anticipated by Cole et al. US Patent 5,933,827.

Regarding claim 1, Cole teaches a method of categorizing a network page [note: *"The system comprises a cataloging function which defines a hierarchy of subject categories, logically arranges a multitude of web pages in the categories and periodically adds web pages in the categories"* abstract], comprising the steps of:

providing a list of categories, wherein said list of categories include a category for transacting business and a category for providing information [note: "RECEIVE WEB PAGE LIST FROM CATALOGING FUNCTION" step 332 figure 7]; and

assigning said network page to one or more said list of categories [note: abstract, column 5 lines 27-59].

7. Regarding claims 3-32, "said categories comprise visual, audio A categorization code that can be used to label a page ..." [note: figures 3, 5 and 6; column 1 lines 1-65; column 2 lines 35-54; column 6 line 23 through column 7 line 7].

8. The limitations of claim 51 have been addressed above except for the following: wherein said categories include a plurality of categories based on the copyright status of material on a page [note: Cole et al. provides for user ability to define the category see column 4 lines 30-66; also note column 5 line 60 through column 6 line 4].

Response to Arguments

9. Applicant's arguments with respect to claims 1, 3-32 and 51 have been considered but are moot in view of the new ground(s) of rejection.

In the response Applicant argued prior art reference Cole et al. does not teach the element of a "list of categories include a category for transacting business and a category for providing information". In response to Applicant's argument the examiner respectfully maintains the rejection. Note, Cole et al. teaches a *cataloging function 20* within server 10 to build a database 35 of new entries . The entry may consist of a business category and a sports category (i.e. category for information) [see: column 3 line 65 through column 4 line 17. Cole et al. provides for a list of categories [see: column 4 lines 35-40; and figure 7 step 332; also note figures 2, 5 and 6]. Also note new citation under 35 USC 101.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greta L. Robinson whose telephone number is (571) 272-4118. The examiner can normally be reached on Mon.-Fri. 9:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John E. Breene can be reached on (571) 272-4107. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

ASSIGNMENT
JOINT

COPY

THIS ASSIGNMENT, by Lee H. GRANT and Susan A. CAPIZZI (hereinafter referred to as the assignors), each residing at 1660 Drew Circle, # 27, Davis, California 95616, witnesseth:

WHEREAS, said assignors have invented certain new and useful improvements in METHOD OF CODING, CATEGORIZING, AND RETRIEVING NETWORK PAGES AND SITES, set forth in an application for Letters Patent of the United States, bearing Serial No. 10/082,596 and filed on February 22, 2002; and

WHEREAS, IconFind, Inc., a corporation duly organized under and pursuant to the laws of California and having its principal place of business at 1660 Drew Circle, # 27, Davis, California 95616 (hereinafter referred to as the assignee) is desirous of acquiring the entire right, title and interest in and to said inventions and said application for Letters Patent of the United States, and in and to any Letters Patent or Patents, United States or foreign, to be obtained therefor and thereon:

NOW, THEREFORE, in consideration of One Dollar (\$1.00) and other good and sufficient consideration, the receipt of which is hereby acknowledged, said assignors have sold, assigned, transferred and set over, and by these presents do sell, assign, transfer and set over, unto said assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to the above-mentioned inventions, application for Letters Patent, and any and all Letters Patent or Patents in the United States of America and all foreign countries which may be granted therefor and thereon, and in and to any and all divisions, continuations and continuations-in-part of said application, or reissues or extensions of said Letters Patent or Patents, and all rights under the International Convention for the Protection of Industrial Property, the same to be held and enjoyed by said assignee, for its own use and the use of its successors, legal representatives and assigns, to the full end of the term or terms for which Letters Patent or Patents may be granted, as fully and entirely as the same would have been held and enjoyed by the assignors, had this sale and assignment not been made.

AND for the same consideration, said assignors hereby covenant and agree to and with said assignee its successors, legal representatives and assigns, that, at the time of execution and delivery of these presents, said assignors are the sole and lawful owners of the entire right, title and interest in and to said inventions and the application for Letters Patent above-mentioned, and that the same are unencumbered and that said assignors have good and full right and lawful authority to sell and convey the same in the manner herein set forth.

AND for the same consideration, said assignors hereby covenant and agree to and with said assignee, its successors, legal representatives and assigns, that said assignors will, whenever counsel of said assignee, or the counsel of its successors, legal representatives and assigns, shall advise that any proceeding in connection with said inventions, or said application for Letters Patent, or any proceeding in connection with Letters Patent for said inventions in any country, including interference proceedings, is lawful and desirable, or that any division, continuation or continuation-in-part of any application for Letters Patent or any reissue or extension of any Letters Patent, to be obtained thereon, is lawful and desirable, sign all papers and documents, take all lawful oaths, and do all acts necessary or required to be done for the procurement, maintenance, enforcement and defense of Letters Patent for said inventions, without charge to said assignee, its successors, legal representatives and assigns, but at the cost and expense of said assignee, its successors, legal representatives and assigns.

AND said assignors hereby request the Commissioner of Patents to issue said Letters Patent of the United States to said assignee as the assignee of said inventions and the Letters Patent to be issued thereon for the sole use of said assignee, its successors, legal representatives and assigns.

REMARKS

Claims 1-50 were pending in the present application. By virtue of this response, claims 1, 4, 9-18, 21, 29, 30, and 32 have been amended. Claims 2 and 33-50 have been cancelled. Claim 51 has been added. Accordingly, claims 1, 3-32, and 51 are currently under consideration. Amendment and cancellation of certain of the claims is not to be construed as a dedication to the public of any of the subject matter of the claims as previously presented.

The amendments to claims indicated above are fully supported by the original specification. Therefore, no new matter is added.

Rejections Under 35 U.S.C. § 112

The Office has rejected claim 4 as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 4 is amended to remove the vague term "and other" as indicated by the Examiner.

Rejections Under 35 U.S.C. § 102

The Office has rejected claims 1-32 as being anticipated by Cole et al. (U.S. Patent 5,933,827, hereinafter the Cole reference). Applicants respectfully traverse this rejection as it applies to the amended claims.

Applicants submit that the Cole reference fails to disclose each and every element recited in the amended independent claims 1. In particular, the Cole reference fails to disclose at least the element of the "list of categories include a category for transacting business and a category for providing information." The Cole reference discloses a computer system for identifying web pages. The system comprises a cataloging function which defines a hierarchy of subject categories. The system also comprises a profile building function which receives selections of categories from a

user, records the selections and responds with an identification of subcategories of each selected category. The subject categories disclosed by Cole are similar to the categories described in the second tier of the present invention. However, the Cole reference does not disclose or teach the method of categorization as described in the first tier of the present invention for transacting business (commerce) and for providing information (see Figures 1-3 of the present application).

Therefore, the present invention is novel and unobvious over the Cole reference for at least the aforementioned reasons, and accordingly the rejection of claim 1 should be withdrawn. The amended claim 32 also includes the similar claim limitation as in claim 1. For at least the aforementioned reasons regarding the novelty of the features in claim 1, the rejection of claim 32 should also be withdrawn. It is respectfully submitted that the independent claims 1 and 32 and the corresponding dependent claims 3-31 are allowable over the Cole reference.

Support for New Claim 51

The support for the newly added claim 51 are found in Figures 1-3 and their corresponding description. This claim is distinguished from the Cole reference because the Cole reference does not teach or disclose the claim element of "a plurality of categories based on the copyright status of material on a page."
