IN THE UNITED STATES DISTRICT COURT  
FOR THE EASTERN DISTRICT OF CALIFORNIA

THOMAS BOTELL, et al.,

Plaintiffs,

No. 2:11-cv-1545 GEB GGH

vs.

UNITED STATES OF AMERICA,

Defendant.

FINDINGS AND RECOMMENDATIONS

\_\_\_\_\_  
INTRODUCTION AND SUMMARY

Previously pending on this court’s law and motion calendar for February 14, 2013, was plaintiffs’ motion for sanctions, filed December 24, 2013. Steven Campora appeared for plaintiffs. J. Earlene Gordon represented defendant. After reviewing the papers filed in conjunction with the motion and having heard oral argument, the court now issues the following findings and recommendations.

Over the course of hearing several motions to compel brought by plaintiffs, it has become all too apparent that defendant has purposely destroyed material evidence in this case, specifically the retaining wall that caused Tommy Botell’s death and injury to his sister, plaintiff K.B. For this reason, the court must recommend sanctions in the form of a finding of negligence by defendant in causing this death and injury. What is less clear, although highly suspicious, is

1 whether defendant spoliated evidence, other than the wall, that pertains to its defense of  
2 discretionary function exception. Based on the evidence presented herein, the court cannot  
3 conclusively determine that such spoliation occurred without holding an evidentiary hearing. As  
4 such matters must be presented to the district court as fact finder, the undersigned is of the  
5 opinion that this issue must await decision by Judge Burrell. Therefore, plaintiffs' second  
6 request, that the court establish that the discretionary function exception is not a bar to plaintiffs'  
7 claims, should not be granted at the present time.

#### 8 BACKGROUND

9 This is a wrongful death and personal injury action, filed June 8, 2011. Plaintiffs  
10 are the Botell family, who allege that while visiting Lassen Volcanic National Park ("LAVO" or  
11 "Park") on July 29, 2009, children Tommy and K.B. Botell were sitting on a mortared rock wall  
12 to rest during a hike, when it gave way and rolled downhill, causing Tommy's death and injuring  
13 K.B. Plaintiffs are K.B., her sister B.B., through their guardian ad litem, Jennifer Botell, who  
14 were present and their parents, Thomas and Jennifer Botell, who were also present at the  
15 incident. The complaint alleges wrongful death, personal injury - negligence, and negligent  
16 infliction of emotional distress. As one of its defenses to this FTCA action, defendant relies on  
17 the discretionary function exception.

#### 18 DISCUSSION

19 Plaintiffs seek sanctions for spoliation and failure to maintain indispensable  
20 evidence pursuant to the court's inherent power. The issues raised by plaintiffs' motion can best  
21 be categorized as follows: (1) whether defendant spoliated evidence in regard to the condition of  
22 the subject retaining wall; and (2) whether spoliation of evidence occurred with respect to  
23 defendant's claimed discretionary function exemption.

##### 24 I. Legal Standards

25 Rule 37 authorizes "a wide range of sanctions" for a party's failure to comply with  
26 discovery rules or court orders enforcing them. Wyle v. R.J. Reynolds Industries, Inc., 709 F.2d

1 585, 589 (9th Cir. 1983). Penalizing a party “for dilatory conduct during discovery proceedings”  
2 is discretionary. Bollow v. Federal Reserve Bank of San Francisco, 650 F.2d 1093, 1102 (9th  
3 Cir. 1981) (citing Fed. R. Civ. P. 37(a)(4)).

4 In addition to Rule 37 sanctions, “[c]ourts are invested with inherent powers that  
5 are ‘governed not by rule or statute but by the control necessarily vested in courts to manage their  
6 own affairs so as to achieve the orderly and expeditious disposition of cases.’” Unigard Sec. Ins.  
7 Co. v. Lakewood Engineering & Mfg. Corp., 982 F.2d 363, 368 (9th Cir. 1992) (quoting  
8 Chambers v. NASCO, Inc., 501 U.S. 32, 43, 111 S. Ct. 2123, 2132 (1991)); accord  
9 Anheuser-Busch, Inc. v. Natural Beverage Distributors, 69 F.3d 337, 348 (9th Cir. 1995)  
10 (recognizing inherent power to dismiss counterclaim for concealing discovery documents); Winn  
11 v. Associated Press, 903 F. Supp. 575, 580 (S.D.N.Y. 1995) (imposing monetary sanctions for  
12 deliberately impeding discovery and willful noncompliance with document production).

13 Precluding evidence so that the recalcitrant party cannot support defenses is  
14 comparable to entering dismissal, which “represent[s] the most severe penalty that can be  
15 imposed.” U.S. v. Kahaluu Const., 857 F.2d 600, 603 (9th Cir. 1988); accord, Valley Engineers  
16 v. Electric Engineering Co., 158 F.3d 1051 (9th Cir. 1998). Accordingly, such sanctions are  
17 authorized only in “extreme circumstances” for violations “due to willfulness, bad faith, or fault  
18 of that party.” Kahaluu Const., 857 F.2d at 603; see also Commodity Futures Trading Com’n v.  
19 Noble Metals Intern., Inc., 67 F.3d 766,770 (9th Cir. 1995) (affirming standard and upholding  
20 sanctions in egregious circumstances).<sup>1</sup> Bad faith does not require actual ill will; substantial and  
21

---

22 <sup>1</sup> See also, e.g., Fjelstad v. American Honda Motor Co., Inc., 762 F.2d 1334, 1338 (9th  
23 Cir. 1985) (“Where the drastic sanction of dismissal . . . [is] imposed . . . the range of discretion  
24 is narrowed and the losing party’s non-compliance must be due to willfulness, fault, or bad  
25 faith,” quoting Sigliano v. Mendoza, 642 F.2d 309, 310 (9th Cir.1981); G-K Properties v.  
26 Redevelopment Agency, 577 F.2d 645, 647-48 (9th Cir.1978) (bad faith crucial in Rule 37  
dismissal, citing National Hockey League v. Metropolitan Hockey Club, Inc., 427 U.S. 639, 96 S.  
Ct. 2778 (1976)); Henry v. Gill Industries, Inc., 983 F.2d 943, 946, 948-49 (9th Cir.1993)  
(reviewing Rule 37 dismissal under multiple factors, including willfulness, bad faith or fault);  
Porter v. Martinez, 941 F.2d 732, 733 (9th Cir.1991) (reviewing Rule 37 default judgment

1 prejudicial obduracy may constitute bad faith. B.K.B. v. Maui Police Dept., 276 F.3d 1091, 1108  
2 (9th Cir. 2002).

3 Five relevant factors also determine whether severe sanctions are appropriate:

- 4 (1) the public's interest in expeditious resolution of litigation;  
5 (2) the court's need to manage its docket;  
6 (3) the risk of prejudice to the other party;  
7 (4) the public policy favoring disposition of cases on their merits;  
8 and  
9 (5) the availability of less drastic sanctions.

8 Wanderer v. Johnston, 910 F.2d 652 (9th Cir. 1990) (default judgment for defendants' failure to  
9 comply with discovery); Malone v. U.S. Postal Service, 833 F.2d 128, 130 (9th Cir.1987).

10 This circuit has acknowledged that "[l]ike most elaborate multifactor tests, our  
11 test has not been what it appears to be, a mechanical means of determining what discovery  
12 sanction is just." Valley Engineers Inc. 158 F.3d at 1056. Inevitably where a court order is  
13 violated or discovery belatedly is produced, factors 1 and 2 support preclusive sanctions, and  
14 factor 4 cuts against them. Prejudice to the opposing party and the availability of less drastic  
15 sanctions, factors 3 and 5, are most often decisive. Id. Most critical for evaluating the risk of  
16 prejudice and whether less drastic sanctions would suffice is whether the discovery violations "so  
17 damage[] the integrity of the discovery process that there can never be assurance of proceeding  
18 on the true facts." Valley Engineers Inc., 158 F.3d at 1058.

## 19 II. Analysis

### 20 A. Spoliation in Regard to the Physical Condition of the Retaining Wall

21 After the incident which is the subject of this action, the facts indicate a willful  
22 spoliation of the retaining wall by Park staff. First, on the day of the incident, John Roth told  
23 Investigative Services Branch Special Agent Alan Foster that he wanted the investigation to be  
24 conducted by LAVO employees, contrary to NPS policy, even though he did not go to the scene

25 \_\_\_\_\_  
26 pursuant to multiple factors including bad faith); Wanderer v. Johnston, 910 F.2d 652, 655-56  
(9th Cir.1990) (same).

1 until 30 days after the accident, for unrelated reasons. LAVO delayed commencement of an  
2 investigation until three weeks after the accident, and then NPS Investigative Services Branch  
3 took over, through Alan Foster. (Foster Dep., dkt. no. 77-3 at 4.)

4           Second, NPS-50 provides that where there is a serious accident, the area must be  
5 secured and a Board of Inquiry is required. (NPS-50, Chap. 6 at 13, dkt. no. 77-3 at 20; Martin  
6 Dep., dkt. no. 77-3 at 24-25.) Darlene Koontz violated this policy by ordering the remaining  
7 portion of the retaining wall knocked down before NSP Special Agent Foster could inspect.  
8 (Martin Dep., dkt. no. 77-3 at 26-27.) Foster testified that this act compromised his  
9 investigation, and the scene was not documented to the level he thought it needed to be. (Foster  
10 Dep., dkt. no. 77-3 at 7-8.) Plaintiffs are unsure of the date of the destruction; it may have been  
11 after defendant received plaintiffs' preservation of evidence letter, but was sometime between  
12 July 29 and August 12, 2009. (Baxter Dep., dkt. no. 77-3 at 58-63; Lamkins Dep., dkt. no. 77-4  
13 at 4-8.)

14           Furthermore, according to Special Agent Foster at his deposition, LAVO made no  
15 effort to close the trail. He testified: "There was no – aside from a barrier closing the trail, which  
16 consisted of some plastic safety fencing stretched between fence posts and a sign indicating that  
17 the area was closed to the public, there was no restriction otherwise within that area that would  
18 mark it as consistent with, for instance, a crime scene to preserve it and keep people out of it."  
19 (Foster Dep., dkt. no. 77-3 at 6.) Defendant responds that "the Trail was in fact closed to the  
20 public following the accident;" however, defendant does not point to evidence supporting this  
21 statement. (Opp. at 6:19-20.) In fact, defendant could point to no documentation of the decision  
22 to keep the trail open rather than close it. At hearing, defense counsel, in discussing why the wall  
23 was knocked down, conceded that "[p]eople were – although the trail was closed to the public,  
24 people were still accessing the trail. David Harry and Susan Dolan climbed the trail so that she  
25 could examine the walls for purposes of determining their historical significance for the  
26 environmental assessment." (Hr'g Tr., dkt. no. 90 at 6:7-11.) Defendant's position is difficult to

1 maintain. If the trail was closed to the public, why was it necessary to knock down the remaining  
2 portion of the wall? If the trail was not completely closed off because certain Park individuals  
3 had to access it and the wall was purportedly dangerous to them, why was it not completely  
4 closed off in light of NPS-50, and the serious accident that had occurred there? Mr. Martin's  
5 testimony contradicts defendant's purported reason. He stated that Ms. Koontz ordered the wall  
6 knocked down because she wanted the trail to be re-opened to the public, not for anyone's safety.  
7 (Martin Dep., dkt. no. 77-3 at 26-27.)

8 In regard to documentation of the condition of the trail directly following the  
9 accident, Foster testified that in his professional opinion, although some work had been done, it  
10 was necessary to more closely photograph, document, measure and capture global position  
11 system coordinates and such work had not been done. (Id. at 29-30.) Ron Martin, LAVO Ranger  
12 Operation Supervisor, testified that the area was not secured because people were able to go and  
13 knock the wall down. (Martin Dep., dkt. no. 77-3 at 25.)

14 Plaintiffs further point to a Directive entitled, "Inspection and Hazard Control,"  
15 which requires a notice of unsafe condition be drafted and signed by the Superintendent and  
16 immediately posted, to remain at the site until the danger has abated. Furthermore, if there are  
17 hazards, employees shall correct them if possible and if they cannot be corrected, and pose a  
18 threat, they should be blocked off to prevent an accident and closed. (Pls.' Reply, dkt. no. 88-3 at  
19 31-32.) This directive was part of the LAVO Environmental Health and Safety Program which  
20 Koontz testified was mandatory.

21 It is true that two trail workers were instructed to look at the retaining wall and if  
22 anything was "awry or dangerous, to make it as safe as possible." (Lamkins Dep., dkt. no. 82-1  
23 at 2; Baxter Dep., dkt. no. 82-2 at 2.) Both employees testified that they were instructed to kick  
24 off what was left of the wall that had come down in the accident because it was unsafe, and they  
25 did so within a week or so of the accident, which would have preceded Mr. Steinfeld's August  
26 12, 2009 letter to preserve evidence. (Lamkins Dep., dkt. no. 82-1 at 2, dkt. no. 77-4 at 7; Baxter

1 Dep., dkt. no. 82-2 at 2, 4.) The trail was also closed to the public after the accident, or so  
2 counsel was told. (Steinfeld Dec., Ex. 2, dkt. no. 77-6 at 7.)

3           The Steinfeld preservation letter also requested that plaintiffs' expert be permitted  
4 to observe the investigation, and was addressed to Koontz and Foster. In response, Karen  
5 Glasgow,<sup>2</sup> assistant field solicitor to the Department of the Interior, stated on August 18, 2009,  
6 "at this stage of the investigation there is nothing for your expert to observe as the site visits and  
7 witness interviews have concluded." (Id., Exs. 1, 2, dkt. no. 77-6 at 4-7.) She also responded to  
8 Steinfeld's request to preserve evidence by stating that "the piece of retaining wall which  
9 dislodged fell approximately 1000 ft below the trail, where it still lays." (Id., Ex. 2, dkt. no. 77-6  
10 at 7.) In truth, defendant had already knocked down the remaining portion of the retaining wall  
11 by August 18, 2009, and the Foster investigation did not even begin until August 24, 2009.

12           This evidence shows that the trail was never closed completely in the sense that  
13 the public could not traverse below and around the wall for a period of time, certainly not before  
14 the unsafe portion of the wall was knocked down. Based on the accident and the condition of the  
15 wall and trail immediately following it, there were only two alternatives available to Park  
16 employees, both of which necessitated leaving the retaining wall intact. As to the first  
17 possibility, due to the nature of the tragic accident occurring on this trail, the condition was so  
18 dangerous that the entire trail and wall should have been closed off to the public, including the  
19 areas below the unstable retaining wall in order to prevent imminent injury, and a thorough  
20 investigation conducted, with the remaining wall intact and not destroyed. In the alternative, if  
21 Park employees believed the trail and remaining wall were not imminently dangerous, as they  
22 apparently did, and they therefore decided not to close the trail completely, they could have  
23 erected appropriate barriers and precautions to permit the public to use certain portions of the  
24 trail; however, the wall still should have been preserved in its untouched post-accident condition

---

25  
26 <sup>2</sup> This attorney represented defendant from within days of the accident.

1 until a thorough investigation was completed. No matter how the situation is considered, under  
2 either alternative the court finds that defendant unnecessarily spoliated evidence by destroying  
3 the remaining portion of the wall.

4 And, there is no doubt that the scene of the accident, i.e., the remaining part of the  
5 wall, was important for investigative purposes. Agent Foster so declared, and the court finds his  
6 evidence compelling. It also complies with common sense that a remaining part of an “unsafe  
7 wall” would speak volumes about why the accident occurred.

8 In regard to preserving evidence, Park employees Roth, Jones and Haner all  
9 testified that they were never instructed to preserve documents. (Haner Dep., dkt. no. 88-3 at 4-  
10 5; Jones Dep., dkt. no. 88-2 at 64; Roth Dep., dkt. no. 88-2 at 38.) Plaintiffs have presented  
11 further evidence that defendant additionally failed to administer litigation hold notices and to  
12 suspend its practice of automatically deleting emails after thirty days, which practice has  
13 apparently continued to the present. In response to Special Interrogatory 16, requesting a  
14 description of all efforts taken to preserve evidence, defendant did not state that it instructed  
15 anyone to preserve evidence. The response stated only generally that all evidence was collected  
16 and preserved. (Dkt. no. 88-2 at 10.) In response to Special Interrogatory 17, requesting the  
17 identity of every person to whom defendant provided a legal hold notice regarding the incident,  
18 with “legal hold” defined, *inter alia*, as a preservation order or freeze notice, defendant identified  
19 only Karen Glasgow, Assistant Field Solicitor. (Id. at 11-12.)

20 A further instance of spoliation in regard to the retaining walls was the draft report  
21 by Susan Dolan, which contained strong language regarding the condition of the retaining walls  
22 that Koontz ordered removed from the report. (Koontz Dep., dkt. no. 77-3 at 54.) The draft  
23 report was destroyed and has not been produced in this litigation.<sup>3</sup> Defendant argues that  
24

---

25 <sup>3</sup> Ms. Johnson stated at her June 11, 2012 deposition that she received a copy of the draft  
26 report and it is in her office at Lassen, but that she did not bring it with her. In a declaration  
dated September 27, 2012, Ms. Johnson states that she conducted a thorough search but was

1 plaintiffs have not been prejudiced by the lack of the draft report because there have been  
2 depositions and declarations regarding its content. Nevertheless, Dolan herself could not recall  
3 the content of the “strong statements.”<sup>4</sup> (Dolan Dep., dkt. no. 88-3 at 65.) Her search of emails  
4 which might have contained the language of the draft report came up with no documents,  
5 according to a declaration dated September 27, 2012; however, a separate declaration, dated  
6 September 4, 2012, states that an attached email, dated August 10, 2009, contains the same  
7 content as the draft report she wrote. (Dkt. nos. 60-2 at 39, 54-3 at 2-4.) Dolan’s observations in  
8 that email state that in general, the “the retaining walls (both dry and wet mortared) are in poor  
9 condition, with an immediate need for stabilization or rehabilitation to prevent further  
10 deterioration.” (Dkt. no. 54-3 at 3.) Nonetheless, at her deposition, after viewing the language of  
11 the alleged draft report that was contained in the August 10, 2009 email, Ms. Dolan testified that  
12 the email “is probably extremely similar to the content of [her] draft report to Sean Eagan.”  
13 (Dolan Dep., dkt. no. 77-5 at 45.) Her actual testimony was somewhat unsure however:

14 Q. Do you see [in the email presented to her at the deposition] the, quote, strong  
15 statements, end quote, that Mr. Eagan asked you to remove?

16 A. I cannot recall the exact nature of the strong statements that [Sean] asked me to  
17 remove. I believe they had something to do with the judgment about the poor quality of the  
18 construction of the walls.

19 Q. And now you’re looking at your actual report, correct?

20 A. That’s correct. And I have a vague sense that Sean asked me to recharacterize the  
21

---

22 unable to locate a Draft Dolan Report in electronic or hard copy form. (Dkt. no. 60-2 at 6, ¶ 4.)  
23 Defendant stated unequivocally at hearing that the draft report was not preserved. (Hr’g Tr., dkt.  
no. 90 at 12.)

24 <sup>4</sup> Although plaintiffs claim that Koontz and Johnson, who were in receipt of the draft  
25 report, also could not recall the content of the “strong statements,” the deposition pages cited by  
26 plaintiffs do not refer to these witnesses’ memories of the content of these statements. (Koontz  
Dep., dkt. no. 88-3 at 19; Johnson Dep., dkt. no. 88-3 at 70.) Nevertheless, there is no testimony  
by these witnesses in their depositions as to the exact nature of the “strong statements.”

1 poor construction of the walls.

2 ...

3 A. The best answer is I'm sure I did.

4 (Id. at 45-46.)

5 Furthermore, in Sean Eagan's deposition, taken after the hearing on this matter,  
6 this witness testified that he could not recall the content of the "strong language" that was taken  
7 out of the Dolan draft report. (Eagan Dep. at 87.)<sup>5</sup> Contrary to defendant's assertion that  
8 plaintiffs were provided with the substance of language used in the draft report in an email, when  
9 Mr. Eagan was presented with the email from Dolan to himself, dated December 2, 2009, which  
10 purportedly contained the strong language that was taken out, he testified after reading it that  
11 "[n]one of the text in this e-mail looks like text that I asked her to remove from the draft report."

12 (Id. at 91.)

13 It may be that the December 2, 2009 email presented to Sean Eagan did not  
14 contain the draft language, yet there is evidence that the August, 2009 email did contain this  
15 missing language. Therefore, although plaintiffs *might* now have the language of the draft report  
16 as produced in the August 10, 2009 email, defendant made it exceedingly difficult for plaintiffs  
17 to discover this email, which is not the actual draft report. Moreover, it is undisputed that  
18 defendant destroyed the draft report.

19 Defendant's argument that Dolan's visit and report are not relevant to the Botell  
20 incident because it took place after the incident and was for the purpose of determining historical  
21 value, and therefore there was no duty to preserve it, is belied by Koontz's order to take out the  
22 strong language and the destruction of the draft of this report. Additionally, there is evidence that  
23 Roth emailed Foster to seek changes to Foster's report, in part based on Susan Dolan's  
24 comments. Roth states in part: "Susan Dolan's comments regarding the condition of the trail

---

25 \_\_\_\_\_  
26 <sup>5</sup> This portion of the Eagan transcript was submitted to the court via email from  
plaintiffs' counsel on March 3, 2013.

1 seem inappropriate for this report. Susan is an historic architect, and not a trail building expert.  
2 If her comments are to stay in the report, please clarify her role as a historic architect and a report  
3 preparer. Her comments regarding the condition of the trail should be viewed within her scope  
4 of knowledge and responsibility.” (Dkt. no. 88-3 at 72.) Yet, in his deposition, when Roth was  
5 questioned about whether he had requested any changes to Foster’s report, he testified about one  
6 change he had requested, but stated that he could not remember any other additional changes.  
7 (Id., dkt. no. 88-4 at 4.)

8           Finally, Daniel Jones, as LAVO Chief of Maintenance, testified that he shredded  
9 all of his files when he retired in December, 2009 or January, 2010. (Dkt. no. 77-4 at 14-15.)  
10 Some of those files dealt with visitor safety issues in the Park. (Id. at 13.)

11           Nevertheless, the aforementioned pieces of evidence refute any claim of  
12 discretionary function exception in regard to spoliation of evidence pertaining to the retaining  
13 wall. The case cited by plaintiffs is instructive. In Apple Inc. v. Samsung Elec. Co., 881 F.  
14 Supp.2d 1132, 1149 (N.D. Cal. 2012), the court held that failure to turn off an email auto-delete  
15 function alone constituted willful spoliation. Since the material was lost, the court could never  
16 know how much relevant material was deleted, but it found it could not ignore the statistical  
17 contrast in the number of emails to conclude that the party had consciously disregarded its duty  
18 to preserve evidence. Id. In a later Apple case, brought on a motion for relief from judgment, the  
19 court explained further: “[b]y failing to do as little as issue a litigation hold notice to any  
20 employees for eight months after its preservation duty arose, and by further delaying issuance of  
21 litigation hold notices to several key custodians, the Court finds that Apple acted with not just  
22 simple negligence but rather conscious disregard of its duty to preserve.” Apple Inc. v. Samsung  
23 Electronics Co., Ltd., 888 F.Supp.2d 976, 998 (N.D. Cal. 2012). The duty to preserve evidence  
24 first arises as soon as a potential claim is identified. Id. at 991. Under Ninth Circuit standards,  
25 spoliation creates a presumption that the destroyed evidence went to the merits of the action, and  
26 that it was adverse to the destroying party. Dong Ah Tire & Rubber Co., Ltd. v. Glasforms, Inc.,

1 2009 WL 1949124, at \*10 (N.D.Cal. July 2, 2009), modified on other grounds, 2009 WL  
2 2485556 (N.D. Cal. Aug. 12, 2009) (citing Phoceene Sous–Marine, S.A. v. U.S. Phosmarine,  
3 Inc., 682 F.2d 802, 806 (9th Cir.1982).

4 In this case, the court makes the following findings based on the aforementioned  
5 evidence:

6 1. Defendant destroyed a critical part of the remaining “unsafe” part of the wall for no  
7 apparent purpose, other than to render the scene degraded in terms of any complete investigation.

8 2. Regulations required that the trail be closed for investigative purposes, but the trail  
9 was not totally closed, if at all, and no investigation of the accident site was made until after the  
10 accident site was appreciably changed.

11 3. There is a complete lack of evidence of communication or documentation by Darlene  
12 Koontz concerning her decision to destroy the wall.

13 4. Daniel Jones, as LAVO Chief of Maintenance, should have maintained records  
14 regarding the trail, but he destroyed all of his files when he retired in December, 2009 or January,  
15 2010.

16 5. The original draft of the Dolan report was destroyed after plaintiffs’ preservation  
17 request was made.

18 6. No preservation instructions were given to park employees, and as a result many  
19 emails were destroyed.

20 7. Park officials failed to follow policies in regard to the Foster investigation, which  
21 demonstrates that preservation of the wall was material to the investigation.

22 Based on the evidence presented, the court can only conclude that defendant’s  
23 conduct in spoliating evidence pertaining to the retaining walls was willful and material. As a  
24 sanction for this conduct, the court recommends that defendant be found negligent for all  
25 purposes in this case, in causing the death of Tommy Botell and injury to plaintiff K.B.

26 \\\

1           B. Spoliation of Evidence Pertaining to the Discretionary Function Exception

2           Plaintiffs also seek a recommendation that defendant’s third affirmative defense  
3 based on the discretionary function exception is not a bar to the claims at issue, based on the  
4 spoliation. Therefore, the court has considered plaintiffs’ argument concerning spoliation of  
5 evidence which might be utilized to seek the discretionary function exception.

6           Defendant argues that the discretionary function exception to a waiver of  
7 sovereign immunity in this FTCA case applies and therefore the court has no jurisdiction over  
8 plaintiffs’ claims.

9                   1. Standards for Discretionary Function Exception

10           The discretionary function exception to the FTCA concerns the subject matter  
11 jurisdiction of the court. Greene v. U.S., 207 F.Supp.2d 1113, 1118 (E.D. Cal. 2002) (citing  
12 Reed v. United States Dep’t. of the Interior, 231 F.3d 501, 504 (9th Cir.2000); Vickers v. United  
13 States, 228 F.3d 944, 949 (9th Cir.2000)). GATX/Airlog Co. v. United States, 286 F.3d 1168,  
14 1173 (9th Cir.2002), provides a good description of the exception:

15                   The government has not waived its immunity under the FTCA,  
16 however, for claims based upon the exercise or performance or the  
17 failure to exercise or perform a discretionary function or duty on  
the part of a federal agency or an employee of the Government,  
whether or not the discretion involved be abused.

18                   28 U.S.C. § 2680(a). This “discretionary function” exception is  
19 designed to “prevent judicial ‘second-guessing’ of legislative and  
20 administrative decisions grounded in social, economic, and political policy.” Gaubert, 499 U.S.  
at 323, 111 S.Ct. 1267, 113 L.Ed.2d 335 (quoting Varig Airlines, 467 U.S. at 814, 104 S.Ct.  
2755, 81 L.Ed.2d 660).

\*\*\*\*\*

21                   In Berkovitz v. United States, 486 U.S. 531, 536, 108 S.Ct. 1954,  
22 100 L.Ed.2d 531 (1988), the Supreme Court laid out a two-part test  
23 that governs application of the discretionary function exception.  
24 First, for the exception to apply, the challenged conduct must be  
25 discretionary—that is, it must involve an element of judgment or  
26 choice. This requirement is not satisfied—and the suit may  
therefore proceed—where a “federal statute, regulation, or policy  
specifically prescribes a course of action for an employee to  
follow,” because “[i]n this event, the employee has no rightful  
option but to adhere to the directive.” Id. In short, where alleged

1 conduct violates a mandatory directive, it is not discretionary.  
2 Gaubert, 499 U.S. at 324, 111 S.Ct. 1267, 113 L.Ed.2d 335; In re  
3 Glacier Bay, 71 F.3d 1447, 1452 (9th Cir.1995). Thus, discretion is  
4 the benchmark of this self referential prong of the discretionary  
5 function test. If the conduct involves choice or discretion, the court  
6 must then “determine whether that judgment is of the kind that the  
7 discretionary function exception was designed to shield.”  
8 Berkovitz, 486 U.S. at 536, 108 S.Ct. 1954, 100 L.Ed.2d 531. The  
9 focus is on “the nature of the actions taken and on whether they are  
10 susceptible to policy analysis.” Gaubert, 499 U.S. at 325, 111 S.Ct.  
11 1267, 113 L.Ed.2d 335. The decision “ ‘need not actually be  
12 grounded in policy considerations’ so long as it is, ‘by its nature,  
13 susceptible to a policy analysis.’ ” Nurse v. United States, 226 F.3d  
14 996, 1001 (9th Cir.2000) (quoting Miller v. United States, 163  
15 F.3d 591, 593 (9th Cir.1998)). When a statute or regulation allows  
16 a federal employee to act with discretion, “it must be presumed that  
17 the agent's acts are grounded in policy when exercising that  
18 discretion.” Gaubert, 499 U.S. at 324, 111 S.Ct. 1267, 113 L.Ed.2d  
19 335.

20  
21 Whether a challenged action falls within the discretionary function  
22 exception requires a particularized analysis of the specific agency  
23 action challenged. See Glacier Bay, 71 F.3d at 1451, 1455. The  
24 government bears the burden of proving that the discretionary  
25 function exception applies. Reed, 231 F.3d at 504.

26 Greene, 207 F.Supp.2d at 1119-1120 (quoting GATX, 286 F.3d at 1173–74).

## 2. Analysis of Evidence Presented

As a preliminary matter, defendant’s argument that this court has no jurisdiction to hear this matter, because it has claimed the discretionary function exception, is meritless. The mere assertion of such a defense does not deprive this court of jurisdiction unless and until the district court rules on the merits of that claimed defense. Here, the district court has previously ruled against defendant in its dispositive motions based on this affirmative defense. (See dkt. nos. 18, 24, 46.) Therefore, this action proceeds with this defense as an assertion only.

In order for the exception to apply, Park officials would have had to possess discretion as to how the wall was to be maintained or fixed, such that events and conditions *prior* to the incident are pertinent, rather than post-accident events. In this regard, plaintiffs point to a specific directive published in the LAVO Environmental Health and Safety Program. The Safety

1 Directive, titled “Inspection and Hazard Control,” states in part:

2 A notice of unsafe or unhealthful working condition that is in the  
3 imminent danger or serious danger category (Class A) will be  
4 drafted by the Team Manager and signed by the Superintendent  
5 and immediately posted at or near each place where such hazards  
6 are detected. Each notice shall remain posted until the danger has  
7 been abated.

8 Employees

9 All employees shall correct hazards, if possible, when they locate  
10 them. When unable to effect corrections, they should notify their  
11 supervisor, who shall correct the hazards and/or pass the  
12 information to the Division Manager, who will take appropriate  
13 action. Hazards which cannot be corrected right away and pose a  
14 potential for personal injury and/or property damage should be  
15 blocked off, signed, barricaded or other action taken to keep an  
16 accident from occurring.

17 \*\*\*\*\*

18 All facilities shall be maintained to be free of recognized hazards.  
19 Facilities that are substandard and pose hazards to safety and/or  
20 health shall be closed, partially closed or use modified patterns  
21 pending correction.

22 (Dkt. no. 88-3 at 31-32.) Ms. Koontz testified that all portions of the directive set forth above  
23 were mandatory. (Koontz Dep., dkt. no. 88-3 at 11-12, 14, 15-16.)

24 Here, plaintiffs contend that although defendant claims this exemption, the United  
25 States has not produced any responsive documents supporting a decision not to maintain the trail  
26 or put warning signs up. Plaintiffs specifically requested discovery aimed at obtaining  
27 production of documents relating to meetings where recordations of discretionary acts might  
28 occur. Plaintiffs point to their request for minutes from meetings concerning the Lassen Peak  
29 Trail and the retaining walls; however, there was a gap in production between March, 2009 and  
30 November, 2009 when no documents were produced. (Hr’g Tr., dkt. no. 90 at 36:8-16.)

31 The shredding of files by Jones was discussed above. Plaintiffs contend that the  
32 seventeen years worth of files shredded by Jones were important because in addition to being  
33 Chief of Maintenance at LAVO for this time period including the time of the accident, he was  
34 involved in the Reach the Peak project, and had been working on getting the trail repaired since

1 2007. At his deposition, Jones testified that his library contained documents regarding the trails,  
2 the rock retaining walls and safety issues in general. (Jones Dep., dkt. no. 77-4 at 12-15.)

3 Plaintiffs contend that his library would have related directly to the discretionary  
4 function exception, except that this court has no way to know what exactly was shredded.

5 Plaintiffs cite to Residential Funding Corp. v. DeGeorge Financial Corp., 306 F.3d 99, 109 (2nd  
6 Cir. 2002) to argue that they should not be prejudiced by the lack of evidence due to destruction  
7 in regard to the discretionary function exception.

8 [T]he party seeking an adverse inference must adduce sufficient  
9 evidence from which a reasonable trier of fact could infer that “the  
10 destroyed [or unavailable] evidence would have been of the nature  
11 alleged by the party affected by its destruction.” Kronisch, 150  
12 F.3d at 127; Byrnie, 243 F.3d at 110. Courts must take care not to  
13 “hold[ ] the prejudiced party to too strict a standard of proof  
14 regarding the likely contents of the destroyed [or unavailable]  
15 evidence,” because doing so “would subvert the ... purposes of the  
16 adverse inference, and would allow parties who have ... destroyed  
17 evidence to profit from that destruction.” Kronisch, 150 F.3d at  
18 128; Byrnie, 243 F.3d at 110.

14 In this regard, both parties submit contradictory evidence regarding the documents  
15 shredded by Jones. On the one hand, he testified that he never authored anything dealing with  
16 rock retaining walls, and he did not recall any of the shredded documents being specific to trails.  
17 (Jones Dep., dkt. no. 82-5 at 3.) On the other hand, Jones admitted that he did in fact write a  
18 memorandum in 1994, addressing the deteriorating walls, their hazardous condition, and visitor  
19 safety.<sup>6</sup> (Jones Dep., dkt. no. 88-2 at 65-68.) Consequently, for the court to ascertain the truth  
20 concerning the documents shredded and whether the discretionary function exception was  
21 implicated, an evidentiary hearing would be required.

22 A similar problem arises in regard to the documents shredded by John Roth.  
23 Although Jessica Compton observed Chief Ranger Roth shredding documents she had collected  
24 in response to discovery propounded by plaintiffs, she admitted at deposition that she does not  
25

---

26 <sup>6</sup> This memo was apparently obtained from Joseph Pettegrew, according to plaintiffs.

1 know what documents were shredded. (J. Compton Dep., dkt. no. 77-4 at 39-40.) What she did  
2 know, however, was that she had a conversation with Roth prior to the shredding, in which he  
3 expressed concern over some of the documents Jessica had collected, which included financial  
4 information, including budgeting for the trail, handwritten notes concerning the Botell incident  
5 taken during meetings, and notes from division chiefs. (Id. at 32-33.) Roth, on the other hand,  
6 testified at his deposition that he only shredded duplicates and documents which were  
7 unresponsive to plaintiffs' requests, and that no original documents were shredded. (Roth Dep.,  
8 dkt. no. 87 at 19-20, 25:21.) Koontz <sup>7</sup> testified that the only documents removed from those  
9 collected by Jessica Compton were those "that didn't answer the questions [plaintiffs] gave  
10 [them] on that list." (Koontz Dep., dkt. no. 87 at 44.) This testimony begs the question: how is it  
11 that these park officials determined which documents were non-responsive to the requests despite  
12 Ms. Compton's opinion that they were responsive, and without the assistance of a lawyer?  
13 Plaintiffs contend that surely financial information and notes from division chiefs are relevant to  
14 defendant's alleged balancing of policy considerations; however, to answer this question, an  
15 evidentiary hearing would be required.

16 Further, although Ms. Compton's collection of responsive documents had  
17 included handwritten notes, plaintiffs had never received handwritten notes in this production.  
18 Yet, Koontz did not think any handwritten notes were shredded. (Id. at 37-40.) Nevertheless, it  
19 is inconceivable that no handwritten notes exist, since Ms. Compton had collected them, and  
20 there were any variety of meetings where the Botell incident would have to have been discussed  
21 and notes taken. Yet when plaintiffs made a specific discovery request for "handwritten notes,"  
22 RFP number 83, defendant responded that no such notes were found. (Dkt. no. 88-5 at 15.) If  
23 any handwritten notes existed, what they divulged would most likely reveal their thoughts on  
24

---

25 <sup>7</sup> Roth brought the documents to meet with Koontz and review them after Jessica  
26 Compton delivered the documents to him, and just before he returned to the office where Jessica  
observed him shredding some of them.

1 discretion and/or mandatory policy regarding whether to repair the retaining walls and if not, why  
2 not, and consequently whether the discretion function exception applies. This mystery could  
3 only be resolved in an evidentiary hearing.

4 In regard to defendant's failure to instruct employees to preserve evidence and  
5 failure to suspend their thirty day auto-delete function in regard to emails, as outlined in the  
6 previous section, plaintiffs argue that the discretionary function exception is implicated by virtue  
7 of the number of emails not produced. To make their point, plaintiffs note a stark contrast  
8 between the number of emails produced which were authored by high level employees such as  
9 Superintendent Koontz (24), LAVO chief Ranger and Collateral Duty Safety Officer Roth (32),  
10 LAVO Chief of Maintenance Jones (6), LAVO Trail Crew Leader Pettegrew (21), LAVO Chief  
11 Interpretative & Education Officer Haner (12), LAVO Chief of Natural Resources Management  
12 Johnson (38), and LAVO Chief of Maintenance Harry (3), as compared to emails discovered on  
13 Sean Eagan's laptop (830) in Utah after he left LAVO, outside of the custody and control of  
14 LAVO and its high level employees. (Clark Dec., dkt. no. 54-3 at 12-13.) Defendant attempts to  
15 explain this discrepancy by arguing that Eagan's job was to direct the environmental assessment  
16 and coordinate it with the Lassen Peak Trail; therefore, he was typing more emails while other  
17 Park employees spent more time out in the Park and not at their desks.

18 Plaintiffs also point to specific emails that they know existed, but which were not  
19 produced. For example, Joseph Pettegrew sent an email to Johnson, Harry, Roth and Haner,  
20 dated June 17, 2010.<sup>8</sup> This email indicates it was replied to, but defendant has failed to produce  
21 any replies. (Dkt. no. 77-4 at 61.) Gene Compton, a seasonal employee, testified that Pettegrew  
22 had complained that emails to Koontz had "vaporized." (G. Compton Stmt., dkt. no. 77-5 at 16-  
23

---

24 <sup>8</sup> This email by Pettegrew, Maintenance Worker (Trails and Grounds), outlines many  
25 issues that exist with respect to the trail assessment. He stated: "I think were [sic] all aware of  
26 what can happen if these segments are not addressed before we allow hikers." His  
recommendation was that the Lassen Peak Trail should remain closed for the 2010 season. (Dkt.  
no. 77-4 at 61.)

1 17.) Nevertheless, as pointed out by defendant, plaintiffs have produced no proof that any such  
2 emails were actually destroyed after the accident.

3 Evidence provided by plaintiffs to refute the discretionary function exception also  
4 include allegedly false statements by Koontz. Foster testified that he sought to interview Koontz  
5 about LAVO employees' statements attempting to warn Koontz of the danger posted by the rock  
6 retaining walls, but she declined. The deposition transcripts would seem to show that Koontz  
7 lied under penalty of perjury about Foster's attempts to interview her, denying that she asked not  
8 to be interviewed, and testifying that it was the investigator's choice not to talk to her. (Foster  
9 Dep., dkt. no. 77-3 at 15; Koontz Dep., dkt. no. 77-3 at 48-49.) This sort of evidence goes to  
10 Koontz's credibility regarding the discretionary function exception. In order to determine the  
11 truth on this point, whether there is some explanation for these seemingly contradictory  
12 statements or whether Koontz did indeed commit perjury, an evidentiary hearing would need to  
13 be held. It is not the function of this court to make such a determination.<sup>9</sup>

14 The other piece of evidence submitted by plaintiffs also goes to Koontz's  
15 credibility. Koontz allegedly signed a declaration that was false in order to get this case  
16 dismissed before discovery could be conducted, in an attempt to establish the discretionary  
17 function exception. In her deposition, Koontz reviewed her declaration which stated that she was  
18 unaware of any statute, regulation or policy that prescribed how or when the rock walls should  
19 have been maintained or inspected in 2009, and then testified that this answer was true. (Koontz  
20 Dec., dkt. no. 77-3 at 50-52.) This testimony came after Koontz had just finished testifying that  
21 she was aware of a mandatory policy regarding the same subject, requiring closure of facilities  
22 that pose hazards. (Id. at 50.) Because plaintiffs have not made a motion to dismiss based on  
23

---

24 <sup>9</sup> Plaintiffs also bring to the court's attention the fact that LAVO Chief of Maintenance  
25 David Harry gave a statement then called Foster to inquire about changing the report. He was  
26 concerned that he was "crossways with other people in the park based on [his] statements."  
(Foster Dep., dkt. no. 77-3 at 12.) This evidence also pertains to credibility only, and did not  
affect the Foster report. Nor does it imply spoliation.

1 perjury, but only move for sanctions based on spoliation, the court will not consider this  
2 evidence.

3           This evidence is frankly not sufficient enough for this court to infer spoliation on  
4 the discretionary function exception without holding a trial within a trial. *In sum, the*  
5 *undersigned has no strong understanding that anything which might have been destroyed was*  
6 *material vis-a-vis discretionary function.* Plaintiffs draw many inferences that the missing and  
7 destroyed evidence relates to the discretionary function exception; however, the law requires that  
8 the spoliated evidence be material, that it relate to the issue at hand. The court cannot make such  
9 a finding on the present record. As in Residential Funding, 306 F.3d at 109, the evidence  
10 presented herein must be presented to a trier of fact who may draw an adverse inference that “the  
11 destroyed [or unavailable] evidence would have been of the nature alleged by the party affected  
12 by its destruction.” Furthermore, although it boggles the mind that Park officials would have  
13 been so inept as to not have created any documents pertaining to a decision not to repair the walls  
14 or close the trail because of ....., it is possible that no documents relevant to the discretionary  
15 function exception ever existed. Without a trial on the matter, this court will not draw the  
16 inference that documents were destroyed where there is the possibility, however slight, that they  
17 might never have been created. Most importantly, the undersigned has no opportunity to judge  
18 the credibility of these witnesses without live testimony and cross-examination, which is  
19 necessary to this determination, and must be accomplished by the district court.

20 CONCLUSION

21           Accordingly, IT IS HEREBY RECOMMENDED that:

22           1. Plaintiffs’ motion for sanctions for spoliation of evidence, filed December 24,  
23 2012, (dkt. no. 77), be granted in part and denied in part.

24           2. The court enter an order, establishing for all purposes in this case, that  
25 defendant is deemed to have been negligent in causing the death of Tommy Botell and injury to  
26 plaintiff K.B.
