1 Transition, Activation, and Management of the Receiver's 10,000 Bed Project

2 Pursuant to the Joint Court Order dated February 26, 2008, the Receiver has taken the lead  
3 concerning the construction of 10,000 medical and mental health beds. At present, the Receiver is  
4 planning to construct seven 1,500-bed health care facilities, the great majority of which will be on  
5 existing California Department of Corrections and Rehabilitation (CDCR) property. However, each  
6 facility will be constructed as a stand-alone institution and will be self-sufficient in terms of staffing,  
7 food, infrastructure, clothing, and other prison needs.

8 To ensure the cost-effective and coordinated provision of medical, mental health, dental and  
9 Americans with Disabilities Act services, the Receiver will assume responsibility for all transition  
10 planning and recruitment of staff for the seven new facilities. CDCR and the Department of Mental  
11 Health (DMH) will participate in staff hiring for the respective areas of operation concerning mental  
12 health and dental services. The Receiver will also assume the responsibility to obtain funding for all  
13 transition activities. However, the Receiver will exercise his responsibilities in cooperation with  
14 CDCR, the DMH, and the Court representatives from the *Coleman, Armstrong, and Perez* class  
15 actions. For example, representatives from CDCR, the DMH, and the class actions will be involved  
16 with policy and operational design of the new facilities as well as with the selection of upper-level  
17 facility management.
