S.N. 09/322,677 Art Unit. 2165

DETAILED ACTION

 This Office Action is the answer to the interview on
 3/18/2001, and the amendment submitted on 3/19/2001; which papers have been placed of record.

Claims 1-13, 15-68 are pending in this application. Claim 14
 was canceled.

Drawings

3. Since allowable subject matter has been indicated, applicants are encouraged to submit formal drawings in response to this Office Action. The early submission of formal drawings will permit the Office to review the drawings for acceptability and to resolve any informalities remaining therein before the application is passed to issue. This will avoid possible delays in the issue process.

Allowable Subject Matter and Reasons for Allowance 4. During an interview including SPE Vincent A. Millin, the examiner of the record, applicants' representatives (Mr. John G. Rauch, and Mr. James P. Naughton), current claims 1-13, 15-68 are considered patentable distinct over closest references of Buck et al., (WO 200016218 Al), and Parsons et al., (WO 0041090 published date is 7/13/2000), and RYAN et al., (WO 9948028 published date is 9/23/1999), because the applicants disclose a

Page 2

GOG 31825

09/322,677 Art Unit 2165

modified concept of generating a search result list substantially in real time in response to a search request from a searcher using a computer network, the concept comprising a step which is non-obvious over above closest disclosures:

- maintaining a database including search listings, wherein each search listing is associated with a network location, a search term and a modifiable bid amount that is independent of other components of the search listing, the bid amount being associated with a search term and the network location, the bid amount corresponding to a money amount that is deducted from an account of a network information provider associated with the network location upon receipt of a retrieval request for the network location; recording a retrieval request event including account identification information corresponding to the network information provider to permit maintenance of accurate account debit records.

Conclusion

5. Claims 1-13, 15-68 are allowed.

6. The following references are considered pertinent to applicants' disclosure.

- Buck et al., (WO 200016218 A1, classification G06F 17/30publishing date was 23/03/2000), about a web site searching and indexing system for Internet, provides search report of listings

Page 3

09/322,677 Art Unit 2165

relevant to search inquiry in which rank is assigned in order according to denominated values associated with listing (Buck et al. do not disclose about maintenance of debit records wherein the bid amount corresponding to a money amount that is deducted from an account of a network information provider). - Buck et al., (PCT/WO US9920486, classification GD6F 17/30publishing date was 9/10/1999), about a web site searching and indexing system for Internet, provides search report of listings relevant to search inquiry in which rank is assigned in order according to denominated values associated with listing (Buck et

al. do not disclose about maintenance of debit records wherein the bid amount corresponding to a money amount that is deducted from an account of a network information provider).

- Parsons et al., (WO 0041090 - published date is 7/13/2000), about a search engine database and interface base (Parsons et al., do not disclose about maintenance of debit records wherein the bid amount corresponding to a money amount that is deducted from an account of a network information provider).

- RYAN et al., (WO 9948028 - published date is 9/23/1999), about an improved search engine (Ryan et al., do not disclose about maintenance of debit records wherein the bid amount corresponding to a money amount that is deducted from an account of a network information provider).
