Subj: mb-pls handle from folder prep to contract for my review; thanks

as a side note, i recollect that the pcr folks didn't want to collaborate w/ "a D. Schwartz" from stanford. i'll check into this. in the meantime, michael will prep the agt so there will be no delays.

thnks,  
lucy

Dr David Schwartz is a member of the group at Stanford that is using Cetus IL-2 in combination with AZT to treat AIDS patients (Trial ATEU 24, T Merigan, P.I.). He wishes to obtain IL-2 pharmacokinetic data during this trial, but Cetus is unable to assay the samples for him (we have a 6 months back log on clinical IL-2 assays).

He will visit Cetus Thursday morning, November 17th to obtain a flask containing the IL-2 dependent cell line HT2, which he needs to set up the assay. I would also like to give him 3 vials of IL-2 for use in the assay.

I would like the necessary forms for the transfer of these materials so that he can sign them when he arrives at Cetus.
