As Governor Daniels said in his recent State of the State address, "perhaps the single most important step government can take for our economic future is to ensure the best possible infrastructure, the strongest possible framework, to support the business of tomorrow."

Through passage of HB 1279, he and Indiana legislators have set the right environment for new competitive choices, new investments in advanced broadband services and new benefits for consumers across our great state. Through their visionary efforts Hoosiers will reap the rewards of a truly competitive marketplace, and soon they will benefit from expanded broadband deployment and new video alternatives to cable.

We applaud the commitment of Governor Daniels and state legislative leaders in passing and signing this pro-consumer legislation.
