Oracle Database						
	Named User Plus License	Processor License	Processor License	Processor License	Processor License	Processor License
Data Warehousing Products						
Express Server	800	120.00	58.00	40,000	6,000.00	2,000.00
Express Analyzer	800	120.00	55.00	-	-	-
Express Objects	5,000	750.00	350.00	-	-	-
Integration Products						
Open System Gateways	-	-	-	15,000	2,250.00	1,050.00
Mainframe Integration Gateways	-	-	-	85,000	14,250.00	8,850.00
Enterprise Integration Gateways	-	-	-	35,000	5,250.00	2,450.00
Transparent Gateway for iWay	-	-	-	120,000	18,000.00	8,400.00
Each Additional iWay Driver	-	-	-	60,000	9,000.00	4,200.00
Application Adapters						
Application Adapters ³	15,000	2,250.00	1,050.00	-	-	-
Oracle Applications Adapter	15,000	2,250.00	1,050.00	-	-	-
Mainframe and TP-Monitor Adapters ⁴	30,000	4,500.00	2,100.00	-	-	-
PeopleSoft Adapter	30,000	4,500.00	2,100.00	-	-	-
EDI Adapter	30,000	4,500.00	2,100.00	-	-	-
Customer Data Management						
Customer Data Hub ¹⁴	100,000	15,000.00	7,000.00	Processor	1	
Customer Data Spoke	100,000	15,000.00	7,000.00	System	1	
Health Care						
Healthcare Transaction Base ^{12,14}	1,000	160.00	70.00	Named User Plus	50	
	100,000	15,000.00	7,000.00	Processor	1	

¹ If licensing by Named User Plus, the minimum is 10 Named User Plus licenses per Processor.

² Enterprise Edition Options & Enterprise Managers must match the number of licenses of the associated Oracle Database Enterprise Edition. In addition, a minimum of 25 Named User Plus licenses per Processor must be met. Associated Database is defined as the database(s) which is (are) being managed by the option.

³ Application Adapters are available for: PeopleSoft, SAP, Siebel & JD Edwards.

⁴ Mainframe and TP-Monitor Adapters are available for: CICS, IMS/DB, IMS/TM, VSAM, and Tuxedo.

⁵ Oracle Database Standard Edition can only be licensed on servers that have a maximum capacity of 4 processors. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses. Additionally, it may be licensed on a single cluster of servers supporting up to a maximum of four processors per cluster (2 2-way nodes, 4 1-way nodes, and 1 1-way and 1 3-way).

⁶ 2, 3, 4 and 5-Year Term Licenses are not available for Collaboration products. Customers must purchase Software Updates when purchasing Product Support. On Demand for Collaboration products is optional for customers purchasing Collaboration product licenses. Customers must purchase Software Updates and Product Support when purchasing On Demand. E-Business Discount Schedule applies to License, Software Updates, and Product Support fees. On Demand Discount Schedule applies to On Demand for Collaboration products. On Demand for this product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oraclecorp.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.

⁸ If licensing by Named User Plus, the minimum is 25 Named User Plus licenses per Processor.

⁹ Personal Edition provides a maximum of one Named User Plus per database.

¹⁰ Oracle Standard Edition One may only be licensed on servers that have a maximum capacity of 2 processors. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses.

¹¹ Internet Application Server Managers must match the number of licenses of the associated Internet Application Server (Excluding TopLink, for which these Manager Packs cannot be licensed). An associated Internet Application Server is defined as the Internet Application Server(s) which is (are) being managed by the option.

¹² Standard Edition Options must match the number of licenses of the associated Oracle Internet Application Server Standard Edition.

¹³ This product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oraclecorp.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.

¹⁴ For the purpose of licensing Healthcare Transaction Base, only the processors on which IAS Enterprise Edition and this program are installed and/or running are counted for the purpose of determining the number of processors required to license this program. For the purpose of licensing Customer Data Hub, only the processors on which Oracle Database Enterprise Edition and this program are running in production are counted for the determining the number of licenses required to license this program.

¹⁵ Internet Application Server Enterprise Edition Options must match the number of licenses of the associated Internet Application Server. Associated Application Server is defined as the application server(s) which is (are) being managed by the option.

¹⁶ Internet Application Server Standard Edition One may only be licensed on servers that have a maximum capacity of 2 processors. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses.

6-Year Term License available at 70% of Perpetual License; 4-Year Term License at 60% of Perpetual License; 3-Year Term License at 50% of Perpetual License; 2-Year Term License at 35% of Perpetual License; 1-Year Term License at 20% of Perpetual License

	Named User Plus License	Per Processor License	Per Processor License	Per Processor License	Per Processor License	Per Processor License
Oracle Rdb						
Rdb Server Products ¹						
Rdb Enterprise Edition	800	120.00	56.00	40,000	5,000.00	2,000.00
CODASYL DBMS	800	120.00	56.00	-	-	-
Rdb Server Options:						
TRACE ^{2,3}	100	15.00	7.00	5,000	750.00	350.00
Rdb Development, Query and Reporting Tools						
Programmer for Rdb ⁴	1,000	150.00	70.00	-	-	-
ODD/Repository	5,000	750.00	350.00	-	-	-
ODD/R Runtime ⁵	-	-	-	5,000	750.00	350.00

¹ If licensing by Named User Plus, the minimum is 25 Named User Plus licenses per Processor.

² Rdb Server Options must match the number of licenses of the associated database.

³ TRACE may also be licensed with CODASYL DBMS.

⁴ Oracle precompilers supported via SQL*Net for Rdb for use across Oracle & Rdb Servers.

⁵ ODD/R Runtime is an unlimited use license for applications requiring ODD/R deployment licenses.

5-Year Term License available at 70% of Perpetual License; 4-Year Term License at 60% of Perpetual License; 3-Year Term License at 50% of Perpetual License; 2-Year Term License at 35% of Perpetual License; 1-Year Term License at 20% of Perpetual License.

5-Year Term License available at 70% of Perpetual License; 4-Year Term License at 60% of Perpetual License; 3-Year Term License at 50% of Perpetual License; 2-Year Term License at 35% of Perpetual License; 1-Year Term License at 20% of Perpetual License

- ¹ An option must be licensed at the same level as its parent. Example: number of Flow Manufacturing users = number of Discrete Manufacturing users. If the parent has multiple metrics, the option must be licensed at the same level as its parent for each metric. Example: number of Advanced Pricing users = number of Order Management users AND number of Advanced Pricing Electronic Order Lines = number of Order Management Electronic Order Lines.
- ² Primary Usage is defined as each User of the following applications: Financials, Discrete Manufacturing, Process Manufacturing, Project Costing and Purchasing. Each such User is counted only once based on primary usage. You must specify how many Users you are licensing for each application. Primary Usage of one of the applications listed above provides the User with the right to use any or all of the other application programs listed above for which you are licensed. Primary Usage does not provide you with the right to use other application programs including the extensions or options to the application programs listed above.
- ³ Order Management is licensed based upon the number of application users AND the number of order lines entered from any source other than those entered by licensed Order Management Users. Order Management User licenses are required for all individuals who are using Order Management. In addition, any order that is entered electronically into Order Management must be licensed using the Electronic Order Line metric. This applies to order lines originating in iStore, Quoting, EDI/XML transactions, legacy applications or any other source. (Order lines entered manually by the licensed Order Management users are covered under the Order Management User license)
- ⁴ For the purpose of licensing this program (except Healthcare Transaction Base and Customer Data Hub), only the processors on which iAS Standard Edition and/or Enterprise Edition and this program are running are counted for the purpose of determining the number of processors required to license this program. For the purpose of licensing Healthcare Transaction Base, only the processors on which iAS Enterprise Edition and this program are installed and/or running are counted for the purpose of determining the number of processors required to license this program. For the purpose of licensing Customer Data Hub, only the processors on which Oracle Database Enterprise Edition and this program are running in production are counted for the purpose of determining the number of licenses required to license this program.
- ⁵ The number of Applications Users for Tutor for Applications must match the number of Application Users of each Application for which the customer is using Tutor. If the application is licensed with a metric based on all the individuals in an organization, i.e., Person, Employee, then everyone in the LOB or organization must be licensed using the Self Service Tutor for Applications. If the application is licensed with any other metric, i.e., Purchase Line, Order Line, then the number of Application Users for Tutor for Applications must match the number of Application Users that the customer would have licensed for the application, had this metric been available.
- ⁶ Configurator can be licensed by Application User OR by Processor. If licensing by Application User, then the actual users accessing Configurator must be counted. If the user population accessing Configurator is uncountable, then the Processor metric must be used.
- ⁷ If licensed with Clinical, the total number of application users and application read-only users of Thesaurus Management System must match the number of application users of Clinical. If licensed separately, the minimum of application users for Thesaurus Management System is 1, the minimum of application read-only users is 5.
- ⁸ Customers must pay for both the module and the subscription/activation fee.
- ⁹ Separate Remote Data Capture licenses are required for remote site-based data entry. In-house entry users require Clinical licenses. Remote Data Capture is licensed by Application User when the annual CRF Page volume cannot be estimated, or if it is more cost effective.
- ¹⁰ If the customer is running Activity Based Management in conjunction with a 3rd party Financials application, and not Oracle Financials, then licenses of Oracle Financials are not required.
- ¹¹ The customer is required to maintain Professional User 2003 licenses for at least 10% of the employee population.
- The official source for the total company employee population is the company's annual report for publicly held companies. For private firms, this information must be verified in writing by a person who is authorized to make such a representation on the firm's behalf.
 - A company may not license the E-Business Suite 2003 at the division level, unless it has wholly owned subsidiaries. Lines of Business, Departments, and Organizations within a company are not eligible for the E-Business Suite 2003 pricing regardless of whether they meet the minimum licensing requirements.
 - If a company's employee population grows by 10% or more and the company is no longer meeting the minimum license requirements, the company will need to purchase incremental user licenses to satisfy the 10% requirement.
 - Once minimums are satisfied, they are not required to be met in subsequent purchases.
- ¹² Customers who licensed Oracle applications under the E-Business Suite pricing model can continue to purchase licenses per pages 5 and 6 of the March 7, 2003 price list. This rule applies also to customers who do not have a price hold.
- ¹³ If Managed Assets are \$10 billion or less, the price per \$M in Managed Assets is 2,000. If Managed Assets are greater than \$10 billion, the price per \$M in Managed Assets for the first 10,000 licenses is 2,000, and the price per \$M in Managed Assets for each additional license is 1,000.
- ¹⁴ This product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oraclecorp.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
- ¹⁵ Where Inventory Management is licensed across multiple plants or warehouses, the Inventory Management options (Mobile Supply Chain Applications, Warehouse Management) can be licensed individually for each plant/warehouse. Within each plant/warehouse using the Inventory option, the option must be licensed at the same user count as Inventory Management.
- ¹⁶ Where Discrete Manufacturing is licensed across multiple plants, the Discrete Manufacturing options (Mobile Supply Chain Applications, Flow Manufacturing, Manufacturing Scheduling) can be licensed individually for each plant. Within each plant using the Manufacturing option, the option must be licensed at the same user count as Discrete Manufacturing.
- ¹⁷ Where Projects is licensed across many lines of business, the Project Billing option to Project Costing can be licensed individually for each line of business using the Oracle Projects solution. Within each line of business using the Project Billing option, the option must be licensed at the same user count as Project Costing.
- ¹⁸ 2, 3, 4 and 5-Year Term Licenses are not available for Collaboration products. Customers must purchase Software Updates when purchasing Product Support. On Demand for Collaboration products is optional for customers purchasing Collaboration product licenses. Customers must purchase Software Updates and Product Support when purchasing On Demand. E-Business Discount Schedule applies to License, Software Updates, and Product Support fees. On Demand Discount Schedule applies to On Demand for Collaboration products. On Demand for this product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oraclecorp.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
- ¹⁹ Where Process Manufacturing is licensed across multiple plants, the Process Manufacturing option (Manufacturing Scheduling) can be licensed individually for each plant. Within each plant using the Manufacturing option, the option must be licensed at the same user count as Process Manufacturing.
- ²⁰ Sales Contracts Application User licenses are required for all contract administrators, legal staff, order administrators and sales personnel who manage the contracts library or author contracts.

Oracle Education Subscription

Learning Subscription ¹	48	Hosted Named User	Yearly	5000
------------------------------------	----	-------------------	--------	------

¹ At the minimum, the customer must license a number of Named Users and Months that are equal to 5,000 USA (Dollar).

ORCL00704420

Processor: shall be defined as all processors where the Oracle programs are installed and/or running. Programs licensed on a Processor basis may be accessed by your internal users (including agents and contractors) and by your third party users. For the purpose of counting the number of processors which require licensing, a multi-core chip with "n" processor cores shall be equated to "n" processors.

Professional User 2003: is defined as an individual authorized by you to use the 3dpartsmaster programs which are installed on a single server or multiple servers, regardless of whether or not the individual is actively using the programs at any given time. Professional Users 2003 are allowed to manually enter orders directly into the programs and any orders entered electronically into Order Management from other sources must be licensed separately.

Application User, Field Sales User, Financials User, Inventory/Promoting User, Marketing User, Manufacturing User, Purchasing User, TeleSales User, Unleashed Asset Management (EAM) Unleashed is an individual authorized to you to use the applicable Unleashed application programs which are installed on a single server or on multiple servers regardless of whether the individual is actively using the programs at any given time. If you select the Self Service Work Request option in conjunction with EAM, you are required to maintain licenses for the equivalent number of EAM Users licensed and you are granted unlimited access to initiate work requests, view work request status and view scheduled completion date for your entire employee population.

Collaboration Program User: is defined as an individual authorized by you to use the program which was installed on a single server or on multiple servers regardless of whether the individual is actively using the program at any given time. For the purposes of creating and licensing the number of Web Conferencing users, a Collaboration Program User may in some cases be defined as a user able to initiate, or host, a web conference and also participate in a web conference; all participants in the web conference internal to your company and attending a web conference are not required to be licensed.

Case Report Form (CRF) Page: Is defined as the "electronic equivalent" of what would be the total number of physical paper pages initiated remotely by the Program (measured typically in the Program as Received Data Collection [rawdata.ms]) during a 12-month period. You may not exceed the threshold number of CRF pages during any 12-month period unless you acquire additional CRF pages beyond from us.

Computer: is defined as the computer on which the *Applications* are installed. A Computer license allows you to use the licensed program on a single specified *Computer*.

Electronic Order Lines: is defined as the total number of distinct electronic order lines entered electronically into the Oracle Order Management application from any source (not manually entered by Licensed Order Management Users, Professional Users 2003, or Professional Users 2003 External) during a 12 month period. This includes order lines originating in external CRM/ERP transactions and/or sourced from other Oracle and non-Oracle applications. You may not exceed the licensed number of order lines during any 12 month period.

Multiple instances of the same (e.g., object, person, entity or item of information) stored within the program. Multiple entries listed within the program on multiple servers are counted as a single entry.

Exported Reports: The following reports are available as separate report procedures by the computerized storage or retrieval system.

NOTE: Statements to a reviewer, that may appear to be directed to the reviewer, are for the purpose of providing a quick response.

Invoice Line: is defined as the total number of invoice line items prior

Order Management User: is defined as an individual authorized by you to use the applicable licensed application programs which are installed on a single server or on multiple servers.

Partner Organization: is defined as an external third party business entity that provides value-added services in marketing and selling your products. Depending upon the type of industry, partner organizations play different roles and are recognized by different names such as

As an employee of a public agency, time or labor (piece work) or absence are managed by the system. For Project Resource Management, a person is defined as an individual who is scheduled on a project. For Internal Time, a person is defined as an individual in a period of time accounting. The total number of persons stored in the system as of the technical report date is 631,690 and 5,199,000 people whose records are recorded in the system.

FOIA b (7)(C), (D) and (E) apply. The information is withheld because its disclosure could reasonably result in the identification of confidential sources and the disclosure of confidential information, the disclosure of which could be detrimental to the national defense.

Line licenses for each program (Number of Purchase Lines for Procurement could be a smaller number than for Purchasing Intelligence).

business document with the vocabulary and a business process with the choreography of the message dialog.

licensed number of Service Order Lines during any 12 month period unless you acquire additional Service Order Line licenses from us.

or (d) a live connected utility meter. The total number of Subscribers is equal to the aggregate of all types of Subscribers. If your business is not defined in the primary definition of Subscriber above, Subscriber is defined as each U.S. \$1,000 increment of your gross annual sales as reported to the SEC in your annual report or periodic or significant document.

System = defined as all the functional software components described in the product documentation.

Further, it is defined as an *intra* functional knowledge component, because it is the product of accumulation.

System: is defined as each distinct production database. Test development: 1/10/07 and 4/10/07 database

Trainee: is defined as an employee, contractor, student or other person who is being repaid by the program.

Workstation: is defined as the client computer from which the programs are being accessed, regardless of where the program is installed.

\$M in Managed Assets: is defined as one million U.S. dollars of the following total: (1) Book value of investment in capital leases, direct financing leases and other finance leases, including residuals, whether owned or managed for others, active on the program, plus (2) Book

value of assets on operating leases, whether owned or managed for others, active on the program, plus (3) Book value of loans, notes, conditional sales contracts and other receivables, owned or managed for others, active on the program, plus, (4) Book value of non earning assets, owned or managed for others, which were previously leased and active on the program, including assets from term leaseback leases and repossessed assets, plus (5) Original cost of assets underlying leases and loans, originated and active on the program, then sold

TERM DESIGNATION

If your Program License does not specify a term, the Program license is perpetual and shall continue unless terminated as otherwise provided in the Agreement.

- 5 Year Term: A Program license specifying a 5 Year Term shall commence on the Effective Date of the order and shall continue for a period of 5 years. At the end of the 5 Year Term the Program license shall terminate automatically.
- 4 Year Term: A Program license specifying a 4 Year Term shall commence on the Effective Date of the order and shall continue for a period of 4 years. At the end of the 4 Year Term the Program license shall terminate automatically.
- 3 Year Term: A Program license specifying a 3 Year Term shall commence on the Effective Date of the order and shall continue for a period of 3 years. At the end of the 3 Year Term the Program license shall terminate automatically.
- 2 Year Term: A Program license specifying a 2 Year Term shall commence on the Effective Date of the order and shall continue for a period of 2 years. At the end of the 2 Year Term the Program license shall terminate automatically.
- 1 Year Term: A Program license specifying a 1 Year Term shall commence on the Effective Date of the order and shall continue for a period of 1 year. At the end of the 1 Year Term the Program license shall terminate automatically.

ORACLE SUPPORT SERVICES

Oracle Support Services (OSS) offers the following programs: Software Updates to provide customers with the right to Oracle product upgrades, Oracle Product Support for 24x7 support of all Oracle products, and Oracle Advanced Product Support for a menu of additional services designed to provide an enhanced level of support. Services may vary by country. For availability, contact your local Support Sales representative. For a complete description of Oracle Support Services programs, refer to the Internal Sales Support website at <http://marketing.us.oracle.com> and Select Support Marketing.

Software Updates (formerly known as Update Subscription)

Software Updates is a service that provides customers with rights to new Oracle releases including product upgrades, maintenance releases and patches. This service may be purchased as a stand-alone annual subscription.

Prices shown on this price list apply to both perpetual and term licenses for first year support only.

Product Support

Product Support is a 24x7 support service that provides direct access to Oracle experts for product-specific questions about installing and operating Oracle software. Web-based support is provided via Oracle MetaLink. Features of MetaLink include proactive notifications, customized home pages, technical libraries and forums, product life-cycle information, a bug database, and the ability to log technical assistance requests. Software Updates is a prerequisite. Prices shown on this price list apply to both perpetual and term licenses for first year support only.

Support Renewals

Prices shown on this price list are annual fees that apply to both perpetual and term licenses for first year support only. The price of a technical support renewal for Software Updates and Product Support is the technical support fees paid for the same licenses in the prior year, increased by the appropriate renewal adjustment. Oracle uses two different renewal adjustments: the Support Cap Rate (SCR) and the Local Renewal Adjustment (LRA). Support renewals for licenses sold under the old pricing model (generally prior to January 1, 2000), are renewed using the SCR. Support renewals for licenses sold under the current pricing model (initially on or after January 1, 2000) called e-Business licenses, are renewed using the LRA. In all cases, any valid technical support cap included in a license agreement or ordering document that governs the licenses, limits the renewal adjustment. For more information on renewal adjustments, contact your Support Sales representative.

Advanced Product Support

Advanced Product Support is designed to provide an enhanced level of support to Oracle customers. Advanced Product Support delivers tailored, flexible support solutions built to meet the customers' specific business requirements.

Advanced Product Support customers have the flexibility to purchase standard or combine standard services with specific offerings to provide a full solution.

Contact your local Support Sales representative for Advanced Product Support information and pricing.

Incident Support

Incident Support is a web-based incident pack support model through which technical support is available in packages of 10 incidents at a cost of 1,000 USA (Dollar). This service is available for the following products, across all platforms:

- Oracle Database Standard Edition
- Oracle Database Standard Edition
- Oracle Database Personal Edition
- Oracle Database Lite

Incident Server Support Packages provide incident-based web support for the following Incident product sets:

- Oracle Database Server Support Package (2,000 USA (Dollar) for 10 incidents on one server): Oracle Database Enterprise Edition, Oracle Database Standard Edition, Standard Edition One, Partitioning, Real Application Clusters
- Oracle Application Server Support Package (1,000 USA (Dollar) for 10 incidents on one server): Internet Application Server Enterprise Edition, Internet Application Server Standard Edition, Internet Application Server Java Edition

With the purchase of Incident Support and Incident Server Support Packages, customers receive access to Oracle MetaLink, which provides 24x7 web-based technical support, including web-based Technical Assistance Requests.

Customer Support Services Policies and Definitions

The complete policy can be found in the Technical Support Policies at <http://www.oracle.com/support>

Extended Maintenance Support (EMS)

Customers with current Software Updates and Product Support, or Software Updates and Incident Support, can purchase EMS for certain Oracle programs after they are desupported. EMS may only be sold to customers who already have the applicable release at the time their support is renewed and may not be sold with new licenses. EMS fees are applied to the desupported Oracle programs only. EMS fees for most products consist of the prior year's fee for Software Updates and Product or Incident Support plus the applicable renewal adjustment applied by 30% (Prior Year's fee * (1 + Applicable Renewal Adjustment) * 130%).

ORACLE ON DEMAND

Oracle offers complete application, database, and hardware management services, which can help lower a customer's IT maintenance costs and increase support resolution time.

Administration Services

Administration Services are system administration, application technology management and monitoring activities provided remotely by Oracle for licensed Oracle programs. Administration Services are contracted on yearly terms; the billing is annual in advance. Customers purchasing On Demand for either E-Business Suite or Technology Online must meet the minimum annual net fees for Administration Services of 45000 USA (Dollar) and minimum monthly net fees of 4000 USA (Dollar). Customers purchasing On Demand for both E-Business Suite and Technology Online must meet the minimum annual net fees for Administration Services of 80000 USA (Dollar) and minimum monthly net fees of 8000 USA (Dollar). Prices shown on this price list are monthly fees and apply to both perpetual and term licenses.

Computer and Administration Services

Computer Services must be sold together with Administration Services. Computer and Administration Services are system administration, application technology management, and monitoring activities for licensed Oracle programs that are provided by Oracle from a data center hosting facility to which the customer has remote applications access. Computer and Administration Services are contracted on yearly terms; the billing is annual in advance. Customers purchasing On Demand for either E-Business Suite or Technology Online must meet the minimum annual net fees for Computer and Administration Services of 72000 USA (Dollar), and minimum monthly net fees of 6000 USA (Dollar). Customers purchasing On Demand for both E-Business Suite and Technology Online must meet the minimum annual net fees for Computer and Administration Services of 144000 USA (Dollar) and minimum monthly net fees of 12000 USA (Dollar). Prices shown on this price list are monthly fees and apply to both perpetual and term licenses.

E-Business Global Price List Supplement
December 1, 2004

Included and Prerequisite Products

Certain Oracle products may need other Oracle products to be installed as a prerequisite for their operation. The following is a guide to products which are shipped with the license and products which require a separate license purchase. It is the responsibility of the Sales Representative and Customer Administrator to specify products included with a license but requiring separate order. Version numbers are included only where there is a specific license dependency.

Not all platforms have product availability in the same release.

Restricted Use licenses may be used only to run and install the licensed Program with which they are included. Specific restrictions for each license are described in the licensed Program's Documentation.

The "Networking Kit" provides all relevant networking software and any available protocol adapters.

LICENSED PROGRAM	PREREQUISITE OR COMPATIBLE THIRD PARTY SOFTWARE	PREREQUISITE OR COMPATIBLE THIRD PARTY SOFTWARE
Oracle Database Standard Edition One	JSERVER Enterprise Edition, iMOLMOL, Enterprise Manager, Workflow, Advanced Queuing, Standard Management Pack, Object Option, Networking Kit, Objects for OLE, Distributed Option, O4 B4 Option, ODBC Driver, and SQL*Plus, OCI. Restricted Use: Oracle Internet Directory for the purposes of storing Oracle Database Service information.	
Standard Edition	JSERVER Enterprise Edition, iMOLMOL, Enterprise Manager, Workflow, Advanced Queuing, Standard Management Pack, Object Option, Networking Kit, Objects for OLE, Distributed Option, O4 B4 Option, ODBC Driver, and SQL*Plus, OCI and Real Application Clusters. Note that RAC for SE is only available with 10g. It is not an installable option with Database SE. Also, Customers must use Oracle Cluster Ready Services as the clusterware; third party clusterware is not supported, AND Customers must use Oracle Automatic Storage Management to manage its data. Restricted Use: Oracle Internet Directory for the purposes of storing Oracle Database Service information.	
Enterprise Edition	JSERVER Enterprise Edition, iMOLMOL, Object Option, Networking Kit, Objects for OLE, Advanced Queuing, Distributed Option, Parallel Query Option, (including bitmap indexes and parallel bitmap-join query), SQL*Plus, Visual Information Retrieval and iMOLMOL. Also included are: Advanced Backup & Recovery, Queuing, Advanced Connection Manager & Pooling, G4-B4 Option, MPI, OCI, ODBC Driver, Enterprise Manager and Enterprise Backup & Recovery. For OS/390 implementation, use of either Access Manager for OS/390 or Access Manager for IMS/DB is included. Restricted Use: Oracle Internet Directory for the purposes of storing Oracle Database Service information.	
Personal Edition	Networking Kit, Objects for OLE, SQL*Plus, and ODBC driver. All options available with Oracle Database Enterprise Edition (except RAC).	
Lite	Networking Kit, ODBC driver and Oracle Database Lite Mobile Option	Oracle Database Standard Edition, Standard Edition One or Oracle Database Enterprise Edition
Oracle Database Enterprise Edition Options:		
Real Application Clusters		Oracle Database Enterprise Edition
Partitioning	Parallel DML, Parallel Index Scan	Oracle Database Enterprise Edition
OLAP		Oracle Database Enterprise Edition
Data Mining		Oracle Database Enterprise Edition
Spatial		Oracle Database Enterprise Edition
Advanced Security		Oracle Database Enterprise Edition
Label Security		Oracle Database Enterprise Edition
Enterprise Manager		Oracle Database Enterprise Edition
Diagnostics Pack		Oracle Database Enterprise Edition
Tuning Pack		Oracle Database Enterprise Edition and Diagnostic Pack
Change Management Pack		Oracle Database Enterprise Edition
Configuration Management Pack		Oracle Database Enterprise Edition
Internet Application Server		
TopLink		
Java Edition	HTTP Server, OC4J (J2EE container and web services), TopLink, BC4J and JDeveloper Named User Plus licenses per Processor	
Standard Edition One	TopLink, Portal, Web Cache, and JDeveloper Named User Plus licenses per Processor. Restricted Use: (i) Oracle Internet Directory is provided for use with OracleIAS Single Sign-On and with other iAS components to provision, store and manage users and groups, their associated security credentials and privileges, to synchronize data with third party directory services; and to store other component specific metadata. (ii) OracleIAS Web Cache is provided only for use with Portal. (iii) The Oracle Database is provided for use with iAS Infrastructure for storing product metadata. Storing any other data in the OracleIAS Infrastructure database requires a full use license of the Oracle Database. (iv) Advanced Security Option limited to Oracle Java SSL library. (v) Oracle WebMonitor is provided for use with Oracle Content Management Software Development Kit only. See question #9 on the iAS FAQ posted on http://source.oracle.com for additional details. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.	Please refer to Question #5-12 of the Oracle Application Server FAQ on http://source.oracle.com for additional details. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
Standard Edition	TopLink, Portal, Web Cache and JDeveloper Named User Plus licenses per Processor. Restricted Use: (i) Oracle Internet Directory is provided for use with OracleIAS Single Sign-On and with other iAS components to provision, store and manage users and groups, their associated security credentials and privileges, to synchronize data with third party directory services; and to store other component specific metadata. (ii) The Oracle Database is provided for use with iAS Infrastructure for storing product metadata. Storing any other data in the OracleIAS Infrastructure database requires a full use license of the Oracle Database. (iv) Advanced Security Option limited to Oracle Java SSL library. (v) Oracle WebMonitor is provided for use with Oracle Content Management Software Development Kit only. See question #9 on the iAS FAQ posted on http://source.oracle.com for additional details. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.	Please refer to Question #5-12 of the Oracle Application Server FAQ on http://source.oracle.com for additional details. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
Enterprise Edition	Oracle Forms Services, Oracle Reports Services, TopLink, Portal, iMOLMOL, Oracle Database Standard Edition or Standard Edition One, iMOLMOL, Application InterConnect, TopLink, iMOLMOL, iMOLMOL, Personalization, and iMOLMOL. Please refer to Question #5-12 of the Oracle Application Server FAQ on http://source.oracle.com for additional details.	

	Restricted User: (i) The Oracle Database is provided for use with UAS Infrastructure for storing product metadata, storing any other data in the OracleAS Infrastructure database requires a full use license of the Oracle Database. (ii) Advanced Security Option limited to Oracle Java SSL library. (iii) Oracle Workflow is provided for use with Oracle Content Management Software Development Kit and for use with Oracle Application Server Integration InterConnect and Oracle Application Server Integration B2B only. See questions 99 on the IAS FAQ posted on http://www.oracle.com for additional details. If you are an Oracle partner, please contact your Oracle PRM Representative for additional information.	If you are an Oracle partner, please contact your Oracle PRM Representative for additional information.
BPEL Process Manager		
Portal	Oracle HTTP Server and mod including mod_pls1, mod_oss, mod_perl, PERL Interpreter, and ORACLE data access libraries; PL/SQL, Server Pages, Content Management Software, Content Management Kit (CMK), UltraSearch, Application Server Repository Oracle Assistant, Oracle UDDI Registry, and Oracle Enterprise Manager Application Server Control. Restricted User: (i) Oracle Internet Directory is provided for use to provision, store, and manage Oracle Portal users and groups, their associated security credentials and privileges, to synchronize data with third party directory services, and to store other Portal-specific metadata. (ii) Oracle Single Sign-On is provided for authentication services to users accessing an Enterprise Portal by using Oracle Portal. (iii) Oracle Web Cache is provided to accelerate performance of Oracle Portal. (iv) Oracle HTTP Server, mod, and Oracle Containers for J2EE are restricted to running Oracle Portal. (v) Advanced Security Option limited to Oracle Java SSL library. (vi) Portal Metadata Repository: Oracle Portal requires the use of an Oracle Database for its Metadata Repository. The Oracle Database is provided for use with Oracle Portal strictly for storing Portal metadata, storing any other data in the Oracle Application Server Infrastructure database requires a full use license of the Oracle Database.	Oracle Database (any edition of the Oracle Database)
Identity Management	Oracle Internet Directory, Oracle Single Sign-On, Oracle Directory Integration Platform, Oracle Delegated Administration Service, Oracle Certificate Authority, Oracle BAM and Library Software Development Kit, and Oracle Enterprise Manager Application Server Control, Database Control, and Identity Management Control. Restricted User: (i) Oracle Database: The Oracle Database is provided for use with Oracle Identity Management only for storing Directory Schema and Directory Metadata information. Storing any other data in the Oracle Application Server Infrastructure database requires a full use license of the Oracle Database. (ii) Oracle HTTP Server, mod, and Oracle Containers for J2EE are restricted to running Oracle Identity Management. (iii) Advanced Security Option limited to Oracle Java SSL library.	Oracle Database (any edition of the Oracle Database)
Integration	OracleAS ProcessConnect, OracleAS Web Content, OracleAS B2B Engine, Oracle Technology Adapter, Oracle Enterprise Manager Application Server Control, and S/Developer Network User Plug-ins per Processor. Restricted User: (i) Oracle Database: The Oracle Database is provided for use with Oracle Integration for storing product metadata. Storing any other data in the Oracle Application Server Infrastructure database requires a full use license of the Oracle Database. (ii) Advanced Security Option limited to Oracle Java SSL library. (iii) Oracle HTTP Server, mod, and Oracle Containers for J2EE are restricted to running Oracle Integration. (iv) Oracle Workflow is provided for use with Oracle Application Server Integration InterConnect and Oracle Application B2B.	Oracle Database (any edition of the Oracle Database)
Business Intelligence	Discoverer Plus, Discoverer Viewer, Discoverer Portal Provider, Oracle Reports Services, Oracle Enterprise Manager Application Server Control, and OLAP Named User Plus licenses per Processor restricted to Reports Services Warehouse Builder, B2B Suite, and Discoverer Administration Edition only. Restricted User: (i) Oracle Database: Oracle Business Intelligence requires the use of an Oracle Database for its Metadata Repository. The Oracle Database is provided for use with Oracle Business Intelligence strictly for storing Business Intelligence Metadata. Storing any other data in the Oracle Application Server Infrastructure database requires a full use license of the Oracle Database. (ii) Oracle HTTP Server, mod, and Oracle Containers for J2EE are provided for deployment of Business Intelligence Applications only.	Oracle Database Standard Edition is required for Oracle Reports Services and Oracle BI Discoverer Relational. Oracle Database Enterprise Edition and the Oracle OLAP option are required for Oracle BI Discoverer OLAP.
Forms	Oracle Forms (including Forms Servlet, Forms client Appl, Forms Runtime Servlet, and Forms Runtime also called Web Forms Runtime), Oracle Enterprise Manager Application Server Control, Restricted User Oracle HTTP Server, mod, and Containers for J2EE are restricted to running Oracle Forms Applications.	
Internet Application Server Standard Edition Options:		
Identity Management Option		Internet Application Server Standard Edition
Internet Application Server Enterprise Edition Options:		
BPEL Process Manager Option		Internet Application Server Enterprise Edition
Internet Application Server Manager		Internet Application Server
Diagnostics Pack		Internet Application Server
Configuration Management Pack		Internet Application Server

Tools	Restrictions	Oracle Database Editions
Internet Developer Suite	Developer, Forms Developer, Reports Developer, JDeveloper, Business Components for Java, Clusterware Administration Edition, Warehouse Builder, SQL*Plus and 1 license of Discoverer Desktop Edition restricted to the Named User of IOS.	
Discoverer Desktop Edition	Restricted User: IAS Enterprise Edition and its options restricted to testing and debugging the deployment of application developed with IOS, Oracle Database Enterprise Edition and its options.	Oracle Database Personal Edition, Oracle Database Standard Edition, Standard Edition One or Oracle Database Enterprise Edition. There needs to be atleast 1 licensed copy of IOS.
JDeveloper	Restricted User: IAS Enterprise Edition restricted to testing and debugging the deployment of application developed with JDeveloper, Oracle Database Enterprise Edition.	
Programmer	Oracle Developer for OLE, Oracle Developer for BOL Module (based on platform availability), ODBC and OCI, Access Manager for CDDP and IMPTM with Oracle Programmer on the OS/390 platform.	
Collaboration		
Collaboration Suite	Files, Email, Email Server, Web Conferencing (when available), Restricted use: IAS Enterprise Edition (including options) and Database Enterprise Edition (including options & Enterprise Manager Pack) solely for the purpose of running the Oracle Collaboration Suite.	
Files	Restricted use: IAS Enterprise Edition (including options) and Database Enterprise Edition (including options, & Enterprise Manager Pack) solely for the purpose of running Files.	
Email	Email Server, Restricted use: IAS Enterprise Edition (including options) and Database Enterprise Edition (including options, & Enterprise Manager Pack) solely for the purpose of running Email.	
Web Conferencing	Restricted use: IAS Enterprise Edition (including options) and Database Enterprise Edition (including options, & Enterprise Manager Pack) solely for the purpose of running Web Conferencing.	
Data Warehousing Products		
Express Server	Express Web Agent (with VED and/or of Express Server)	
Express Analyzer	Express Web Publisher	Express Server
Express Objects	Express Web Publisher	Express Server, Express Analyzer for users of the deployed application.
Integration Products		
Open System Gateways	Open System Gateways include Oracle Transparent Gateways for MS SQL Server, Sybase, Rdb, Informatica, Teardata, and RMS. Restricted Use: Oracle Database Enterprise Edition for use as the host/peer Gateway/Integrating server.	Oracle Database Standard Edition, Standard Edition One or Oracle Database Enterprise Edition
Mainframe Integration Gateways	Mainframe Integration Gateways include Oracle Transparent Gateways for DB2. Restricted Use: Oracle Database Enterprise Edition for use as the host/peer Gateway/Integrating server.	Oracle Database Standard Edition, Standard Edition One or Oracle Database Enterprise Edition
Enterprise Integration Gateways	Enterprise Integration Gateways include Access Manager for AS/400, Procedural Gateway for MQ Series, APPC, Transparent Gateway for DB2/400 and IBM DRDA. Restricted Use: Oracle Database Enterprise Edition for use as the licensed Gateway's integrating server.	Oracle Database Standard Edition, Standard Edition One or Oracle Database Enterprise Edition
Transparent Gateway for iWay	Restricted Use: Oracle Database Enterprise Edition for use as the licensed Gateway's integrating server.	Oracle Database Standard Edition, Standard Edition One or Oracle Database Enterprise Edition
Application Adapters		
Oracle Applications Adapter		Enterprise Application Server Enterprise Edition or Integration
Mainframe and TP-Monitor Adapters		Enterprise Application Server Enterprise Edition or Integration
Relational Adapter		Enterprise Application Server Enterprise Edition or Integration
EDI Adapter		Enterprise Application Server Enterprise Edition or Integration
Other		
Customer Data Hub		
Customer Data Spoke		
Healthcare Transaction Base		Oracle Database Enterprise Edition, IAS Enterprise Edition
Rdb Server Products		
Rdb Enterprise Edition	Networking Kit, ODBC driver, Distributed Option, Replication Option, Parallel Query Option, 64-bit Option, and Rdb Database Integrator (DBI)	
ODDASYL DBMS		
Rdb Server Options*		
TRACE		Rdb Enterprise Edition or ODDASYL DBMS
Development, Query and Reporting Tools		
Programmer for Rdb	Oracle Rdb and RdbPRE precompilers, Rdb SQL Module, ODBC, OCI and Objects for OLE (Windows version only)	
ODP Repository	Full Use ODP/R license for developers only. Restricted User: Rdb Server for ODP/R metadata	
ODP/R Runtime	Restricted Use: Rdb Server for ODP/R metadata	

All Oracle Applications		
No modifications	Oracle Alert, Application Object Library, Report Manager, Management Pack for Oracle Applications, ECI Gateway, XML Gateway, Restricted User: Oracle Database Enterprise Edition, Programmer and IAS Enterprise Edition for the underlying technology are involved by the unmodified E-Business Suite applications. Restricted User: IAS for installing and configuring discovery workbooks and end user layer content. Additionally, IAS for warehouse metadata to support EDV defined with Oracle Apps (Forms and Reports Builders for diagnostic purposes only). Restricted User for Oracle licensed applications users only. Customer Data Hub	
Modifications implemented as Java programs which include Java that produce HTML interface or Java business logic	Oracle Alert, Application Object Library, Report Manager, Management Pack for Oracle Applications, ECI Gateway, XML Gateway, Restricted User: Oracle Database Enterprise Edition, Programmer and IAS Enterprise Edition for the underlying technology are involved by the unmodified E-Business Suite applications. Restricted User: IAS for installing and configuring discovery workbooks and end user layer content. Additionally, IAS for warehouse metadata to support EDV defined with Oracle Apps (Forms and Reports Builders for diagnostic purposes only). Restricted User for Oracle licensed applications users only. Customer Data Hub	1. JDeveloper for the total number of developers who are not licensed for Oracle Applications, ECI Gateway, XML Gateway, and are building Java Programs using JDeveloper that accesses the Oracle Database Enterprise Edition and Programmer and IAS Enterprise Edition for the underlying technology are involved by the unmodified E-Business Suite applications. Restricted User: IAS for installing and configuring discovery workbooks and end user layer content. Additionally, IAS for warehouse metadata to support EDV defined with Oracle Apps (Forms and Reports Builders for diagnostic purposes only). Restricted User for Oracle licensed applications users only. Customer Data Hub
Modifications that require IAS or Discoverer Desktop Edition only (This includes creation/modification of reports, forms and workbooks)		3. IAS EE for the total number of total workbooks or Processes for which the modifications are deployed 4. If deploying Enterprise workbooks, Discoverer Desktop edition for the total number of users
Modifications to the database (This includes adding/changing tables, columns, stored procedures and triggers)	Oracle Alert, Application Object Library, Report Manager, Management Pack for Oracle Applications, ECI Gateway, XML Gateway, Restricted User: Oracle Database Enterprise Edition, Programmer and IAS Enterprise Edition for the underlying technology are involved by the unmodified E-Business Suite applications. Restricted User: IAS for installing and configuring discovery workbooks and end user layer content. Additionally, IAS for warehouse metadata to support EDV defined with Oracle Apps (Forms and Reports Builders for diagnostic purposes only). Restricted User for Oracle licensed applications users only. Customer Data Hub	1. Oracle Database Enterprise Edition for the total number of total users or Processes 2. IAS EE for the total number of end users or Processes for which the modifications are deployed 3. Programmer and IAS for the total number of developers who are performing these modifications 4. JDeveloper for the total number of developers who are not licensed for IAS and are building Java Programs using JDeveloper that accesses the Oracle Database Enterprise Edition and Programmer and IAS Enterprise Edition for the underlying technology are involved by the unmodified E-Business Suite applications. Restricted User: IAS for installing and configuring discovery workbooks and end user layer content. Additionally, IAS for warehouse metadata to support EDV defined with Oracle Apps (Forms and Reports Builders for diagnostic purposes only). Restricted User for Oracle licensed applications users only. Customer Data Hub
The prerequisites in the modifications tables above must be added to the product level prerequisites listed below. For detailed view, please consult the Customer Facing Business Prerequisites located at: http://source.oracle.com		
E-BUSINESS SUITE		
Component Applications		
Intelligence		
E-Business Intelligence	Supply Chain Intelligence, Purchasing Intelligence, Financial Intelligence, Process Manufacturing Intelligence, Oracle Manufacturing Intelligence, Restricted User: IAS restricted to Oracle Warehouse Builder for use as the metadata repository and to map metadata to placeholders in target instances. Other use such as extension of the schema, mapping other sources to the interface tables, creating and generating other targets not included	If using Supply Chain Intelligence, Process Manufacturing or Oracle Manufacturing or Order Management or Advanced Supply Chain Planning, IAS is required. If using Purchasing Intelligence, Financial, or any other intelligence applications now included in the Financial bundle
Balanced Scorecard	Balanced Scorecard Developer	
Financial & Sales Analyzers	Sales Analyzer, Financial Analyzer. The included products that apply to all of the Oracle Applications do not apply to Financial & Sales Analyzers	Express Server. The product prerequisites that apply to all of the Oracle Applications do not apply to Financial & Sales Analyzers
Enterprise Planning and Budgeting	Restricted User: OLAP if no modifications are made to the Enterprise Planning and Budgeting Application Database	OLAP if modifications are made to the Enterprise Planning and Budgeting Application Database
Marketing and Sales		
Marketing	Marketing Encyclopedia System	
Trade Management		
Advanced Pricing		Used as an option to Trade Management Trade Management
TeleSales	Restricted User: Ordering, Order Management. Restricted to Order Entry Workbench	
Advanced Pricing		Used as an option to TeleSales TeleSales
Field Sales	Mobile Sales, Wireless Option for Sales, Restricted User: Oracle Database Lite	
Quoting		1. IAS is required for Order Management, Order Management, licensed by Business Order Lines for all orders passed out of OM Used as an option to Quoting, Quoting
Advanced Pricing		
Partner Management		
Proposals		Global Reach to include proposals proposals
Incentive Compensation		
Order Management		
Order Management	Restricted User: iPayment	Inventory Management for people in the inventory department
Advanced Pricing		Used as an option to Order Management, Order Management
Release Management		Order Management
Sales Contracts		Order Management for the CRM users
Configure	Configurator Developer. Restricted use: Inventory Management and BOM or Material for the purpose of adding options and BOM	
Store	Restricted User: iPayment	
Logistics		
Inventory Management	Restricted User: Order Management (used for Shipping)	
Mobile Supply Chain Applications		Used as an option to Inventory Management Inventory Management
Warehouse Management	Mobile Supply Chain Applications	Inventory Management
Transportation Execution		Order Management for the CRM users
Transportation Planning		Transportation Execution
Transportation Optimization		Transportation Planning
Supply Chain Planning		
Advanced Supply Chain Planning		
Constraint Based Optimization		Advanced Supply Chain Planning
Inventory Optimization		
Global Order Promising		
Demand Planning	For 11.5.10 release only. Restricted User: OLAP if no modifications are made to the Demand Planning Application Database	Express Server. For 11.5.10 release only. OLAP if modifications are made to the Demand Planning Application Database
Collaborative Planning		
Procurement		
Purchasing	Supplier Scheduling	
Sourcing		Purchasing
Supplier Portal		Purchasing
Procurement Contracts		Purchasing
Services Procurement	Restricted User: Time and Labor and Project Resources	Purchasing
Advanced Pricing		Used as an option to Purchasing Purchasing
Procurement	Restricted use: Application Object Library, Message Broker, Purchasing	

Manufacturing		
Discrete Manufacturing	Data of Material, Capacity, Cost Management, Engineering, Inventory Management, Master Scheduling/MRP, Quality, Work in Progress, Project Manufacturing	Project Costing and Project Costing for users of Project Manufacturing only
Mobile Supply Chain Applications		Used as an option to Discrete Manufacturing, Discrete Manufacturing
Flow Manufacturing		Discrete Manufacturing
Manufacturing Scheduling		Used as an option to Discrete Manufacturing, Discrete Manufacturing
Process Manufacturing		
Manufacturing Scheduling		Used as an option to Process Manufacturing, Process Manufacturing
Maintenance Management		
Enterprise Asset Management	Restricted Use: Inventory Management	
Subcontract Work Accounts		Enterprise Asset Management
Service Management		
Service Contracts		
Field Service		
Spares Management	Restricted Use: Inventory Management	Field Service
Advanced Scheduler		Field Service. May require NAVTECH 3300W data that must be licensed from Navigation Technologies Inc. The data is currently available for the US, Canada, and Western Europe. Transition Advanced Scheduler may be used only in these regions. Contact NAVTECH in North America, at Oracle_Announcements@navtech.com or +1.408.647.5521. In Europe, at Oracle_Announcements@navtech.com or +44 (0) 1453-351434
Mobile Field Service	Wireless Option for Service, Restricted Use: Oracle Database Lite for Mobile Field Service users, Wireless Option for US EE for Wireless Option for Service users	Field Service
Desktop Repair		
Support		
Project Costing	Activity Management Gateway, Project Management, Labor Distribution	Project Costing
Project Billing		
Project Resource Management	Activity Management Gateway	
Project Collaboration		Project Management for the project manager and project leads. Files & documents are stored in Oracle's document management solution and shared via Project Collaboration.
Project Management	Project Collaboration for licensed Project Management users only, all other users need to be licensed. Restricted Use: Project Costing and Project Billing restricted to visibility and financial control of information processed in these products. Project Connect for Project Activity Management Gateway	Files & documents are stored in Oracle's document management solution and shared via Project Management
Project Controls		
Product Lifecycle Management		
Advanced Product Catalog		
CADView-3D		
Financial		
Financials	Assets, Cash Management, General Ledger, Payables, Receivables, Revenue Accounting, Global Consolidation System, Property Manager, EPG Trade Accounting, Public Sector Budgeting, Public Sector General Ledger, Public Sector Receivables, Public Sector Payables, U.S. Federal General Ledger, U.S. Federal Receivables, U.S. Federal Payables, Public Sector General Ledger (International), Public Sector Receivables (International), Public Sector Payables (International), Public Sector Assets (International), Labor Distribution, Restricted Use: Payroll	
Activity Based Management	Activity Based Management Analyzer, SEM Exchange	Financials
Advanced Collections	Restricted Use: Payroll	
Interest Expenses	Restricted Use: Financials	
Receivables	Restricted Use: Payroll	
Treasury		
Internal Controls Manager	Self-Service Tutor for Applications	
Human Resources		
Human Resources	Labor Distribution	Human Resources
Self-Service Human Resources		
Advanced Benefits	Restricted Use: Human Resources	
Recruitment	Restricted Use: HR and HRVantage	
Payroll	Labor Distribution, Restricted Use: Human Resources, Cash Management	Resides in US and Canadian Payroll include delivery of the required Vendor Contribution Module. Customer must enter a license agreement with Vendor for the HRVantage subscription (http://www.oracle.com/tech_hr_vantage)
Time and Labor	Restricted Use: Human Resources	
HR Intelligence	Restricted Use: HRVantage restricted to Oracle Warehouse Builder for use as the metadata repository and to map Oracle HRVantage to target instances. Other use such as extraction of the contents, mapping other sources to the interface tables, creating and generating other targets not included.	Human Resources
Learning Management		
Learning Management	Restricted Use: Payroll	
Online Learning		Learning Management
Learning		

Customer Data Management		
Customer Data Upload		
Customer Data Spoke		
Interaction Center Technology		
Advanced Inbound Telephony	Interaction Blending	TeleService, TeleSales, or Advanced Collections
Advanced Outbound Telephony	Interaction Blending	Marketing, and other TeleSales, or Advanced Collections, if telephony integration is required; Advanced Inbound Telephony
Sealing	Interaction Center Intelligence	Call management for Sealing Survey is required; Marketing
Email Center	Email Server	
Other		
Tutor for Applications	Tutor for Financials, Tutor for Projects, Tutor for Purchasing, Tutor for Order Management, Tutor for Oracle Manufacturing, Tutor for Human Resources, Tutor for Payroll, Tutor for Time Management, Tutor for Training Administration, Tutor Tool	
Flas	Restricted use: IAS Edition Edition (including options) and Database Enterprise Edition (including options) solely for the purpose of running Flas	
Self-Service Tutor for Applications	Tutor for Financials, Tutor for Projects, Tutor for Purchasing, Tutor for Order Management, Tutor for Oracle Manufacturing, Tutor for Human Resources, Tutor for Payroll, Tutor for Time Management, Tutor for Training Administration, Tutor Tool	
Exchange Marketplace		
Vertical Applications		
Communications/Utilities		
CRM, Financial Management		
Network Logistics (Network Asset Tracking)	Network Logistics - NATS	Revenue and Project Costing
Telco Provisioning		
Number Portability		
Public Sector/University		
Student System	Restricted Use: iPayment	
Financial Aid		Student System
Student Recruiting	Working and TeleSales	
Personal Portfolio		
Grants	Grants Accounting, Grants Proposal, Labor Distribution, Restricted use: Project Billing and Project Costing	
Financial Services		
Regulatory Capital Manager		
Performance Analyzer	Financial Data Manager	Oracle Database Enterprise Edition and Partitioning
Transfer Pricing	Financial Data Manager	Oracle Database Enterprise Edition and Partitioning
Transfer Pricing Colln		Transfer Pricing
Budgeting and Planning	Restricted use: Risk Manager, Financials & Sales Analyzers (Financial Analyzer functionality only), Financial Data Manager	Oracle Database Enterprise Edition, Express Series, Partitioning
Risk Manager	Financial Data Manager	Oracle Database Enterprise Edition and Partitioning
Financial Data Manager	Balance & Control, System Administrator, Portfolio Analyzer, Restricted Use (OS restricted to Oracle Warehouse Builder for use as the metadata repository and to map fields to placeholders in target instances. Other use must be extension of the schema, mapping other tables to the interface tables, creating and generating other target metadata)	Oracle Database Enterprise Edition and Partitioning
Financial Services Provisioning		
Lease Management	Human Resources (restricted use for setup of workflow users); inventory (restricted use for setup of inventory users)	Financials
Health Care		
Adverse Event Reporting System	Restricted Use: Thesaurus Management System, restricted to defining rules, synonyms, domains, or domain objects, and maintaining synonyms that have been predefined by Oracle	
Clinical		
Distributed Study Control	Restricted Use: Remote Data Capture (in In-house use)	Remote Data Capture for remote sites
Multinational Study		Clinical
Remote Data Capture	Restricted Use: Clinical	Clinical
Thesaurus Management System		
Clinical TrialMinder		
Clinical SiteFinder		Customer must enter license agreement with Oracle and Business Objects to acquire Cold Fusion & Crystal Reports, respectively.
Healthcare Transaction Base		Customer must enter license agreement with Oracle and Business Objects to acquire Cold Fusion & Crystal Reports, respectively.
High Tech		Oracle Database Enterprise Edition, AS Enterprise Edition
Shop Floor Management		
Supply Chain Trading Connector for RosettaNet		Oracle Manufacturing
Aerospace, Defense and Transportation		
Complex Maintenance, Repair & Overhaul		
EDUCATION SUBSCRIPTION		
Learning Subscription		

Product Migration Listings

When moving supported licenses from one operating system to another, the only cost associated with moving supported licenses from one operating system to another is the cost of the new CD Pack. If a CD Pack isn't available for a particular operating system, customers can contact Oracle Reliance to see what other the product is available on the desired operating system. Shipping and media charges may apply.

Term licensing available for all Oracle Products. The list price for a term license is based on a specific percentage of the perpetual license price. Annual term licenses are available from 1 to 5 years: 1 year - 20% off list; 2 year - 35% off list; 3 year - 50% off list; 4 year 60% off list and 5 year 70% off list. Support for all term licenses is 22% of net perpetual fee. Exception: support fees for the Collaboration Suite are 25% net perpetual license fees.

- ¹ If licensing by Named User Plus, the minimum is 10 Named User Plus licenses per Processor.
- ² Enterprise Edition Options & Enterprise Managers must match the number of licenses of the associated Oracle Database Enterprise Edition. In addition, a minimum of 25 Named User Plus licenses per Processor must be met. Associated Database is defined as the database(s) which is (are) being managed by this option.
- ³ Application Adapters are available for PeopleSoft, SAP, Siebel & JD Edwards.
- ⁴ Mainframe and TP-Monitor Adapters are available for CICS, IMS/DB, IMS/MT, VSAM, BeanConnectand Tuxedo.
- ⁵ Oracle Database Standard Edition can only be licensed on servers that have a maximum capacity of 4 single core processors. For multicore chips, the maximum number of cores per server is determined by multiplying the core processor licensing factors (as contained in the processor definition) by the number of cores. The result must be less than or equal to 4 and the total number of cores must be less than or equal to 8. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses.
Additionally, it may be licensed on a single cluster of servers supporting up to a maximum of four single-core processors per cluster (2 2-way nodes, 4 1-way nodes, and 1 1-way and 1 3-way). For multicore chips, the maximum number of cores per cluster is determined by multiplying the core processor licensing factors (as contained in the processor definition) by the number of cores. The result must be less than or equal to 4 and the total number of cores in the cluster must be less than or equal to 8.
- ⁶ 2, 3, 4 and 5-Year Term Licenses are not available for Collaboration products. Customers must purchase Software Updates when purchasing Product Support. On Demand for Collaboration products is optional for customers purchasing Collaboration product licenses. Customers must purchase Software Updates and Product Support when purchasing On Demand. E-Business Discount Schedule applies to License, Software Updates, and Product Support fees. On Demand Discount Schedule applies to On Demand for Collaboration products. On Demand for this product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oracle.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
- ⁷ If licensing by Named User Plus, the minimum is 25 Named User Plus licenses per Processor.
- ⁸ Personal Edition provides a maximum of one Named User Plus per database.
- ¹⁰ Oracle Standard Edition One may only be licensed on servers that have a maximum capacity of 2 single core processors. For multicore chips, the maximum number of cores per server is determined by multiplying the core processor licensing factors (as contained in the processor definition) by the number of cores. The result must be less than or equal to 2 and the total number of cores must be less than or equal to 4. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses.
- ¹¹ Internet Application Server Managers must match the number of licenses of the associated Internet Application Server (Excluding TopLink and Application Development Framework, for which these Manager Packs cannot be licensed). An associated Internet Application Server is defined as the Internet Application Server(s) which is (are) being managed by the option.
- ¹² Java Edition, Standard Edition One and Standard Edition Options must match the number of licenses of the associated Oracle Internet Application Server Edition. Associated Application Server is defined as the application server(s) which is (are) being managed by the option.
- ¹³ This product is on Controlled Availability and requires approval. Please refer to the Approval Matrix on <http://esource.oracle.com> for more information. If you are an Oracle partner, please contact your Oracle PRN Representative for additional information.
- ¹⁴ For the purpose of licensing Healthcare Transaction Base, only the processors on which IAS Enterprise Edition and this program are installed and/or running are counted for the purpose of determining the number of processors required to license this program. For the purpose of licensing Customer Data Hub, only the processors in which Oracle Database Enterprise Edition and this program are running in production are counted for the determining the number of licenses required to license this program.
- ¹⁵ Internet Application Server Enterprise Edition Options must match the number of licenses of the associated Internet Application Server. Associated Application Server is defined as the application server(s) which is (are) being managed by the option.
- ¹⁶ Internet Application Server Standard Edition One may only be licensed on servers that have a maximum capacity of 2 single core processors. For multicore chips, the maximum number of cores per server is determined by multiplying the core processor licensing factors (as contained in the processor definition) times the number of cores. The result must be less than or equal to 2 and the total number of cores must be less than or equal to 4. If licensing by Named User Plus, the minimum is 5 Named User Plus licenses.
- ²² Application Development Framework requires a runtime license. This can be purchased via TopLink and Application Development Framework or Java Edition.
- ²³ XML Publisher is also licensable via the per employee metric. The price is \$8,000 USA (Dollar) per employee when licensed as a standalone product and 30,000 USA (Dollar) per employee when licensed as an option to the Application Server Enterprise Edition.
- ²⁴ The Named User Plus Minimum does not apply if the program is installed on a one processor machine that allows for a maximum of one user per program.
- ²⁵ Plug-in available for BEA WebLogic, IBM WebSphere, Microsoft Active Directory, Microsoft .NET, Microsoft Internet Information Services (IIS), Microsoft ISA Server, Microsoft Commerce Server, Microsoft BizTalk Server.
- ²⁶ Plug-in available for F5 Load Balancers, Anipex NetScreen Firewall, Check Point Firewall.
- ²⁷ Plug-in available for NetApp Filers, EMC NS Series NAS.
- ²⁸ Connectors are not available at this time.
- ²⁹ The number of Options licenses must match the number of licenses of the parent product.
- ³⁰ If licensing by Named User Plus, the minimum is 25 Named User Plus licenses per Processor.
- ³¹ Rdb Server Options must match the number of licenses of the associated database.
- ³² TRACE may also be licensed with CODASYL DBMS.
- ³³ Oracle precompilers supported via SQL*Net for Rdb for use across Oracle & Rdb Servers.
- ³⁴ CODR Runtime is an unlimited use license for applications requiring CODR deployment licenses.
- ³⁵ Following is the list of available Identity Manager Connectors: Database User Management, Database Applications Table, Microsoft Active Directory, Oracle Internet Directory, Novell eDirectory, Sun Java System Directory, Oracle e-Business, PeopleSoft Enterprise Applications, SAP Enterprise Applications, Microsoft Exchange, Novell Groupwise, Microsoft Windows, UNIX, RSA Authentication Manager, RSA ClearTrust, IBM Lotus Notes/Domino, SAP Enterprise Portal, Siebel Enterprise Applications, IBM RACF, CA ACF2, CA Top Secret, BMC Remedy User Management.
- ³⁶ Plug-in available for IBM DB2, Microsoft SQL Server.
- ³⁷ Secure Enterprise Search may also be licensed on per employee metric. The minimums for employee licensing is 100 employee licenses. The price is \$30 USA Dollar per employee. When licensing by named user plus metric, the minimums are 100 Named User Plus licenses.
- ³⁸ The Business Intelligence Standard Edition One product is a fixed price bundle for \$25k. You are permitted to have a maximum of 50 users. For the purpose of licensing this product you are required to purchase 50 Named User Plus licenses, which is a fixed licensing requirement. The minimums cannot be waived. It is a 25k fixed price package. It may only be licensed on servers that have a maximum capacity of 2 single core processors. For multicore chips, the maximum number of cores per server is determined by multiplying the core processor licensing factors (as contained in the processor definition) by the number of cores. The result must be less than or equal to 2 and the total number of cores must be less than or equal to 4.
- ³⁹ The minimums for this product are 50 Named User Plus licenses. The number of options licenses must match the number of licenses of the associated Business Intelligence Server Enterprise Edition.
- ⁴⁰ Warehouse Builder Connectors are only licensable with Oracle Database Enterprise Edition, Warehouse Builder Connectors are available for, PeopleSoft, Oracle E-Business Suite, and SAP. The Connector licenses do not need to match to the Database Enterprise Edition licenses.
- ⁴¹ The Oracle Database Lite RDBMS also known as "Clients" are free of charge for licensing purposes.
