<p>Conclusion</p>	<ul style="list-style-type: none"> ▪ TomorrowNow is a strategic investment and serves as strategic weapon against Oracle: <ul style="list-style-type: none"> ▪ Take away maintenance revenue from Oracle ▪ Create pre-pipeline of future SAP customers ▪ TomorrowNow still operates at a loss in 2006 but Break-even is expected for 2008 after completion of globalization and business scoping in 2007 (in line with board assumption to become a profitable business within 2-3 years after acquisition)
