Fw: TomorrowNow Laptops

Hi Greg,

Am I to continue to pursue the T43 or do you want me to procure the T60. Jennifer Mrak is currently working with their vendors to get us quotes for the T43 & T60.

Best Regards,

FW: TomorrowNow Laptops

Greg,

We did not certify the T43 as it has no real gain over the T42's and instead are focused on the T60 as the replacement for the T42's. T42's are supported and avail today, T43 will cause you more issues, but since you support them and the image on your own it's your call, just not our std. FYI

Best Regards,

Mark Hulett

Hi Paul,

**The ORACLE license is urgently needed to support our PeopleSoft customers using this technology** and the laptops are intended for executive travel purposes and not as a standard for all TN staff.

I approve these items. Please assist as necessary so that we may continue the procurement cycle.

Thank you. - Greg

Hello Greg,

I want to update you with my progress for a couple of items I'm working on for you. I've come to a momentary standstill with procuring the ThinkPad T43 with integrated fingerprint reader. Paul Bigos has been kindly assisting me with getting the specifications and price quote for the T43, however, this turns out not to be a certified SAP standard issue.

The next matter deals with the acquisition of Oracle database licenses for environments where we develop our customer's deliverables. Specifically, we need to obtain Oracle Standard Edition for a 4 CPU machine running AIX and a 4 CPU machine running Windows. I've contacted Mr. Georg Schraeder and he forwarded the request to Mr. Jochen Scholten, however, I've not heard anything back since.

Please advise as to how I am to proceed to the above mentioned topics.

Thank you,

Hi Alex,

Apparently the T43 is not a certified SAP standard.

Regards,  
Paul

**Subject:** RE: T42, T43 or T60

Hello Paul,

Out of this mail I see that Mark is including the T43 in his consideration; please keep in mind that the T43 is still not certified an released for purchasing!

You can buy dedicated models as soon as they are appearing at the GCMIT site in SAP-Portal.  
There is the global overview about all certified and released models!  
If you are not sure about the status of a model that you want to buy please contact Andreas Glatz or me for clarification.

Normally it should not happen that somebody buys not certified hardware because the global material management allows only the use of global created material numbers. But in this case you are using generic material numbers like e.g. 49005790 (EUS Equipment - Taggable). Then we can't avoid the buying of not certified hardware...

Best regards,  
Uwe

Hi Paul,

Thank you very much for your prompt response. The specifications for each laptop mentioned below meets our requirements. I'd like to verify that the T43 (1871CTO) comes standard with the fingerprint reader/security chip. I will convey this information with my management team and I'll be in contact with you before I enter anything into EBP.

Best Regards,

Alex La Mar

**Subject:** Quotes for T43 & T60

Hi Jen,

Here is another high priority item for us. I'd like a quote for the following items listed below. I've attached a quote for each item from Lenovo's website.

Item: ThinkPad T43

Price on site: \$2066.40

QTY: 1

Quote from site:

Item: ThinkPad T60

Price on site: \$2222.20

QTY: 1

Quote from site:

Also, would it be possible to upgrade these to have 2GB of RAM or would it be better to just purchase the memory sticks separately?

Thank you,

**Alex La Mar**
