SARs Spreadsheet

Sure, I can still use what I have. But can you verify the columns haven't changed on the individual sheets.

System Code	SAR Number	Attachment	Total Count	Date
-------------	------------	------------	-------------	------

This is important for the import.
Thanks

SARs Spreadsheet

Tell you what if you can wait till tomorrow you will get everything up to this month.

Thanks

To Keith Shankle/TomorrowNow cc Subject SARs
Spreadsheet

Hi Keith,
Can you send me what you have for the spreadsheet. I need to import the data for testing, I don't care if it is not finished just what ever you have that is current. Thanks.
