ORAL AND VIDEOTAPED DEPOSITION OF  
TOMORROWNOW BY AND THROUGH SHELLEY NELSON  
VOLUME  
OCTOBER 30, 2007

ORAL AND VIDEOTAPED DEPOSITION OF SHELLEY NELSON, produced as a witness at the instance of the Plaintiffs and duly sworn, was taken in the above styled and numbered cause on October 30, 2007, from 3:44 p.m. to 5:14 p.m., before RENE WHITE MOAREFI, CSR, CRR, RPR in and for the State of Texas, reported by machine shorthand, at Jones Day, 717 Texas, Suite 3300 Houston, Texas, pursuant to the Federal Rules of Civil Procedure and the provisions stated on the record herein.

Q. Who's your current employer?

A. TomorrowNow.

Q. How long have you worked for TomorrowNow?

A. About four and a half years.

Q. What's your current position at TomorrowNow?

1 A. Vice president of global support services.

2 Q. Has that position -- has that title changed in  
3 the four and a half years you've worked there?

4 A. It has.

5 Q. What was it when you started?

6 A. Financial support engineer.

7 Q. How long were you the financial support  
8 engineer?

9 A. From May 8, 2003, when I started, to somewhere  
10 around the fall of 2003, not sure of exacts.

11 Q. And how did your title change in the fall of  
12 2003?

13 A. I became support manager.

14 Q. How long were you support manager?

15 A. Approximately one year.

16 Q. Until about the fall of 2004?

17 A. That sounds about right.

18 Q. What did your title become at that point?

19 A. Vice president, PeopleSoft support.

20 Q. All right. How long were you vice president of  
21 PeopleSoft support?

22 A. I still am. The title shrunk just to global  
23 support services just for ease of length of title.

24 Q. Are your job responsibilities as vice president  
25 of global support different than they were as vice

1 president of PeopleSoft support?

2 A. Yes.

3 Q. In what way?

4 A. I have global responsibilities versus -- for  
5 the PeopleSoft product versus just responsibilities for  
6 North America.

Q. Now, you're -- Ms. Nelson, you're testifying here today as the corporate representative for TomorrowNow; is that right?

A. Correct.

Q. And you understand that you've been designated by TomorrowNow as its corporate representative to testify on certain topics that are listed in the deposition notice that is marked as Plaintiffs' Exhibit 1 to the deposition?

A. Yes. I don't see it in front of me.

Q. Should -- should be in this stack right here at

1 the bottom.

2 MR. COWAN: Should be at the very bottom.

3 (BY MR. HOWARD) Are you familiar generally  
4 with what's been marked as Plaintiffs' Exhibit 1?

5 A. Yes.

6 Q. All right. And do you understand that you have  
7 been designated to testify in the topics listed in  
8 Exhibit 1 numbered 1, 3, 6, 9, and 12 through 15?

3 REPORTER'S CERTIFICATION  
4 DEPOSITION OF SHELLEY NELSON  
5 TAKEN OCTOBER 30, 2007

6 I, RENE WHITE MOAREFI, Certified Shorthand Reporter  
7 in and for the State of Texas, hereby certify to the  
8 following:

9 That the witness, SHELLEY NELSON, was duly sworn by  
10 the officer and that the transcript of the oral  
11 deposition is a true record of the testimony given by  
12 the witness;

13 That the deposition transcript was submitted on  
14 \_\_\_\_\_ to the witness or the attorney for the  
15 witness for examination, signature and return to Esquire  
16 Deposition Services, by \_\_\_\_\_;

17 I further certify that I am neither counsel for,  
18 related to, nor employed by any of the parties in the  
19 action in which this proceeding was taken, and further  
20 that I am not financially or otherwise interested in the  
21 outcome of the action.

22 Certified to by me this \_\_\_\_\_ day of  
23 \_\_\_\_\_, 2007. NOV 05 2007

"HIGHLY CONFIDENTIAL"

ORAL VIDEOTAPED DEPOSITION OF  
TOMORROWNOW BY AND THROUGH SHELLEY NELSON

VOLUME 2

DECEMBER 6, 2007

ORAL VIDEOTAPED DEPOSITION OF SHELLEY NELSON, produced as a witness at the instance of the Plaintiffs and duly sworn, was taken in the above-styled and numbered cause on the 6th day of December, 2007, from 9:10 a.m. to 3:53 p.m., before Dana Richardson, Certified Shorthand Reporter in and for the State of Texas, reported by computerized stenotype machine at the offices of Jones Day, 717 Texas, Suite 3300, Houston, Texas 77002, pursuant to the Federal Rules of Civil Procedure and the provisions stated on the record or attached hereto.

11:15:06 22  
11:15:11 23  
11:15:12 24  
11:15:37 25

Q. Now, in addition to case support, you also said that

11:15:41 1 the -- this master library would be used for retro -- retrofit

11:15:47 2 tax releases?

11:15:48 3 A. Correct.

11:15:48 4 Q. Could you describe that use of the master library?

11:15:52 5 A. Yes, yes. As a PeopleSoft payroll tax update fix was

11:16:02 6 posted for the 8SP1 release, it was downloaded into that

11:16:15 7 library using a Customer Connection ID from one of our

11:16:20 8 extended support clients who -- who received retrofit

11:16:24 9 services. The fix was then applied to the 8SP1 environment

11:16:35 10 that had been created for that customer, and then it was --

11:16:42 11 the -- the materials within that fix were used to retrofit

11:16:50 12 that code from that later release back to a 7.5 or a 7.0

11:16:58 13 release.

11:17:14 14 Q. Could you say, please, one more time the release --

11:17:16 15 the PeopleSoft payroll tax release that was used to create the

11:17:25 16 retrofit?

11:17:26 17 A. 8SP1.

11:17:28 18 Q. 8SP1. Which Customer Connection ID was used to

11:17:40 19 download that payroll tax update fix for -- for 8SP1?

11:17:50 20 A. Most commonly, I would expect it would be Bear

11:17:54 21 Sterns.

11:18:05 22 Q. Are you aware of others that were used for that

11:18:07 23 purpose?

11:18:08 24 A. Potentially Robert Half.

11:18:11 25 Q. Anybody else?

11:18:14 1 A. It -- it could have been any one of our extended  
11:18:17 2 support clients, but those are -- those are a couple that I --  
11:18:20 3 I know were used.

11:18:29 4 Q. Then I think you said that the -- the fix was applied  
11:18:34 5 to an environment after it was downloaded using those  
11:18:39 6 credentials?

11:18:40 7 A. Correct.

11:18:42 8 Q. Which environment was it applied to?

11:18:45 9 A. It was an environment that was named HR 8.10, and  
11:18:52 10 then the last characters would be reflective of the tax update  
11:18:57 11 release level.

11:19:07 12 Q. This was a single environment in which the retrofit  
11:19:12 13 updates were created?

11:19:14 14 A. It -- it was a single environment that was -- that  
11:19:17 15 was backed up at each tax update level. So, we had -- it  
11:19:24 16 ended up being multiple environments.

11:19:29 17 Q. How was that environment, the HR 8.10 environment, if  
11:19:35 18 I can call it that, understanding that it evolved over time,  
11:19:40 19 how was that environment created?

11:19:44 20 A. It was installed from CD.

11:19:49 21 Q. How were the CDs obtained?

11:19:50 22 A. From one of our 7.5 clients.

11:19:58 23 Q. Which client?

11:19:59 24 A. I'm not absolutely certain.

11:20:11 25

11:20:15 1  
11:20:20 2  
11:20:24 3  
11:20:30 4  
11:20:36 5  
11:20:38 6  
11:20:55 7  
11:21:03 8  
11:21:06 9  
11:21:07 10  
11:21:11 11  
11:21:13 12  
11:21:17 13  
11:21:21 14  
11:21:26 15  
11:21:32 16  
11:21:33 17  
11:21:36 18  
11:21:39 19  
11:21:44 20  
11:21:51 21  
11:21:55 22  
11:21:57 23  
11:22:01 24  
11:22:07 25

Q. Okay. So, from one of your extended support 7.5 clients, you obtained an 8SP1 CD that was used to create the -- what became the HR 8.10 environment?

11:22:10 1 A. A set of CDs, correct.

11:22:12 2 Q. A set of CDs.

11:22:21 3 That resulting HR 8.10 environment created from  
11:22:26 4 this set of CDs, then, was the environment that the 8SP1 fixes  
11:22:36 5 were applied to when they were downloaded primarily using the  
11:22:41 6 Bear Sterns ID?

11:22:42 7 A. Correct.

11:22:50 8 Q. Every time a new 8SP1 update was posted and  
11:22:55 9 downloaded, then I think you said that a -- essentially a new  
11:23:00 10 copy of the HR 8.10 environment would be created to reflect  
11:23:05 11 the addition of that new update?

11:23:08 12 A. The new payroll tax update bundle, yes.

11:23:25 13 Q. Then what would be done with -- what would be done  
11:23:27 14 after the new 8SP1 fix was applied to the HR 8.10 environment?

11:23:37 15 A. It would be -- the -- the code changes would be  
11:23:43 16 compared from the last payroll bundle that was delivered to  
11:23:49 17 that current bundle so that the delta was -- was clear, and  
11:23:56 18 then that delta would be -- if -- if the fix were applicable  
11:24:03 19 to the prior releases, they would be retrofitted into the  
11:24:09 20 prior code lines.

11:24:21 21 Q. How would that be done?

11:24:25 22 A. We use a tool called Araxis Merge, which is a file  
11:24:30 23 compare utility that allows you to compare three versions of  
11:24:34 24 files. So, we would launch one -- we would do a compare of  
11:24:41 25 the files one at a time -- they might be programs -- and

11:24:46 1 compare the before-8SP1 file with the after-8SP1 file and then  
11:24:54 2 bring up the equivalent in the 7.5 commercial release, so to  
11:24:59 3 speak; and that delta would then be developed into the 7.51  
11:25:06 4 release if it were applicable to that release. And the same  
11:25:11 5 thing would happen with the other releases that we were  
11:25:14 6 retrofitting back to.

11:25:23 7 Q. What specifically, then, would result from that  
11:25:26 8 comparison process in terms of a deliverable to a client?

11:25:34 9 A. A -- a directory structure similar to the update and  
11:25:39 10 fix structure that would have the programs that had been  
11:25:44 11 modified for that particular release, it would usually be a  
11:25:51 12 smaller subset of what had been delivered in 8SP1 because of  
11:25:55 13 release-specific differences; and the documentation for that  
11:26:00 14 release would also be retrofitted to reflect only what got  
11:26:06 15 packaged into that 7.5 or 7.5 commercial, 7.5 education and  
11:26:14 16 government, depending on what that release might be. So, a  
11:26:17 17 deliverable folder that -- that reflected a retrofit of 8SP1  
11:26:23 18 back to that release.

11:26:52 19 Q. Then that deliverable that you've just described, was  
11:26:55 20 that sent proactively to the TomorrowNow PeopleSoft 7.5  
11:27:04 21 clients?

11:27:06 22 A. Yes, if they still held maintenance with Oracle  
11:27:11 23 and if -- and had an active agreement with us for retrofit  
11:27:16 24 service.

11:27:25 25 Q. Are these the approximately 25 or maybe more clients

11:27:30 1 that we discussed at the end of your last deposition session?

11:27:33 2 A. Correct.

11:27:36 3

11:27:42 4

11:27:48 5

11:27:50 6

11:27:57 7

11:28:01 8

11:28:06 9

11:28:13 10

11:28:16 11

11:28:16 12

11:28:20 13

11:28:25 14

11:28:30 15

11:29:07 16

11:29:11 17

11:29:16 18

11:29:24 19

11:29:28 20

11:29:31 21

11:29:40 22

11:29:44 23

11:29:49 24

11:29:55 25

11:30:02 1

11:30:07 2

11:30:14 3

11:30:15 4

11:30:18 5

11:30:21 6

11:30:24 7

11:30:28 8

11:30:32 9

11:30:37 10

Q. Now, you said that the number of clients that would be receiving these retrofit tax updates would have differed by year?

11:30:41 11

11:30:46 12

11:30:47 13

A. Correct.

11:30:51 14

11:30:55 15

Q. What's the range beginning in 2002 and going through 2005? Do you have a sense of how many customers in those years were receiving the retrofit tax updates?

11:30:59 16

11:31:03 17

A. I have a sense. In -- in 2002, when we started our support -- and I'm going by history, I wasn't part of the organization -- we were supporting the 7.02 retired release. And, so, I understand that we had a 7.02 commercial customer; a 7.02 public sector customer, which is an entire different install; and a 7.02 student admin customer. So, these would be their own environments. And through the months, we may have gotten a couple of more 7.02 clients until they upgraded onto another release and went off our support.

SHELLEY NELSON December 6, 2007

HIGHLY CONFIDENTIAL

Page 133

11:31:54 1 In April of 2003, just before I joined, the  
11:32:01 2 7.51 commercial release retired. And, so, we got our first  
11:32:07 3 set of 7.51 commercial clients. I would say we probably had  
11:32:20 4 no more than 10 or 15 clients at that point on that release,  
11:32:24 5 but I'm not sure of exactly the numbers.

11:32:27 6 In, I believe, August of that year, maybe June,  
11:32:32 7 the 7.51 education and government release retired; and we got  
11:32:39 8 some -- a handful of, probably less than five, 7.51 education  
11:32:45 9 and government clients, which would have been a total new  
11:32:48 10 install. We may have actually just had one.

11:32:52 11 And then a year after the 7.51 commercial  
11:32:57 12 release retired -- was it PeopleSoft at that point in time?  
11:33:09 13 PeopleSoft had -- had stopped supporting -- they'd offered a  
11:33:15 14 one-year supplemental support program for that 7.51 commercial  
11:33:19 15 release. They stopped supporting those customers; and we  
11:33:23 16 got -- we got a lot of those customers, some of whom were  
11:33:26 17 referred by PeopleSoft to us. So, we had another jump in  
11:33:32 18 customers in April of 2004, maybe another five or ten. And  
11:33:42 19 sporadically throughout that period of time, a client may have  
11:33:47 20 joined late and we had to catch them up or something if they  
11:33:52 21 were kind of beyond the -- behind the 8 ball on recognizing  
11:33:56 22 that their release had retired.

11:34:03 23 Q. So, it sounds like you would have hit the 25 number  
11:34:08 24 sometime in late 2003 or early 2004?

11:34:12 25 A. Probably in April of 2004. And the numbers decreased

11:34:21 1 because some of the clients would upgrade and move off our  
11:34:24 2 support.

11:34:37 3 Q. You described different 7.51 releases. There's a  
11:34:41 4 commercial release, an education and government release.

11:34:45 5 Would it be the case that for each of those releases, there  
11:34:50 6 would be a -- an environment at TomorrowNow that was being  
11:34:57 7 used to create the retrofit fix in the way that you described?

11:35:01 8 A. Yes.

11:35:04 9 Q. So, how many, in total, environments from 2002 to  
11:35:11 10 2005 were used to create the retrofit fixes?

11:35:18 11 A. I believe the highest number of releases we were  
11:35:23 12 supporting were seven. And then you add the 8SP1 release,  
11:35:31 13 which was the -- the source.

11:35:43 14 Q. What are those seven releases that you've identified?

11:35:46 15 A. 7.02 commercial, 7.02 public sector, 7.02 student  
11:35:54 16 admin, 7.51 commercial, 7.51 education and government,  
11:36:08 17 7.51 student admin. Where is the seventh? It may have been  
11:36:38 18 that the release -- the seven releases was based on how many  
11:36:41 19 we were supporting once we started doing things from scratch.  
11:36:45 20 So, it sounds like that's five -- or six retrofit releases.

11:36:50 21 Q. Yeah, you've listed six --

11:36:51 22 A. Yes.

11:36:53 23 Q. -- in addition to the underlying 8SP1 release.

11:36:58 24 A. Correct.

11:36:59 25 Q. And then when -- at a certain point, you stopped

11:37:02 1 doing the retrofit process that you've described?

11:37:05 2 A. Correct.

11:37:06 3 Q. And you built your own -- TomorrowNow built its own  
11:37:12 4 tax update for these same releases?

11:37:15 5 A. Correct.

11:37:15 6 Q. And at that point, there was a seventh that was --  
11:37:19 7 that was supported as well?

11:37:22 8 A. We actually -- we never had to build our own for a  
11:37:30 9 couple of those 7.02 releases. Our clients moved on. But,  
11:37:34 10 yes, we continued to gain new releases.

11:37:36 11 Q. So, what was -- so -- but it sounds like in addition  
11:37:41 12 to the list you gave, there -- there is an additional release  
11:37:45 13 that -- that you supported after you stopped doing the  
11:37:48 14 retrofit and -- and started doing your own fixes.

11:37:53 15 A. There are additional releases, yes.

11:37:55 16 Q. More than -- more than the six that you've listed  
11:37:58 17 here?

11:37:59 18 A. Yes.

11:38:00 19 Q. Okay. So, for each of the six that you've just  
11:38:06 20 listed, there was an environment that was used to create the  
11:38:20 21 retrofit fixes?

11:38:22 22 A. Correct.

11:38:29 23 Q. Did those environments have names separate from the  
11:38:33 24 HR 8.10, or did they all begin with the HR 8.10 name?

11:38:42 25 A. Separate.

11:38:43 1 Q. Separate.

11:38:43 2 Do you remember the names of the environments  
11:38:45 3 that were used for each of these six releases?

11:38:49 4 A. I'll do my best.

11:38:51 5 Q. Okay.

11:38:52 6 A. We had an HR7.02; and then the last three digits  
11:38:56 7 would be, like, 02C for fiscal year '02, tax update C, for  
11:39:02 8 example. So, the first five -- the first five digits would be  
11:39:08 9 HR702, HS702 for student admin, HP702 for public sector,  
11:39:20 10 HR7.51 for 7.51 commercial, HG7.51 for education and  
11:39:30 11 government, H7.60 -- HR7.60 for student admin because it was a  
11:39:43 12 different release level.

11:39:48 13 Q. These environments that you've just identified, were  
11:39:51 14 they created in the same way that the HR 8.10 environment was  
11:39:56 15 created; that is, by obtaining a set of CDs from one of  
11:40:01 16 TomorrowNow's customers to create the environment in the first  
11:40:05 17 place?

11:40:05 18 A. Correct.

11:40:05 19 Q. And then was that resulting environment used in  
11:40:08 20 essentially the same way that you've described the HR 8.10  
11:40:14 21 environment was used, which is that you would download a fix  
11:40:16 22 using a customer's login credential and apply it to that  
11:40:21 23 environment?

11:40:23 24 A. Correct.

11:40:23 25 Q. And you would then use the Araxis tool to compare

11:40:27 1 that resulting updated environment to the prior environment to  
11:40:31 2 see what the changes were?

11:40:34 3 A. That was more for the 8 release, which was the source  
11:40:40 4 that we would compare back to the -- the target environment to  
11:40:46 5 do development.

11:40:48 6 Q. Then through that process, you would come up with a  
11:40:52 7 deliverable that would be sent out to the TomorrowNow  
11:40:55 8 customers who had these releases and that were on support?

11:41:00 9 A. Correct.
