Please read the following email trail. It contains a recipe for how to move forward
with PSFT plan. I recommend you connect your respective teams with John and we should
move on hiring the names he mentioned immediately!

Shai;

Thanks. The Jan 5th event is a good idea - Oracle and PSFT did similar events in 1994
when ASK was bought by CA.

Here are some answers to your questions below. If you need something from me, please
let me know. Regards, Johnz

1. I don't know much about TomorrowNow or their delivery capability. The founders seem
to be mostly ex-services people who did upgrades. The new VP of Sales worked for me
for a short while, but was marketing portal at that point in time. I cannot easily
check up on the Tnow guys without it being very obvious why I might be checking up on
them.

I thought TomorrowNow's niche was to ▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓
▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓. Ramping to support PSFT 8 and JDE products may be an
opportunistic move with Oracle taking over.

Look at volumes of fixes delivered, releases supported, etc. would be valuable
information and say a lot about how capable this company is. I am not sure where the
bulk of TomorrowNow's people are - looks like Texas with recent expansion in
Pleasanton. ▓▓▓ess
▓▓▓▓▓▓▓▓.

It is not entirely clear to me that the time to market advantage that TomorrowNow
offers. Or if this advantage is worth the dollars and effort of a acquisition. In
either the build mode or buy mode, integration with SAP's infrastructure is going to
be a big challenge. And there will definitely be a further ramp up, so managing ramp
up and integration at the same time is a double challenge.

If there is a capable person driving a ground up operation with no history to contend
with, it may be easier or at least have fewer moving parts to contend with. It really
depends on how strong TomorrowNow's process and people are ▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓▓
▓▓
diligence ▓▓▓▓▓▓▓▓▓▓▓ would make this clear pretty fast.

I am not sure how TomorrowNow gets access to Peoplesoft software, but its very likely
▓▓▓
them and these use rights could be terminated by Oracle. SAP working with a 3rd party
