Subject: OneWorld Download Change Assistant Client.doc

Attachments: OneWorld Download Change Assistant Client doc

I've combined the Change Assistant and One World Download document. Let me know if you have any comments on it.

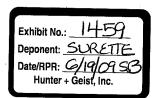

Thanks,

VIII) PeopleBook Documentation	15
IX) New Download Process for Electronic Delivery of Software Products	15

I) Signing on to Customer Connection

- 1) Sign on to the Customer Connection web site.
- 2) Select "Updates + Fixes" on the left portion of the screen.

3) Select "EnterpriseOne + World Update Center."

4) You will be at the Home page the first time you access the update center where Change Assistant can be downloaded.

OneWorld Download Customer Connection

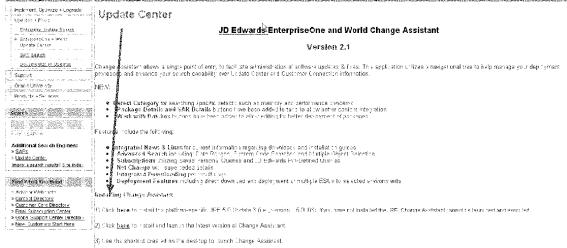

II) Change Assistant Overview

During the process of building OneWorld and World "fix" libraries we can make use of the Change Assistant utility created by Oracle for the purpose of downloading ESUs, Service Packs or Tools fixes, as well as the other software "fixes" available on the Oracle Update Center web site.

The Change Assistant application is available for download on the Oracle Customer Connect web site. The download is located on the opening page of the Update Center web site.

Hitting the above link will take you to the below page where you must first download the platform-specific Java JRE 5.0 Update 3 from Sun, then in step 2 you download the Change Assistant Application. Follow the prompts to complete the installation.

OneWorld Download Customer Connection

Once downloaded, Change Assistant will prompt you to enter your Oracle user ID and Password along with email address (Required) This is the same sign on for the Oracle Customer Connect web site as this application will actually log into Oracle to complete the process. You must have a valid working Oracle web site sign on to use the Change
