**Attachments:** ClientCDLog\_HRMS751\_LockheedMartin.doc

Hey guys -

Just wanted to FYI that our software CD request from Lockheed Martin was forwarded back up to the Lockheed Purchasing Group folks I worked with on the deal, who in turn forwarded the below email chain (including the TomorrowNow request for CD's note) to PeopleSoft, Inc. seeking legal permission to send the requested CD's to us.

PeopleSoft's Greg Stevenson then wrote me and asked me if they need to provide authorization. Greg Stevenson at PeopleSoft followed up a few minutes later by phone and he said he was going to let Lockheed Martin know that there was no issue with them sending us the CD's.

Please let me know if you get any indication on your end that PeopleSoft did not officially respond to them or there are continuing concerns or delays at Lockheed over the CD request.

Thanks,

S

Seth

Hope all is well.... Does the following email make sense... Why would we need to provide authorization?

Greg Stevenson

Greg,

Lockheed Martin has contacted the supplier you recommended for continued  
tax update support of version 7.5. In order for Lockheed Martin to engage  
TomorrowNow for continued support of V7.5 tax updates we need to have  
PeopleSoft's authorization to provide the CD's that they are requesting.

Please provide your concurrence and approval.

Thanks,

Terry Wagner

Steve-

During your Extended Support kickoff call today, Andrew Nelson mentioned  
that TomorrowNow's standard procedure is to get a copy of your PeopleSoft  
Demo software CD's in order to install a "demo support environment" at  
TomorrowNow on your behalf. We typically take temporary possession of the  
CD's while we build the environment, then return the CD's along with an  
Inventory Log showing all CD's received and returned. An additional option

is to setup VPN connectivity to your PeopleSoft environment. Attached, you'll find instructions and a sample list of CD's clients typically send.

Please send the CDs to our Headquarter's address:

Attn: Infrastructure Team  
TomorrowNow, Inc.  
3131 East 29th Street, Bldg E  
Bryan, Texas 77802

Please also send me the address where we should return the CD's, unless you prefer we keep the copy you send us. If you would like to setup VPN so we may access your environment while researching issues, please let me know and I will give you a call to discuss a VPN strategy.

Thank you -
