

EXHIBIT G

petsur (06:35:35 PM): he had a case open with us where we gave him 23, let me look
ashis5228 (06:38:06 PM): ok
ashis5228 (06:39:40 PM): ok PD now has a W environment..
petsur (06:40:01 PM): Roberto sent them SP23 on case 0913057702 but doesn't say what level
ashis5228 (06:40:19 PM): so let me install it once I get done with PD I will get you the details..
ashis5228 (06:40:49 PM): in the mean time, just for a quick peek or two you can use DCJDDEV02, just dont run anything on it yet..
petsur (06:41:20 PM): is that the deployment server/
petsur (06:41:22 PM): ?
ashis5228 (06:42:02 PM): yes
petsur (06:42:14 PM): how would I connect to that?
ashis5228 (06:42:53 PM): remote desktop
ashis5228 (06:43:10 PM): ur network id and pw..
petsur (06:43:47 PM): cool, i'm in
ashis5228 (06:43:56 PM): cool..
petsur (06:44:00 PM): it's dark in here
petsur (06:44:14 PM): it's prompting to reboot
ashis5228 (06:44:27 PM): na just do it later.. or actually hit it..
petsur (06:44:44 PM): ok
ashis5228 (06:45:02 PM): it installed some updates and wants to reboot, been prompting me for a couple of days now..
ashis5228 (06:45:21 PM): hopefully we can have this working by tomorrow and we can have what we need..
petsur (06:45:31 PM): cool
ashis5228 (06:45:52 PM): as for Joe's question, I think its good you sent this to Mark, the answer needs to be politically correct..
petsur (06:46:01 PM): yes it does
petsur (06:46:15 PM): I'll stand by his desk tomorrow until he replies
ashis5228 (06:48:44 PM): yeah want to hear that one, the answer is quite simple but the way we present it...we stay updated by signing newer clients and getting the updated information from them.. that is why I think having a static Praxair environment is not going to help us in the long run, we need to create new instances of the software with the latest patches that the client provides us.. that way we can stay current.. its sort of like hosting where we maintain separate instances for separate clients, not all but the major ones to get by this challenge.. I cant wait to set up a few 400 installs..
petsur (06:49:24 PM): we need an 8.9 or 8.10 install for us application folks
ashis5228 (06:49:34 PM): yeah definitely..
ashis5228 (06:50:20 PM): if you absolutely need to get access to something let me know.. I can get you access to one.. Currently Brijesh is using it.. just in case there is no way out let me know till we get 8.9 and 8.10 installed here..
petsur (06:50:51 PM): ok will do
petsur (06:51:08 PM): do you have one running in a shed behind the house?
ashis5228 (06:52:53 PM): :) yeah I have XE, ERP8, 8.10, 8.12 and 8.11 running with all ESUs applied to them, except for XE I think every single instance has all ESUs till last month applied to them..
petsur (06:53:13 PM): sweet !
petsur (06:53:24 PM): how many computers are they running on/

petsur (06:53:26 PM): ?

ashis5228 (06:53:54 PM): a couple of servers... I have the deployment and the databases on one server and the other one is the enterprise server..

petsur (06:54:23 PM): in a shed, over by the still, out in the woods, behind the house !!

ashis5228 (06:54:36 PM): :D Na its in the basement..

petsur (06:54:43 PM): the still ?

ashis5228 (06:55:00 PM): I mean the machines..

petsur (06:55:23 PM): where's the still then?

ashis5228 (06:55:41 PM): I dont know what you mean by Still..

petsur (06:55:59 PM): ok

petsur (06:56:34 PM): <http://www.happymountain.net/moonshine%20still.html>

petsur (06:56:38 PM): moonshine

ashis5228 (06:57:02 PM): I see what you mean..

petsur (06:57:27 PM): <http://www.milehidistilling.com/>

petsur (06:58:24 PM): mile high distilling is Bruce's side business

ashis5228 (06:58:34 PM): damn dude..

ashis5228 (06:59:21 PM): really or you are just messing with me.. I have to ask him to send some of the models my way :))

petsur (06:59:44 PM): nuh, just kidding !

petsur (06:59:52 PM): maybe we should suggest this to him

petsur (07:00:04 PM): speaking of bruce

petsur (07:00:10 PM): tomorrow, want to do the netsend??

ashis5228 (07:00:19 PM): oh yeah!!

ashis5228 (07:00:42 PM): I want to freak him out, lets do it..

petsur (07:00:51 PM): ok, i'll remind you

petsur (07:00:59 PM): well, I need to go make some salsa

ashis5228 (07:01:23 PM): yeah please do, I will make it sound like he is getting a notice from HR and want to see how soon he gets to Mark's desk..

ashis5228 (07:01:33 PM): alright, catch you later..

petsur (07:01:38 PM): ok later
