PROPOUNDING PARTY: Defendant TomorrowNow, Inc.
RESPONDING PARTY: Plaintiffs Oracle USA, Inc., Oracle International Corp., and Oracle EMEA Ltd., and Siebel Systems, Inc.
SET NUMBER: One

Pursuant to Federal Rule of Civil Procedure 26(e) and 33 and the Court’s June 26, 2009 Order, Plaintiffs Oracle USA, Inc., Oracle International Corp., Oracle EMEA Ltd., and Siebel Systems, Inc. (collectively, “Oracle”) hereby further amend and supplement their responses and objections to Interrogatory No. 13 in Defendant TomorrowNow, Inc.’s (“SAP TN”) First Set of Interrogatories with respect to Oracle’s Database software product line, pursuant to the pending database discovery agreement between the parties.

GENERAL OBJECTIONS

1. The following General Objections are incorporated into the specific Response below as if fully repeated in that Response. Any failure to repeat all or any part of these General Objections in the Response shall not constitute a waiver or relinquishment of such objections.
2. Oracle’s Response to this Interrogatory shall be without prejudice to, and shall preserve, any objections that it may have to the competence, relevance, materiality, or admissibility of any of the Interrogatories, the Responses, and their subject matter at any hearing or trial in this action.
3. Oracle objects to the Interrogatory to the extent it purports to obligate Oracle to respond in any manner that exceeds or is inconsistent with the requirements of the Federal Rules of Civil Procedure or any other applicable laws. Oracle shall respond to the Interrogatory to the extent and in the manner required by the Rules.
4. Oracle objects to the Interrogatory to the extent that SAP AG, SAP America, Inc., or SAP TN (collectively, “Defendants”) seek information that is not within Oracle’s possession, custody, or control, including without limitation information that is in the

1 possession of Oracle's or Defendants' customers. Oracle will respond to the Interrogatory based
2 only on information in its own possession, custody, or control, as required by the Federal Rules
3 of Civil Procedure.

4 5. Oracle objects to the Interrogatory to the extent it seeks disclosure of
5 information protected from discovery by the attorney-client, common interest, work product,
6 witness statement, and/or party communications privileges, the privileges and exemptions from
7 discovery afforded to materials prepared in anticipation of litigation or in preparation for trial,
8 and all other applicable privileges. Oracle does not intend to disclose such protected
9 information.

10 6. Oracle's investigation into the facts of the case is ongoing. These
11 Responses are made based on Oracle's knowledge to date. Oracle reserves the right to
12 supplement these Responses and will amend these Responses as required at an appropriate time
13 pursuant to Federal Rule of Civil Procedure 26(e). Oracle further objects to the need for further
14 supplementation of these responses to the extent the additional or corrective information has
15 otherwise been made known to the other parties during the discovery process or in writing,
16 pursuant to Federal Rule of Civil Procedure 26(e). Oracle is not required to summarize and/or
17 synthesize every fact disclosed in discovery in these responses. These responses are without
18 waiver to Oracle's ability to rely on additional and different facts at trial.

19 7. Oracle objects to the Interrogatory on the grounds that it is vague,
20 ambiguous and overbroad to the extent it seeks information regarding registrations not
21 specifically listed in Oracle's currently operative Complaint.

22 8. Oracle objects that the interrogatories as written do not refer to the
23 operative Fourth Amended Complaint, nor to the narrative, paragraph numbers, claims and
24 products specified in that Complaint. Because Defendants did not edit the interrogatories to
25 match the new claims, Oracle has itself, wherever possible, interpreted the interrogatories such
26 that they are comprehensible in light of the Fourth Amended Complaint.

27 **OBJECTIONS TO INSTRUCTIONS**

28 1. Oracle objects to the time period set by Instruction 3, which is "January 1,

1 2003 through the date of response, or, if the response is supplemented or amended, the date of
2 the supplement or amendment,” as overbroad and unduly burdensome to the extent that it
3 imposes a burden or obligations different from or additional to the agreement the parties have
4 reached regarding production of information before 2004 and after the filing of the litigation.

5 **RESPONSES AND OBJECTIONS TO FIRST SET OF INTERROGATORIES**

6 **INTERROGATORY NO. 13:**

7 For each federal copyright registration listed in paragraph 99 of the Complaint, identify
8 by title, version number, file name, or other applicable identifying information all software,
9 including updates, patches and fixes, service packs, Software and Support Materials, and any
10 other materials allegedly covered by the registration, as alleged in paragraph 100 of the
11 Complaint.

12 **RESPONSE TO INTERROGATORY NO. 13:**

13 In addition to its General Objections, Oracle further objects to the extent the Interrogatory
14 purports to require Oracle to create a compilation, abstract, or summary from business records
15 that Oracle has already produced or will produce.

16 Subject to and without waiver of these objections, Oracle responds as follows:

17 The identifying information for the materials referenced as registered in paragraph 99 of
18 the First Amended Complaint are reflected in the copyright registration notices, the copyright
19 registration applications and the related deposit materials for each copyright registration
20 application, and therefore, pursuant to Fed. R. Civ. Proc. Rule 33(d), Oracle refers defendants to
21 those documents in Oracle’s production. Further, Oracle responds that, except with respect to
22 certain knowledge solutions, without limitation (1) registrations TX 6-541-033, TXu1-345-109,
23 TX 6-541-051 and TX 6-541-048 cover all Software and Support Materials related to J.D.
24 Edwards EnterpriseOne XE available as of the date of the registration; (2) registrations TX 6-
25 541-050, TXu1-345-111, TX 6-541-046 and TX 6-541-034 cover all Software and Support
26 Materials related to J.D. Edwards EnterpriseOne 8.0 available as of the date of the registration;
27 (3) registrations TX 6-541-049, TXu1-345-112, and TX 6-541-036 cover all Software and
28 Support Materials related to J.D. Edwards EnterpriseOne 8.9 available as of the date of the

1 registration; (4) registrations TX 6-541-038, TXu1-345-113, TX 6-541-037 and TX 6-541-032
2 cover all Software and Support Materials related to J.D. Edwards EnterpriseOne 8.10 available
3 as of the date of the registration; (5) registrations TX 6-541-028, TXu1-345-114, and TX 6-541-
4 035 cover all Software and Support Materials related to J.D. Edwards EnterpriseOne 8.11
5 available as of the date of the registration; (6) registrations TX 6-541-040, TXu1-345-115, TX 6-
6 541-027 and TX 6-541-039 cover all Software and Support Materials related to J.D. Edwards
7 EnterpriseOne 8.11 SP1 available as of the date of the registration; (7) registrations TX 6-541-
8 041, TXu1-346-350, TX 6-541-045 and TX 6-541-042 cover all Software and Support Materials
9 related to J.D. Edwards EnterpriseOne 8.12 available as of the date of the registration; (8)
10 registrations TX 6-541-029, TXu1-345-110, TX 6-541-043 and TX 6-541-031 cover all Software
11 and Support Materials related to J.D. Edwards World A7.3 available as of the date of the
12 registration; (9) registrations TX 6-541-047, TX 6-545-422, TX 6-541-044 and TX 6-545-421
13 cover all Software and Support Materials related to J.D. Edwards World A8.1 available as of the
14 date of the registration; (10) registration TX 6-541-030 covers all Software and Support
15 Materials related to J.D. Edwards World A9.1 available as of the date of the registration; and,
16 (11) registrations TX 6-541-020, TX 6-541-023, TX 6-541-026, TX 6-541-024, TX 6-541-025,
17 TX 6-541-022, TX 6-541-021, TX 6-541-019 and TX 6-541-018 cover the specific PeopleSoft or
18 J.D. Edwards Software and Support Material described in those copyright registrations,
19 copyright applications and the related deposit materials.

20 Oracle's investigation into defendants' theft and misuse of its copyrighted Software and
21 Support Materials is ongoing, and Oracle will amend and/or supplement its response to this
22 Interrogatory with further information as that investigation continues.

23 **AMENDED RESPONSE TO INTERROGATORY NO. 13:**

24 In addition to its General Objections, Oracle further objects to the extent the Interrogatory
25 purports to require Oracle to create a compilation, abstract, or summary from business records
26 that Oracle has already produced or will produce.

27 Subject to and without waiver of these objections, Oracle responds as follows:

28 The identifying information for the materials referenced as registered in paragraph 99 of

1 the First Amended Complaint are reflected in the copyright registration notices, the copyright
2 registration applications and the related deposit materials for each copyright registration
3 application, and therefore, pursuant to Fed. R. Civ. Proc. Rule 33(d), Oracle refers defendants to
4 those documents in Oracle's production. Further, Oracle responds that, except with respect to
5 certain knowledge solutions, without limitation (1) registrations TX 6-541-033, TXu1-345-109,
6 TX 6-541-051 and TX 6-541-048 cover all Software and Support Materials related to J.D.
7 Edwards EnterpriseOne XE available as of the date of the registration; (2) registrations TX 6-
8 541-050, TXu1-345-111, TX 6-541-046 and TX 6-541-034 cover all Software and Support
9 Materials related to J.D. Edwards EnterpriseOne 8.0 available as of the date of the registration;
10 (3) registrations TX 6-541-049, TXu1-345-112, and TX 6-541-036 cover all Software and
11 Support Materials related to J.D. Edwards EnterpriseOne 8.9 available as of the date of the
12 registration; (4) registrations TX 6-541-038, TXu1-345-113, TX 6-541-037 and TX 6-541-032
13 cover all Software and Support Materials related to J.D. Edwards EnterpriseOne 8.10 available
14 as of the date of the registration; (5) registrations TX 6-541-028, TXu1-345-114, and TX 6-541-
15 035 cover all Software and Support Materials related to J.D. Edwards EnterpriseOne 8.11
16 available as of the date of the registration; (6) registrations TX 6-541-040, TXu1-345-115, TX 6-
17 541-027 and TX 6-541-039 cover all Software and Support Materials related to J.D. Edwards
18 EnterpriseOne 8.11 SP1 available as of the date of the registration; (7) registrations TX 6-541-
19 041, TXu1-346-350, TX 6-541-045 and TX 6-541-042 cover all Software and Support Materials
20 related to J.D. Edwards EnterpriseOne 8.12 available as of the date of the registration; (8)
21 registrations TX 6-541-029, TXu1-345-110, TX 6-541-043 and TX 6-541-031 cover all Software
22 and Support Materials related to J.D. Edwards World A7.3 available as of the date of the
23 registration; (9) registrations TX 6-541-047, TX 6-545-422, TX 6-541-044 and TX 6-545-421
24 cover all Software and Support Materials related to J.D. Edwards World A8.1 available as of the
25 date of the registration; (10) registration TX 6-541-030 covers all Software and Support
26 Materials related to J.D. Edwards World A9.1 available as of the date of the registration; and,
27 (11) registrations TX 6-541-020, TX 6-541-023, TX 6-541-026, TX 6-541-024, TX 6-541-025,
28 TX 6-541-022, TX 6-541-021, TX 6-541-019 and TX 6-541-018 cover the specific PeopleSoft or

1 J.D. Edwards Software and Support Material described in those copyright registrations,
2 copyright applications and the related deposit materials. Oracle notes that the deposit materials
3 are designated as Confidential Information pursuant to the Stipulated Protective Order in this
4 action.

5 Oracle's investigation into defendants' theft and misuse of its copyrighted Software and
6 Support Materials is ongoing, and Oracle will amend and/or supplement its response to this
7 Interrogatory with further information as that investigation continues.

8 **SECOND AMENDED RESPONSE TO INTERROGATORY NO. 13:**

9 In addition to its General Objections, which Oracle incorporates here by reference, Oracle
10 further objects to the extent the Interrogatory purports to require Oracle to create a compilation,
11 abstract, or summary from business records that Oracle has already produced or will produce.
12 Oracle further objects that its investigation into the circumstances related to Defendants'
13 copyright infringement is not yet complete. Oracle further objects to the extent that this
14 Interrogatory calls for information protected by the attorney-client or work product privileges.

15 Subject to and without waiver of these objections, and interpreting the reference to
16 "paragraph 99 of the Complaint" in the Interrogatory as a reference to paragraphs 148 and 150 of
17 the Second Amended Complaint, and interpreting the reference to "paragraph 100 of the
18 Complaint" in the Interrogatory as a reference to paragraph 149 of the Second Amended
19 Complaint, Oracle responds as follows:

20 The identifying information for the materials referenced as registered in paragraphs 148
21 and 150 of the Second Amended Complaint is reflected in the copyright registration notices, the
22 copyright registration applications and the related deposit materials for each copyright
23 registration application, and therefore, pursuant to Fed. R. Civ. Proc. Rule 33(d), Oracle refers
24 Defendants to those documents in Oracle's production. Further, identifying information for the
25 Software and Support Materials referenced as being covered by the registrations in paragraphs
26 148 and 150 of the Second Amended Complaint is reflected in the PeopleSoft and/or J.D.
27 Edwards database materials produced by Oracle, or in the process of being produced by Oracle,
28 and therefore, pursuant to Fed. R. Civ. Proc. Rule 33(d), Oracle refers Defendants to those

1 materials in Oracle's production. Further, identifying information for the software applications
2 referenced as being covered by the registrations in paragraphs 148 and 150 of the Second
3 Amended Complaint is reflected in the PeopleSoft and/or J.D. Edwards software materials
4 produced by Oracle, or in the process of being produced by Oracle, and therefore, pursuant to
5 Fed. R. Civ. Proc. Rule 33(d), Oracle refers Defendants to those materials in Oracle's
6 production.

7 Further, Oracle responds that, except with respect to certain knowledge solutions, without
8 limitation: (1) registrations TX 6-541-033, TXu1-345-109, TX 6-541-051 and TX 6-541-048
9 cover all Software and Support Materials related to J.D. Edwards EnterpriseOne XE available as
10 of the date of the registration; (2) registrations TX 6-541-050, TXu1-345-111, TX 6-541-046 and
11 TX 6-541-034 cover all Software and Support Materials related to J.D. Edwards EnterpriseOne
12 8.0 available as of the date of the registration; (3) registrations TX 6-541-049, TXu1-345-112,
13 and TX 6-541-036 cover all Software and Support Materials related to J.D. Edwards
14 EnterpriseOne 8.9 available as of the date of the registration; (4) registrations TX 6-541-038,
15 TXu1-345-113, TX 6-541-037 and TX 6-541-032 cover all Software and Support Materials
16 related to J.D. Edwards EnterpriseOne 8.10 available as of the date of the registration; (5)
17 registrations TX 6-541-028, TXu1-345-114, and TX 6-541-035 cover all Software and Support
18 Materials related to J.D. Edwards EnterpriseOne 8.11 available as of the date of the registration;
19 (6) registrations TX 6-541-040, TXu1-345-115, TX 6-541-027 and TX 6-541-039 cover all
20 Software and Support Materials related to J.D. Edwards EnterpriseOne 8.11 SP1 available as of
21 the date of the registration; (7) registrations TX 6-541-041, TXu1-346-350, TX 6-541-045 and
22 TX 6-541-042 cover all Software and Support Materials related to J.D. Edwards EnterpriseOne
23 8.12 available as of the date of the registration; (8) registrations TX 6-541-029, TXu1-345-110,
24 TX 6-541-043 and TX 6-541-031 cover all Software and Support Materials related to J.D.
25 Edwards World A7.3 available as of the date of the registration; (9) registrations TX 6-541-047,
26 TX 6-545-422, TX 6-541-044 and TX 6-545-421 cover all Software and Support Materials
27 related to J.D. Edwards World A8.1 available as of the date of the registration; (10) registration
28 TX 6-541-030 covers all Software and Support Materials related to J.D. Edwards World A9.1

1 available as of the date of the registration; (11) registrations TX 4-792-578, TX 5-266-222, TX
2 5-266-221 and TX 5-586-248 cover all Software and Support Materials in which the specific
3 versions of PeopleTools described in those copyright registrations, copyright applications and the
4 related deposit materials are wholly or partially incorporated; (12) registrations TX 4-792-577,
5 TX 4-792-575, TX 5-291-440, TX 5-469-032, TX 5-501-312 and TX 6-093-947 cover all
6 Software and Support Materials in which the specific versions of PeopleSoft HRMS described in
7 those copyright registrations, copyright applications and the related deposit materials are wholly
8 or partially incorporated; (13) registrations TX 5-456-777 and TX 6-015-317 cover all Software
9 and Support Materials in which the specific versions of PeopleSoft Customer Relationship
10 Management described in those copyright registrations, copyright applications and the related
11 deposit materials are wholly or partially incorporated; (14) registrations TX 4-792-574, TX 5-
12 456-780 and TX 5-586-247 cover all Software and Support Materials in which the specific
13 versions of PeopleSoft Financials (later called Financials, Distribution & Manufacturing, and
14 Financials and Supply Chain Management) described in those copyright registrations, copyright
15 applications and the related deposit materials are wholly or partially incorporated; (15)
16 registration TX 5-431-289 covers all Software and Support Materials in which PeopleSoft 8
17 Student Administration Solutions is wholly or partially incorporated; (16) TX 5-993-616 covers
18 all Software and Support Materials in which PeopleSoft 8.8 Enterprise Performance
19 Management is wholly or partially incorporated; and, (17) registrations TX 6-541-020, TX 6-
20 541-023, TX 6-541-026, TX 6-541-024, TX 6-541-025, TX 6-541-022, TX 6-541-021, TX 6-
21 541-019, TX 6-541-018, TX 6-838-537, TX 6-838-544, and TX 6-838-549 cover the specific
22 PeopleSoft or J.D. Edwards Software and Support Material described in those copyright
23 registrations, copyright applications and the related deposit materials.

24 In addition, Oracle responds that, without limitation: (18) registrations TXu 619-303,
25 TXu 619-304, TXu 619-305, TXu 619-306, TXu 619-307, TXu 619-308, TXu 619-309, TXu
26 619-310, TXu 619-311, TXu 619-312, TXu 619-313, TXu 619-314, TXu 619-315, TXu 619-
27 316, TXu 619-317, TXu 619-318, TXu 619-319, TXu 619-320, and TXu 619-321 cover all J.D.
28 Edwards software applications, in part; (19) registrations TX 6-541-033 and TXu1-345-109

1 cover all J.D. Edwards EnterpriseOne XE software applications and subsequent versions, in part;

27 Management, in part; (32) registrations TX 4-792-574, TX 5-456-780 and TX 5-586-247 cover
28 the specific versions of PeopleSoft Financials (later called Financials, Distribution &

1 Manufacturing, and Financials and Supply Chain Management) described in those copyright
2 registrations, copyright applications and the related deposit materials, as well as subsequent
3 versions of PeopleSoft Financials, in part; (33) registration TX 5-431-289 covers PeopleSoft 8
4 Student Administration Solutions, as well as subsequent versions of PeopleSoft Student
5 Administration Solutions, in part; (34) TX 5-993-616 covers PeopleSoft 8.8 Enterprise
6 Performance Management, as well as subsequent versions of PeopleSoft Enterprise Performance
7 Management, in part.

8 Oracle notes that the deposit materials are designated as Confidential Information
9 pursuant to the Stipulated Protective Order in this action.

10 Oracle's investigation into Defendants' theft and misuse of its copyrighted software
11 applications and Software and Support Materials is ongoing, and Oracle will amend and/or
12 supplement its response to this Interrogatory with further information as that investigation
13 continues.

14 **FIRST SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 13:**

15 Pursuant to the Parties' extensive meet and confer regarding supplementation of
16 Interrogatory No. 13 as a means of providing information sought by 30(b)(6) deposition of
17 Oracle International Corporation, and further reserving Oracle's rights and objections with
18 respect to Interrogatory No. 13, Oracle supplements its response to Interrogatory No. 13 as
19 follows.

20 Oracle expressly incorporates its prior responses to Interrogatory No. 13, including its
21 original, first amended and second amended responses, and the foregoing objections, as if set
22 forth in full here. In addition, subject to and without waiver of Oracle's Specific and General
23 Objections, and interpreting the reference to "paragraph 99 of the Complaint" in the
24 Interrogatory as a reference to paragraphs 153 and 155 of the Third Amended Complaint, and
25 interpreting the reference to "paragraph 100 of the Complaint" in the Interrogatory as a reference
26 to paragraph 154 of the Third Amended Complaint, Oracle further responds as follows:

Despite a diligent search, Oracle has thus far been unable to locate sufficient information to be able to provide more than what it believes is a partial list of modules with respect to PeopleSoft 8 Customer Relationship Management, TX-5-456-777, and which it has provided

1 above. Further, despite a diligent search, Oracle has thus far been unable to locate sufficient
 2 information to provide a description for a few modules related to certain JDE software releases
 3 above. Oracle will continue to investigate those software releases and modules and will further
 4 supplement this response with additional information to the extent that it can locate the
 5 information without further unduly burdensome efforts.

6 Further specific information regarding Oracle’s PeopleSoft and JDE-branded software
 7 releases, including the changes between versions, about which the Parties have met and
 8 conferred extensively in relation to Defendants’ 30(b)(6) deposition notice to Oracle
 9 International Corporation, is contained in release notes, software and documentation related to
 10 each specific software release. Accordingly, Oracle refers Defendants to those documents and
 11 related media in its production pursuant to Fed. R. Civ. Proc. Rule 33(d), and specifically, bates-
 12 numbers ORCL00243899 through ORCL00264056.

13 **THIRD AMENDED AND SECOND SUPPLEMENTAL RESPONSE TO**
 14 **INTERROGATORY NO. 13:**

15 Oracle further objects to the extent that supplementation would require Oracle to
 16 summarize the documents and testimony provided on this subject; Oracle cannot and will not and
 17 is not required to do so and incorporates all such evidence by reference into this supplemented
 18 answer. Subject to and without waiver of all of the foregoing general and specific objections,
 19 Oracle further responds as follows:

20 Registration TX 6-541-029 additionally covers all J.D. Edwards EnterpriseOne XE
 21 software applications and subsequent versions, in part.

22 Further, Oracle understands that the following copyrighted PeopleSoft software products,
 23 described in Oracle’s Third Amended Complaint, contain at least the following listed modules:

24 Oracle further responds that to the extent that a description for any module was not
 25 included in the above module-specific responses for each Registered Work, that information may
 26 be located in the Release Notes produced in this action including at ORCL00243899 through
 27 ORCL00264056, the Customer Connection and/or C1 databases, produced in this action at
 28

1 ORCL00313462-3 and ORCL0485842, the software CDs and other productions for the
2 Registered Works themselves, including as reflected in Exhibit A attached hereto, as well as the
3 voluminous information contained in Defendants’ production, including Defendants’ servers and
4 software repositories. Accordingly, Oracle refers Defendants to those documents, data, and
5 software pursuant to Federal Rule of Civil Procedure 33(d).

6 **THIRD SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 13:**

7 Oracle expressly incorporates its prior responses to Interrogatory No. 13, including its
8 original, first amended, second amended, first supplemental, second supplemental, and third
9 amended and second supplemental responses, and the foregoing objections, as if set forth in full
10 here. Oracle further objects to the extent the Interrogatory purports to require Oracle to create a
11 compilation, abstract, or summary from business records that Oracle has already produced or
12 will produce. In addition, subject to and without waiver of Oracle’s Specific and General
13 Objections, and interpreting the reference to “paragraph 99 of the Complaint” in the
14 Interrogatory as a reference to paragraphs 158 and 160 of the Fourth Amended Complaint, and
15 interpreting the reference to “paragraph 100 of the Complaint” in the Interrogatory as a reference
16 to paragraph 159 of the Fourth Amended Complaint, Oracle further responds as follows:

17 As to the Siebel product line specifically, the identifying information for the materials
18 referenced as registered in paragraph 158 and 160 of the Fourth Amended Complaint are
19 reflected in the copyright registration notices, the related deposit materials for each copyright
20 registration, and the production of software that embodies each registration, and therefore,
21 pursuant to Fed. R. Civ. Proc. Rule 33(d), Oracle refers Defendants to those documents and
22 software in Oracle’s production, including those produced concurrently with this supplemental
23 response. Further, Oracle responds that (1) registrations TX 6-941-989, TX 6-941-988, TX 6-
24 941-990, TX 6-941-993, TX 6-941-995, TX 6-942-000 and TX 6-942-001 cover all Software
25 and Support Materials in which the specific versions of Siebel application software described in
26 those copyright registrations and the related deposit materials are wholly or partially
27 incorporated; (2) registrations TX 6-941-989, TX 6-941-988, TX 6-941-990, TX 6-941-993, TX
28 6-941-995, TX 6-942-000 and TX 6-942-001 cover the specific versions of Siebel application

1 software described in those copyright registrations, the related deposit materials, and the
2 embodying software itself, as well as subsequent versions of Siebel application software, in part.

3 **FOURTH AMENDED AND SUPPLEMENTAL RESPONSE TO INTERROGATORY**

4 **NO. 13:**

5 Oracle expressly incorporates its prior responses to Interrogatory No. 13, including its
6 original, first amended, second amended, first supplemental, second supplemental, and third
7 amended and second supplemental responses, third supplemental responses, and the foregoing
8 objections, as if set forth in full here. Oracle further objects to the extent the Interrogatory
9 purports to require Oracle to create a compilation, abstract, or summary from business records
10 that Oracle has already produced or will produce. In addition, subject to and without waiver of
11 Oracle's Specific and General Objections, and interpreting the reference to "paragraph 99 of the
12 Complaint" in the Interrogatory as a reference to paragraphs 158 and 160 of the Fourth Amended
13 Complaint, and interpreting the reference to "paragraph 100 of the Complaint" in the
14 Interrogatory as a reference to paragraph 159 of the Fourth Amended Complaint, Oracle further
15 responds as follows:

16 **World Software:**

17 As to the J.D. Edwards World Software family of software products, prior to Release
18 A5.2 in 1992, the World family of software products for the AS/400 system included the
19 following prior versions, upon which A5.2 was in part based, A5.1, A4.3, A4.2, A4.1, A3.1,
20 A2.2, and A2.1. These legacy versions were introduced up to two decades ago, but nevertheless,
21 Oracle has produced release notes describing the functionality of these historical software
22 versions and the changes between releases, and therefore, pursuant to Federal Rule of Civil
23 Procedure 33(d), Oracle refers to those release notes in its production, including at
24 ORCL00537587 to 540039. More specifically, those release notes describe enhancements,
25 changes and additions to the legacy versions, as follows: ORCL00537587-647 (legacy versions
26 including A2.1 and A.2.2), ORCL00537648-769 (legacy versions up to version A3.1),
27 ORCL00537771-888 (legacy versions up to version A4.1), ORCL00537889-8021 (legacy
28 versions up to version A4.2), ORCL00538022-170 (legacy versions up to version A4.3),

1 ORCL00538171-588 (legacy versions up to version A5.1), ORCL00538589-983 (legacy
 2 versions up to version A5.2 and planned release of A6.1), ORCL00538984-9321 (legacy
 3 versions up to A6.1), ORCL00539332-540024 (legacy versions up to A7.1 and planned release
 4 of A7.2), ORCL005400025-39 (legacy versions up to A7.3).

5 Oracle also refers Defendants under FRCP 33(d) to its production of release notes
 6 discussion the modules, enhancements, changes and additions to its World software products,
 7 including from versions A7.3 to A9.1 (which were also in part based on the prior versions
 8 described above and below), including from ORCL00243899 through ORCL00264056.

9 Further, following a reasonable search, Oracle understands that the legacy World
 10 software versions A5.2 to A7.2 contain at least the following listed modules and related
 11 identifying information:

12 World Software A5.2

16 **J.D. Edwards OneWorld/EnterpriseOne:**

17 As to the J.D. Edwards OneWorld/EnterpriseOne family of software products, Oracle

18 further states that the initial OneWorld/EnterpriseOne software was developed based on World

19 software and as a co-existent product with its World software, *i.e.* customers could run both

20 World and OneWorld products at the same time sharing the same database, which would interact

21 together to support a customer's business. Other than the Accounts Receivable module being

22 rewritten in 1996 specifically for OneWorld/EnterpriseOne, the OneWorld/EnterpriseOne

23 worked co-existent with World until the ERP 8.0 release level. Accordingly, after the

24 OneWorld/EnterpriseOne XE level, OneWorld/EnterpriseOne split off from World (at that time

25 in version A7.3) and also was released separately as OneWorld/EnterpriseOne ERP 8.0. All

26 three of those software versions (XE, ERP 8.0 and A7.3) are described at the module-specific

27 level above in the First Supplemental Response to Interrogatory No. 13.

28

1 Further, Oracle also refers Defendants under FRCP 33(d) to its production of release
 2 notes discussing the product features, enhancements, changes and additions to its
 3 OneWorld/EnterpriseOne software products, including from versions XE to 8.12 (which were in
 4 part based on the prior versions described above and below), including from ORCL00243899
 5 through ORCL00264056.

6 In addition, Oracle has located module-specific information for the following historic
 7 OneWorld/EnterpriseOne releases B732, B7321, B7322, B733, B7331, and B7332. The
 8 module-specific information for the historic OneWorld/EnterpriseOne releases is as follows:

Further, from CRM 8.0, released in 2001, to CRM 8.9, released in 2004, Oracle has located the following additional information: CRM 8.0 was in part the basis for CRM 8.1. CRM 8.1 was in part the basis for CRM 8.4. CRM 8.4 was in part the basis for CRM 8.4 SP1. CRM 8.4 SP1 was in part the basis for CRM 8.8. CRM 8.8 was in part the basis for CRM 8.8 SP1. CRM 8.8 SP1 was in part the basis for CRM 8.9. CRM 8.9 was in part the basis for further subsequent releases of CRM application releases.

FIFTH SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 13 (SIEBEL):

Oracle expressly incorporates its prior responses and objections to Interrogatory No. 13, including its original, first amended, second amended, first supplemental, second supplemental, third amended and second supplemental, third supplemental, and fourth amended and supplemental responses, as if set forth in full here. In addition to its General Objections, which Oracle incorporates here by reference, Oracle further objects to the extent the Interrogatory purports to require Oracle to create a compilation, abstract, or summary from business records that Oracle has already produced or will produce. Oracle further objects to the extent that the Interrogatory requires Oracle to summarize the documents and testimony provided on this subject; Oracle cannot and will not and is not required to do so and incorporates all such evidence by reference into this supplemented answer. Oracle further objects that its investigation into the circumstances related to Defendants' copyright infringement is not yet complete. Oracle further objects to the extent that this Interrogatory calls for information protected by the attorney-client or work product privileges. Oracle objects to the definition of "Software and Support Materials" as overbroad and unduly burdensome to the extent it includes websites not already explicitly identified through the discovery process as being at issue in this litigation. For Siebel materials, Oracle interprets "Software and Support Materials" to include only materials made available on the support websites known as SupportWeb or Metalink.

Subject to and without waiver of the foregoing objections, General Objections, Objections to Definitions, and Objections to Instructions, interpreting the reference to "paragraph 99 of the Complaint" in the Interrogatory as a reference to paragraphs 158 and 160 of the Fourth Amended Complaint, and interpreting the reference to "paragraph 100 of the Complaint" in the Interrogatory as a reference to paragraph 159 of the Fourth Amended Complaint, Oracle responds as follows:

The identifying information for the materials referenced as registered in paragraphs 158 and 160 of the Fourth Amended Complaint is reflected in the copyright registration notices, the copyright registration applications and the related deposit materials for each copyright registration application, and therefore, pursuant to Fed. R. Civ. Proc. Rule 33(d), Oracle refers

1 Defendants to those documents in Oracle's production, including documents Bates-numbered
2 ORCL00525500 through ORCL00525864. Oracle notes that the deposit materials are designated
3 as Confidential Information pursuant to the Stipulated Protective Order in this action.

4 Registration TXu1-607-453 covers all Software and Support Materials contained in the
5 automated database produced on CD ORCL206. Registration TX 6-941-989 covers all Siebel
6 6.3 software applications, prior versions, in part, and subsequent versions, in part. Registration
7 TX 6-941-988 covers all Siebel 7.0.5 software applications and subsequent versions, in part.
8 Registration TX 6-941-990 covers all Siebel 7.5.2 software applications and subsequent versions,

9 Further specific information regarding Oracle's Siebel software releases, including the changes
10 between releases and descriptions of included modules and products, may also be located in the
11 the automated database produced on CD ORCL206 and the software CDs and other productions
12 for the Registered Works themselves, including as reflected in the attached Exhibit B.
13 Accordingly, Oracle refers Defendants to all of the documents, data, software, and related media
14 referenced in this response pursuant to Fed. R. Civ. Proc. Rule 33(d).

15 Oracle's investigation into Defendants' theft and misuse of its copyrighted Software and
16 Support Materials is ongoing, and Oracle will amend and/or supplement its response to this
17 Interrogatory with further information as that investigation continues.

18 **SIXTH SUPPLEMENTAL RESPONSE TO INTERROGATORY NO. 13 (DATABASE):**

19 Oracle expressly incorporates its prior responses and objections to Interrogatory No. 13,
20 including its original, first amended, second amended, first supplemental, second supplemental,
21 third amended and second supplemental, third supplemental, fourth amended and supplemental
22 responses, and fifth supplemental responses and objections, as if set forth in full here. In
23 addition to its General Objections, which Oracle incorporates here by reference, Oracle further
24 objects to the extent the Interrogatory purports to require Oracle to create a compilation, abstract,
25 or summary from business records that Oracle has already produced or will produce. Oracle
26 further objects to the extent that the Interrogatory requires Oracle to summarize the documents
27 and testimony provided on this subject; Oracle cannot and will not and is not required to do so
28 and incorporates all such evidence by reference into this supplemented answer. Oracle further

1 objects to the extent that this Interrogatory calls for information protected by the attorney-client
2 or work product privileges. Oracle objects to the definition of “Software and Support Materials”
3 as overbroad and unduly burdensome to the extent it includes websites not already explicitly
4 identified through the discovery process as being at issue in this litigation. For Database
5 materials, Oracle interprets “Software and Support Materials” to include only materials made
6 available on the support websites known as Metalink.

7 Oracle further objects to Defendants’ request for voluminous and detailed written
8 discovery regarding Oracle’s claims related to the database Registered Works, including requests
9 for each and every way in which Defendants copied or used Oracle’s database software, on the
10 grounds that SAP already has possession, custody and/or control of much of that information.
11 Indeed, SAP is the largest reseller of Oracle’s database software in the world and has sold
12 billions of dollars worth of Oracle database sublicenses to its own customers between FY01 and
13 FY08, and has paid Oracle royalties in connection with these sales pursuant to the database
14 reseller license agreement it has with Oracle. Defendants are therefore keenly aware of Oracle’s
15 development, authorship, and ownership of the database software, and Oracle’s database license
16 agreements with customers, the terms of those agreements, and the terms of use for Oracle’s
17 customer support websites.

18 Oracle further objects that its investigation related to the additional database Registered
19 Works in its Fourth Amended Complaint is ongoing and incomplete, as Defendants have not yet
20 provided numerous relevant materials, testimony, and discovery responses. As Defendants are
21 aware, Oracle sought to add these Registered Works to its complaint in early 2009 and
22 Defendants refused, forcing Oracle to file a motion to do so. Defendants opposed that motion
23 and the Court granted it without hearing on August 14, 2009. Since that time Defendants have
24 still not supplemented their prior discovery responses to provide database-related information,
25 and have only recently produced documents that may contain relevant information. Furthermore,
26 Oracle has served additional interrogatories and requests for admission to which Defendants
27 have not yet responded (and for which Defendants sought and Oracle granted an extension), and
28 Defendants' witnesses will not testify in response to any of Oracle's three related Rule 30(b)(6)

1 deposition notices, served on September 30, until the week of November 30. Thus, Oracle still
2 does not know very basic facts such as where Defendants acquired their unlicensed copies of
3 Oracle database software. These details, which Defendants are required to provide, including
4 through the pending database discovery agreement, are necessary for Oracle to respond in full to
5 this interrogatory. Oracle further objects that it has specifically tailored its discovery requests
6 and understanding of the facts based on representations by Defendants in negotiations that
7 “Oracle customers did not drop Oracle database support or migrate to another database product
8 as a result of any conduct alleged in the Fourth Amended Complaint” and “TN did not support
9 the database software.” Emails from Scott Cowan, Sept. 11 and Sept. 15, 2009. Further
10 discovery may reveal additional infringing activity not yet known to Oracle and/or contradict the
11 representations of Defendants' counsel and Oracle reserves the right to amend or supplement this
12 Response accordingly.

13 Subject to and without waiver of the foregoing objections, General Objections,
14 Objections to Definitions, and Objections to Instructions, interpreting the reference to “paragraph
15 99 of the Complaint” in the Interrogatory as a reference to paragraphs 158 and 160 of the Fourth
16 Amended Complaint, and interpreting the reference to “paragraph 100 of the Complaint” in the
17 Interrogatory as a reference to paragraph 159 of the Fourth Amended Complaint, Oracle
18 responds as follows:

19 The identifying information for the materials referenced as registered in paragraphs 158
20 and 160 of the Fourth Amended Complaint is reflected in the copyright registration notices, the
21 copyright registration applications and the related deposit materials for each copyright registration
22 application, and therefore, pursuant to Fed. R. Civ. Proc. Rule 33(d), Oracle refers Defendants to those
23 documents in Oracle’s production, including documents Bates-numbered ORCL00694304 through
24 ORCL00694360, ORCL00694999, ORCL00694999, ORCL00695021 through ORCL00695074,
25 ORCL00695128 through ORCL00695177, and ORCL006985180 through ORCL00695185. Oracle notes
26 that the deposit materials are designated as Confidential Information pursuant to the Stipulated Protective
27 Order in this action.

28 Further, Oracle’s database software through version 10g: Release 2 comes in as many as

1 five “editions”: express (introduced in 10g: Release 2), standard one (introduced in 10g: Release
2 1), personal, standard and enterprise. The express, standard one, personal, and standard editions
3 are all subsets of the enterprise version. Accordingly, Registration TX 5-392-842 covers Oracle
4 Relational Database Management System (RDBMS): Release 8.0.4, prior versions, in part, and
5 subsequent versions, in part, including the personal, standard and enterprise versions.
6 Registration TX 5-392-861 covers Oracle Relational Database Management System (RDBMS):
7 Release 8.0.5 and subsequent versions, in part, including the personal, standard and enterprise
8 versions. Registration TX 5-222-106 covers Oracle 8i Enterprise Edition, release 2 (8.1.6) and
9 subsequent versions, in part, including the personal, standard and enterprise versions.
10 Registration TX 5-673-281 covers Oracle 9i Database Enterprise : Edition Release 1 and
11 subsequent versions, in part, including the personal, standard and enterprise versions.
12 Registration TX 5-673-282 covers Oracle 9i Database Enterprise : Edition Release 2 and
13 subsequent versions, in part, including the personal, standard and enterprise versions.
14 Registration TX 6-938-648 covers Oracle Database 10g: Release 1 and subsequent versions, in
15 part, including the standard one, personal, standard and enterprise versions. Registration TX 6-
16 942-003 covers Oracle Database 10g: Release 2 and subsequent versions, in part, including the
17 express, standard one, personal, standard and enterprise versions.

18 Oracle Database 10g: Release 2 was based in part on Oracle Database 10g: Release 1;
19 Oracle Database 10g: Release 1 was based in part on Oracle 9i Database Enterprise : Edition
20 Release 2; Oracle 9i Database Enterprise : Edition Release 2 was based in part on Oracle 9i
21 Database Enterprise : Edition Release 1; Oracle 9i Database Enterprise : Edition Release 1 was
22 based in part on Oracle 8i Enterprise Edition, release 2 (8.1.6); Oracle 8i Enterprise Edition,
23 release 2 (8.1.6) was based in part on Oracle Relational Database Management System
24 (RDBMS), Release 8.0.5; Oracle Relational Database Management System (RDBMS), Release
25 8.0.5 was based in part on Oracle Relational Database Management System (RDBMS): Release
26 8.0.4. The following additional prior versions upon which Oracle Relational Database
27 Management System (RDBMS): Release 8.0.4 was based in part have been identified: 2, 5, 6, 7
28 (multiple versions including 7.0.16, 7.1.3, 7.1.4, 7.1.6, 7.2.2.4, 7.2.3, 7.3.2.1, 7.3.2.2, 7.3.2.3,

1 7.3.4), and 8 (version 8.0.3).

2 Following a reasonable search and investigation, and based in part on anecdotal
3 information, Oracle understands that the following copyrighted Database software releases,
4 covered in whole or in part by registrations in Oracle's Fourth Amended Complaint, contain at
5 least the following options, functionality, and/or related identifying information:

6 Release Number	Registration Number	Approximate Release Date	Options

18 To the extent a description for any product, application, or module was not included in
19 the above responses for each Registered Work, further specific information regarding Oracle's
20 database software releases, including the changes between releases and descriptions of included
21 options or product functionality, may be located in the Release Notes, Statements of Direction,
22 Oracle Bookshelf documentation, and other documents produced in this action including at
23 ORCL00595541 through ORCL00595547. Oracle therefore refers Defendants under FRCP
24 33(d) to those documents. Further specific information regarding Oracle's database software
25 releases, including the changes between releases and descriptions of included options and
26 product functionality, may also be located in the voluminous materials contained in Defendants'
27 production, including Defendants' servers and software repositories and Defendants own copies
28 of Oracle database documentation, including but not limited to documents produced by

1 Defendants in this action at, e.g, TN-OR00509546, TN-OR00548763, TN-OR00509064 and TN-
2 OR00509294. Further specific information regarding Oracle’s database software releases,
3 including the changes between releases and descriptions of included modules and products, may
4 also be located in the software CDs and other productions for the Registered Works themselves,
5 including as reflected in the attached Exhibit C. Accordingly, Oracle refers Defendants to all of
6 the documents, data, software, and related media referenced in this response pursuant to Fed. R.
7 Civ. Proc. Rule 33(d).

8 Oracle’s investigation into Defendants’ theft and misuse of its copyrighted Software and
9 Support Materials is ongoing, and Oracle will amend and/or supplement its response to this
10 Interrogatory with further information as that investigation continues.

11 **FIFTH AMENDED AND SEVENTH SUPPLEMENTAL RESPONSE TO**
12 **INTERROGATORY NO. 13:**

13 Oracle expressly incorporates its prior responses and objections to Interrogatory No. 13,
14 including its original, first amended, second amended, first supplemental, second supplemental,
15 third amended and second supplemental, third supplemental, fourth amended and supplemental,
16 fifth supplemental, and sixth supplemental responses and objections, as if set forth in full here.
17 In addition to its General Objections, which Oracle incorporates here by reference, Oracle further
18 objects to the extent the Interrogatory purports to require Oracle to create a compilation, abstract,
19 or summary from business records that Oracle has already produced or will produce. Oracle
20 further objects to the extent that the Interrogatory requires Oracle to summarize the documents
21 and testimony provided on this subject; Oracle cannot and will not and is not required to do so
22 and incorporates all such evidence by reference into this supplemented answer. Oracle further
23 objects to the extent that this Interrogatory calls for information protected by the attorney-client
24 or work product privileges. Oracle objects to the definition of “Software and Support Materials”
25 as overbroad and unduly burdensome to the extent it includes websites not already explicitly
26 identified through the discovery process as being at issue in this litigation.

27 Subject to and without waiver of the foregoing objections, General Objections,
28 Objections to Definitions, and Objections to Instructions, interpreting the reference to “paragraph

1 99 of the Complaint” in the Interrogatory as a reference to paragraphs 158 and 160 of the Fourth
2 Amended Complaint, and interpreting the reference to “paragraph 100 of the Complaint” in the
3 Interrogatory as a reference to paragraph 159 of the Fourth Amended Complaint, Oracle
4 responds as follows:

5 The identifying information for the materials referenced as registered in paragraphs 158
6 and 160 of the Fourth Amended Complaint is reflected in the copyright registration notices, the
7 copyright registration applications and the related deposit materials for each copyright
8 registration application, and therefore, pursuant to Fed. R. Civ. Proc. Rule 33(d), Oracle refers
9 Defendants to those documents in Oracle’s production, including documents Bates-numbered
10 ORCL00525865-ORCL00527755, ORCL00694576-978, ORCL00695081-ORCL00695100,
11 ORCL00695106-ORCL00695127, ORCL00695178-ORCL00695179, ORCL00726653-58, and
12 ORCL00726679-81. Oracle notes that the deposit materials are designated as Confidential
13 Information pursuant to the Stipulated Protective Order in this action.

14 Registration TXu1-607-453 covers all documentary Software and Support
15 Materials contained in the automated database produced on CD ORCL206. Registration TXu1-
16 607-454 covers all documentary Software and Support Materials contained in the automated
17 database produced in the “PeopleSoft” folder on CD ORCL266. Registration TXu1-607-455
18 covers all documentary Software and Support Materials contained in the automated database
19 produced in the “JDE” folder on CD ORCL266.

20 Oracle further understands that Database of Documentary Customer Support Materials
21 for J.D. Edwards Software July 1, 2009 (TXu1-607-455) is based in part on Software and
22 Support Materials that wholly or partially incorporate TXu 619-303, TXu 619-304, TXu 619-
23 305, TXu 619-306, TXu 619-307, TXu 619-308, TXu 619-309, TXu 619-310, TXu 619-311,
24 TXu 619-312, TXu 619-313, TXu 619-314, TXu 619-315, TXu 619-316, TXu 619-317, TXu
25 619-318, TXu 619-319, TXu 619-320, TXu 619-321, TX 6-541-033, TX 6-541-051, TX 6-541-
26 048, TX 6-541-050, TX 6-541-046, TX 6-541-034, TX 6-541-049, TX 6-541-036, TX 6-541-
27 038, TX 6-541-037, TX 6-541-032, TX 6-541-028, TX 6-541-035, TX 6-541-040, TX 6-541-
28 027, TX 6-541-039, TX 6-541-041, TX 6-541-045, TX 6-541-042, TX 6-541-029, TX 6-541-

1 043, TX 6-541-031, TX 6-541-047, TX 6-541-044, TX 6-545-421, and TX 6-541-030.³

2 Registrations TX 3-772-290, TX 4-501-138, TX 4-501-140 and TX 4-994-866 cover all
3 Software and Support Materials in which the specific modules of PeopleSoft HRMS 7.0 Public
4 Sector described in those copyright registrations, copyright applications and the related deposit
5 materials are wholly or partially incorporated. Registrations TX 3-772-290, TX 4-501-138, TX
6 4-501-140 and TX 4-994-866 cover the specific modules of HRMS 7.0 Public Sector described
7 in those copyright registrations, copyright applications and the related deposit materials, as well
8 as subsequent versions of PeopleSoft HRMS, in part. The specific modules of PeopleSoft
9 HRMS 7.0 Public Sector described in the copyright registrations, copyright applications and the
10 related deposit materials for TX 3-772-290, TX 4-501-138, TX 4-501-140 and TX 4-994-866
11 were in part the basis for PeopleSoft HRMS 7.0 Public Sector.

12 Registrations TX 4-258-824, TX 4-994-865, TX 5-013-124, and TX 5-013-128 cover all
13 Software and Support Materials in which the specific modules of PeopleSoft Student
14 Administration 7.0 (also referred to as PeopleSoft HRMS 7.0 for Higher Education or PeopleSoft
15 Learning Solutions 7.0) described in those copyright registrations, copyright applications and the
16 related deposit materials are wholly or partially incorporated. Registrations TX 4-258-824, TX
17 4-994-865, TX 5-013-124, and TX 5-013-128 cover the specific modules of PeopleSoft Student
18 Administration 7.0 described in those copyright registrations, copyright applications and the
19 related deposit materials, as well as subsequent versions of PeopleSoft Student Administration,
20 in part. The specific modules of PeopleSoft Student Administration described in the copyright
21 registrations, copyright applications and the related deposit materials for TX 4-258-824, TX 4-
22 994-865, TX 5-013-124, and TX 5-013-128 were in part the basis for PeopleSoft Student
23 Administration 7.0.

24 Registrations TX 3-772-291, TX 3-772-292, TX 4-994-867, TX 5-013-123, TX 5-013-
25

26 ³ These 45 registrations are referenced in the limitation section of the Certificate of Registration
27 for TXu1-607-455 and in related correspondence with the Copyright Office. See
28 ORCL00695179; ORCL00740203.

1 125, and TX 5-072-090 cover all Software and Support Materials in which the specific modules
2 of PeopleSoft HRMS intermediate between PeopleSoft HRMS 7.5 and PeopleSoft HRMS 8.0,
3 and described in those copyright registrations, copyright applications and the related deposit
4 materials, are wholly or partially incorporated. Registrations TX 3-772-291, TX 3-772-292, TX
5 4-994-867, TX 5-013-123, TX 5-013-125, and TX 5-072-090 cover the specific modules of
6 PeopleSoft HRMS intermediate between PeopleSoft HRMS 7.5 and PeopleSoft HRMS 8.0, and
7 described in those copyright registrations, copyright applications and the related deposit
8 materials, as well as subsequent versions of PeopleSoft HRMS, in part.

9 Oracle further understands that PeopleSoft Pension Administration 7.50 (TX 3-772-291)
10 is based in part on the module Pension Administration of PeopleSoft HRMS 7.5, that PeopleSoft
11 Payroll Interface 7.50 (TX 3-772-292) is based in part on the module Payroll Interface of
12 PeopleSoft HRMS 7.5, that PeopleSoft Time and Labor 7.50 (TX 4-994-867) is based in part on
13 the module Time and Labor of PeopleSoft HRMS 7.5, that PeopleSoft Human Resources 7.50
14 (TX 5-013-123) is based in part on the module Human Resources of PeopleSoft HRMS 7.5, that
15 PeopleSoft Payroll 7.50 (TX 5-013-125) is based in part on the module Payroll of PeopleSoft
16 HRMS 7.5, and that PeopleSoft Benefits Administration 7.50 (TX 5-072-090) is based in part on
17 the module Benefits Administration of PeopleSoft HRMS 7.5. Oracle further understands that
18 the specific modules of PeopleSoft HRMS described in the copyright registrations, copyright
19 applications, and related deposit materials for registrations TX 3-772-291, TX 3-772-292, TX 4-
20 994-867, TX 5-013-123, TX 5-013-125, and TX 5-072-090 were in part the basis for PeopleSoft
21 HRMS 8.0.

22 **PeopleTools:**

23 As to PeopleTools, prior to PeopleTools 7.5 in 1997, the following prior versions upon
24 which PeopleTools 7.5 (TX 4-792-578) was in part based have been identified: PeopleTools 4.x,
25 5-5.12, 6-6.12, 7-7.07. The following versions, based in part upon PeopleTools 7.5, and upon
26 which PeopleTools 8.0 (TX 5-266-222; also known as PeopleTools 8), in part, was based, have
27 been identified: PeopleTools 7.51-7.63. The following versions, based in part upon PeopleTools
28 8.0, and upon which PeopleTools 8.10 (TX 5-266-221; also known as PeopleTools 8.1), in part,

1 was based, have been identified: PeopleTools 8.01-8.02.10. The following versions, based in
2 part upon PeopleTools 8.10, and upon which PeopleTools 8.4 (TX 5-586-248; also known as
3 PeopleTools 8.40), in part, was based, have been identified: PeopleTools 8.11-8.22. The
4 following versions, post-dating and based in part upon PeopleTools 8.4, have been identified:
5 PeopleTools 8.41-8.50.
