Subject: [Fwd: RE: E1, Enterprise, and World Calls]

Janice, Beth, Kerry, Support and Development are reaching out to communicate with customers who are disgruntles about support fee, product directions etc. Scroll down for three scheduled calls for customers - they are invited by APPROVAL only and by the DEV/MKTG/Support team for E1, World etc...

Below I've added our running list of customers for Beth to compare invitee lists against. I also think we should listen to all of these call so we have the party lines down and can help spread the word. Include your add on customers if this list does not cover. --

Beth - are these customers on your radar

CC:Moses-Reed Shelley Lynn <SHELLEY.MOSES-REED@oracle.com>, TRIELOFF SCOTT W. <scott.trieloff@oracle.com>

Hi Michael,

I just left Shelley a voice mail as I'd like to touch base with her on where we're at with this account.

In the meantime, you are welcome to listen in on the calls but please do not invite customers without getting prior approval.

Dial in info is the same for all product calls: 888.967.2253 (meeting ID 542238; passcode 123456)

World - 6/6 - 10:00 am Mountain
E1 - 6/13 - 10:00 am Mountain
Enterprise - 6/20 - 10:00 am Mountain

These calls are scheduled for the 1st (World), 2nd (E1), and 3rd (E) Mondays of each month.

Thanks,
Beth

Hi Beth -

I am not sure if you have Lexmark down as a nomination, but please include them. They should be nominated for a one on one call. However, they have been escalated to the SWAT team and Shelley is coordinating our efforts with them.

Please work with Shelley to set up an appropriate time to have the one on one with Lexmark (we are trying to keep them on support - they have an Aug 1 renewal for \$1.1M that we are trying to close out).

Also - can you please forward the call-in details? I would like to listen in on the general calls.

Regards

Michael Gorski

Subject: E1, Enterprise, and World Calls

North America PSFT Team,

As a follow up to an earlier email, we are proceeding with having product calls for each of our three product lines - E1, Enterprise, and World. Those calls are designed to give customers an update of what is going on with the product direction and product development. We will be involving individuals from Support, Customer Loyalty, and Strategy on these calls.

The process is that the support sales reps will nominate customers for these calls and send your nominations to Beth Shippy. Beth will then coordinate with the appropriate leadership in the product lines to ensure that the calls are appropriate for these customers. For certain customers it may be more appropriate to have a one-on-one call or direct them to another venue to have their questions answered. Once it is determined that the customer should participate in the call, it is the responsibility of the Support Sale Rep to formally invite the customer to the call.

The first of those calls is next Monday, which is the World call for this month. We already have several nominations. Beth will help to confirm the nominated customers. The support sales reps can then confirm and participate in the call with the customer. All support sales reps are welcome to participate in the calls to understand product direction for these product lines.

This is part of our ongoing strategy in retaining customers in the midst of our current competitive environment.

The guidelines for the upcoming World call are as follows:

Option 1: If the customer is disgruntled about anything, we MUST do a one-on-one conference call with this customer and DO NOT want to invite them to join other customers on the Monthly World Update call. Contact Sheila McLoughlin directly to arrange.

Option 2: Those customers that you feel are generally satisfied, but just need more information re: World direction can be invited to the Monthly World Update call. However, the customer names should be reviewed by Rick and Sheila PRIOR to them being invited to the call, to determine if Option 1 should be offered to any of them. Beth Shippy will help to coordinate that process.) Sheila will follow-up with these customers individually after the call to address any customer specific issues and involve the appropriate SSM.

Option 3: Customers that you do not nominate for Option 1 or 2 can be directed to the "John Schiff World Update" video that will soon be posted on the www.oracle.com/peoplesoft webpage. There will

also be a letter to World customers from John Schiff posted there as well as the existing Oracle-IBM iSeries FAQ document.

Upcoming calls are as follows:

World - 6/6 - 10:00 am Mountain
E1 - 6/13 - 10:00 am Mountain
Enterprise - 6/20 - 10:00 am Mountain

Regards,
Rick
