**Subject:** TomorrowNow WINS! Amgen (J.D. Edwards)

Team - I am pleased and proud to announce our newest J.D. Edwards Co-Existence (World & Xe) customer, **Amgen Inc.**

**About the Customer:** Amgen is a leading human therapeutics company in the biotechnology industry. For 25 years, the company has tapped the power of scientific discovery and innovation to dramatically improve people's lives. Amgen pioneered the development of novel products based on advances in recombinant DNA and molecular biology and launched the biotechnology industry's first blockbuster medicines. Today, as a Fortune 500 company serving millions of patients, Amgen continues to be an entrepreneurial, science-driven enterprise dedicated to helping people fight serious illness.

**About the Deal:** TomorrowNow was first engaged in mid-May to respond to information required to support an SAP Safe passage deal. However, SAP did not elect to offer TomorrowNow's services as part of the Safe Passage contract. However, Amgen did realize that they could realize additional cost savings by contracting directly with TomorrowNow directly outside of the SAP framework. Bob Stephens responded to those inquiries by explaining the TomorrowNow proposition to Amgen and providing contract templates and pricing for a pure stand-alone deal.

SAP's Safe Passage contract was signed in mid-June, but with Amgen's Oracle support contract not expiring until December 31st, Amgen had little interest in pursuing our services at that time. Bob continued an open dialogue with his Amgen contacts through August and began to encourage them to take advantage of the "early on-boarding" program that TomorrowNow senior management made available to prospects with expiration dates in November and December.

Amgen formed an internal evaluation team to assess their maintenance support alternatives in early September. Additional information was provided and several conference calls were conducted through September and into early October. During the latter part of October Amgen made reference calls to both JDE and PSFT customers of TomorrowNow. Though they did not take advantage of the early sign-up program, Amgen notified Bob Stephens on October 31st that the team had recommended moving to TomorrowNow support services and that a formal contract was needed for business and legal review.

Bob Stephens provided the draft contract on November 2nd and the first Amgen redlines were received back on November 11th. Now the fun begins. Amgen is known for their strong negotiations, and after over 5 weeks of legal conference calls, redlines, discussions and more push back from both sides, Bob Geib and Andrew Nelson stepped in to resolve the final issues. The Amgen SSA was executed on December 16th.

This is a very big Win for TomorrowNow, as Amgen represents both another very large J.D. Edwards customer, but also an example of the stand-alone value of TomorrowNow services even when SAP does not include us in Safe Passage.

I also want to thank Bob Stephens for NEVER giving up, and Scott McGrath for providing some key support with Western Region SAP sales during the negotiations.

- Bob
