ORAL AND VIDEOTAPED DEPOSITION OF TOMORROWNOW BY AND THROUGH MARK KREUTZ VOLUME 2
OCTOBER 30, 2007

ORAL AND VIDEOTAPED DEPOSITION OF MARK KREUTZ, produced as a witness at the instance of the Plaintiffs and duly sworn, was taken in the above styled and numbered cause on October 30, 2007, from 8:43 a.m. to 3:31 p.m., before RENE WHITE MOAREFI, CSR, CRR, RPR in and for the State of Texas, reported by machine shorthand, at Jones Day, 717 Texas, Suite 3300 Houston, Texas, pursuant to the Federal Rules of Civil Procedure and the provisions stated on the record herein.

- acquisition part of the onboarding process for a new
- 2 customer, JD Edwards customer, can you describe prior to
- 3 the litigation how TomorrowNow would acquire any
- 4 software that it would acquire in order to support that
- 5 JD Edwards customer?
- A. So the download was one piece, right, and that
- 7 was -- those were all -- that -- that covers basically
- 8 the -- the patches and items that they -- that they
- 9 should be entitled to or licensed to based on the
- 10 information they gave us. But then -- so we -- we may
- 11 have had a download for them. And in some instances, we
- 12 may have received software material directly from the
- 13 customer.
- Q. Could you be more specific? What software
- 15 material would you obtain directly from the customer?
- A. This would include environments that we were supporting for them.
- 18 Q. By "environment," what do you mean?
- 19 A. Basically a -- a copy of an environment that we
- 20 were supporting for them or maybe a copy of their --
- 21 their demo environment.
- 22 Q. So if I understand you, that would be the
- 23 underlying software release, JD Edwards software
- 24 release?
- 25 A. Yes.

- 1 everything remotely. And there are a lot of reasons for
- that, good reasons that that's -- that's our preference.
- 3 So we would actually prefer, you know, not
- 4 to have a copy of their environment for various reasons
- 5 and do direct support into their -- into their domain or
- the environment of their choosing.
- Q. What are the reasons that you would prefer not
- 8 to have a copy of their environment locally at
- 9 TomorrowNow?

10

Page 91

do so.

- MR. COWAN: Objection --
- 11 Q. (BY MR. HOWARD) And, again, we're speaking 12 before the litigation.
- MR. COWAN: Objection to the extent it
- 14 calls -- or invades the attorney-client privilege.
- If you can give reasons -- factual reasons
 that aren't the subject of advice from counsel, you may
- 18 THE WITNESS: Okay.
- Q. (BY MR. HOWARD) I'm just focusing you on the period before the litigation.
 - A. Okay.
- 22 MR. COWAN: Same objection.
- 23 Q. (BY MR. HOWARD) Before the litigation, what
- 24 were the reasons why TomorrowNow preferred not to have a
- 25 local copy of the client environment?

Page 93

- Q. How would you get that copy of that environment from the customer?
- 3 A. Either through a -- and I'm just speaking about
- 4 JD Edwards now. Either through a tape media or possibly
- 5 a copy of a CD or DVD.
- 6 Q. Was it TomorrowNow's policy to obtain those
- 7 client environments to keep in the TomorrowNow domain as
- 8 part of its support services?
- 9 A. It's really driven by the support, the contract
- 10 that's been put together for that customer and their
- 11 support model preference.
- 12 Q. As a matter of course in obtaining a new
- 13 client, TomorrowNow would evaluate whether for that
- 14 client it would request and obtain copies of the client
- 15 environment to maintain locally at TomorrowNow?
- 16 A. The -- repeat that question one more time.
- 17 Q. Well, in what circumstances would TomorrowNow
- 18 obtain these client environment copies that you've
- 19 described?
- 20 A. It's really -- it's really meant to be, you
- 21 know, a support model preference. So if a customer
- 22 should ask or choose to have TomorrowNow -- having it --
- 23 their environment or an environment of their choosing
- 24 for support purposes, then they might give us that. For
- 25 JD Edwards, the -- the -- the preference is to do

- MR. COWAN: Same objection and same instructions.
- 3 A. The -- the reasons are -- or because, first,
- 4 the resources it takes to have an -- an environment in
- 5 TomorrowNow, a copy of that -- the customer's
- 6 environment. And that means hardware, people to -- to
- 7 do these activities. But at the same time trying to
- 8 keep those environments in sync between, you know, the
- 9 customer and TomorrowNow, very -- very intrusive to our
- 10 support. And it actually has a customer satisfaction
- 11 aspect, the customer's not happy about trying to, you
- 12 know, keep us in sync.
- So our preference, you know, was really we
- 4 have direct access into their environment regardless of
- 15 what changes they've made on their -- their -- their
 - 6 side. That could include, you know, hardware, platform,
- 17 anything in the underlying architecture of that
- 18 environment that we don't sync up to as well as, you
- 19 know, data, you know, their data, their -- possibly
- 20 their custom changes and things like that. It's just
- 21 for -- for us, it was just we would prefer dial directly
- 22 into the customer's environment and do support with you,
- 23 dynamically troubleshoot with you. We are looking at
- 24 the same data. It's just -- it's really one of the true
- 25 value adds for -- for TomorrowNow and what our customers

				2.00				5756 B

1	really liked like.	1							
2	Q. (BY MR. HOWARD) Any other reasons?	2							
3	MR. COWAN: Same objection, same	3							
4	instruction.	4						8	
5	A. That's that's what I can those are	5	9						
1	basically the reasons.	6							
6	Q. (BY MR. HOWARD) How many JD Edwards customers	7		~					
7	did TomorrowNow have in March of 2007 before the	8							
8	litigation was filed, approximately?	9							
9	A. I don't know the number to that. It's over a	10			12				
10	hundred.	11							
11	Q. How many of those for how many of those	12							
12	customers did TomorrowNow have a copy of their client	13		125					
13		14							
14	environment in the way that you've described would be	15							
15	done?	16							
16	A. Three,	17							
17	Q. And who are those customers?								
18	A. Praxair, Kountz Wagner, and Bonnie Bell.	18							
19	Q. For the balance of the JD Edwards customers	19							
20	as that list existed at the time of the litigation, is	20					¥.		
21	it the case, then, that TomorrowNow downloaded support	21		7				7	
22	materials for those customers but did not have a copy of	22							
23	other source code to support those customers?	23							
24	A. Which the the all are we talking	24							- 5
25	about all JD Edwards customers?	25
