Do not miss this chance!

Physician Adult Daycare (PHYA) is getting ready to take off. If you are  
able to get in before the explosion then count yourself lucky.

Take a look at your favorite charts. Check your level 2. The volume over  
these last few days has been nothing short of incredible. This one has  
gone from thinly traded to booming!

Trading at just over \$1.50 cents, word is PHYA is about to announce news  
of major proportions. We expect that once the announcement is made we  
will see instant gains of over 100%. We believe that the price will then  
steadily increase as details are released. Our target sell point is \$4.50.

PHYA is where you want to be.

Get in early on December 14th and ride it to the top!

Kimber Resources (KRXR) is about to blow off the charts and this is your heads up! Powerful news was released after Tuesday's closing bell and is expected to send KRXR from its current trading price of about \$2.00 to well over \$4.00 !!!

Kimber-X is pleased to announce that the Company is in the final stages of negotiating a significant joint venture for a sizable claim block in the Fort a La Corne area of Saskatchewan. The land area of the joint venture is directly adjacent to the Fort a la Corne region and the Company is currently in negotiations with a major landholder of the property. Do not miss this chance!

Get in early on December 14th and ride it to the top!

Physician Adult Daycare (PHYA) is getting ready to take off. If you are  
able to get in before the explosion then count yourself lucky.

Take a look at your favorite charts. Check your level 2. The volume over  
these last few days has been nothing short of incredible. This one has  
gone from thinly traded to booming!

Trading at just over \$1.50 cents, word is PHYA is about to announce news of major proportions. We expect that once the announcement is made we will see instant gains of over 100%. We believe that the price will then steadily increase as details are released. Our target sell point is \$4.50.

Super pick! Get this winner early tomorrow December 1st!

Today like never before our world is beginning the move away from oil and towards alternative fuels. What the smart investor should now be doing is finding the right company and taking a position for both short-term gains and longer-term returns.

We are bringing you just such a company. In the right place at the right time with a MAJOR announcement on the way!

Heartland Energy Group

Ethanol is one of the fastest growing alternative fuels in the world today. Major players such as Bill Gates and Richard Branson have invested hundreds of millions of dollars already.

In his speech Benedict quoted two previous pontiffs including his predecessor Pope John Paul II who referred to the spiritual bonds between Christianity and Islam in a 1979 speech in Ankara. He also quoted Pope Gregory VII an 11th-century pontiff who talked about the charity that Christians and Muslims owe each other because we believe in one God albeit in a different manner.

These days it's like the dot com revolution round two.

Acquisitions are taking place at a record pace. Google picking up youtube. News corp picking up Myspace, the list goes on. The large are snatching up their smaller blooming counterparts and those that are already holding an interest in these smaller companies are making a fortune in the process.

Las Vegas Reservations

Sym: LVCC

Current Price: 0.48

Target price: 1.35

We get you the inside scoop BEFORE it hits the street and word is that LVCC is expected to be acquired by a larger company. This is going to bring outstanding appreciation to the issue. Once the word is out it will be too late as the price will go up quickly. The time is now! Go LVCC!

TiVo also will introduce another new feature that lets subscribers share their homemade movies with friends or family by setting up a personal channel to send their videos to the TiVo boxes of those who have agreed to be on that private network. Instead of using the Web only or sending copies on DVD TiVo users will be able to essentially distribute their own videos directly to others.

TiVo boxes through the panys partnership with online video-sharing provider One True Media

Andersons family had accused county and state officials of attempting to cover up what happened but Ober said there is no evidence by any public official or agency to undermine or improperly influence this investigation

The boot camp in Bay County was closed in early May 2005 The sheriffs office said the closure had nothing to do with Andersons case but also said the eight people involved in the incident were not offered new jobs

More about the ethanol sector:

The growing interest in ethanol has paralleled the escalating price of gas and the urgent need to break the country's dependence on crude oil. Recently, the Big Three automobile manufacturers appealed to Congress for incentives to increase the number of gas stations that offer blends of ethanol. Last year, Bill Gates invested \$84 million into Pacific Ethanol. Richard Branson, has plans to invest \$300 to \$400 million to produce and market this alternative fuel. Heartland Energy is in the thick of this booming industry. This is the real deal. Get in while there's still time. HEGP is going to take off!

Super pick! Get this winner early tomorrow November, 30th!

Later Tuesday while addressing Turkey's diplomatic corps the pope heralded the country's role in the UN peacekeeping force in southern Lebanon. He also touched on the importance of religious freedom saying members of all religions should enjoy the same rights and recognition in their home countries.

Super pick! Get this winner early tomorrow November, 29th!

In today's energy sector alternative fuels is THE place to be. Our next feature is a pioneer in the field and is coming out with an astounding revelation!

Heartland Energy Group

Sym: HEGP

Currently trading at around \$0.23

We are expecting this one to reach \$0.80 in the short-term. We could see long-term levels of up to \$2.50. Do not underestimate the power of this upcoming announcement!

More about the ethanol sector:

The growing interest in ethanol has paralleled the escalating price of gas and the urgent need to break the country's dependence on crude oil. Recently, the Big Three automobile manufacturers appealed to Congress for incentives to increase the number of gas stations that offer blends of ethanol. Last year, Bill Gates invested \$84 million into Pacific Ethanol. Richard Branson, has plans to invest \$300 to \$400 million to produce and market this alternative fuel. Vinod Khosla, "guru" of Silicon Valley, co-founder of Sun Microsystems, and one of ethanol's most vocal advocates, has personally invested millions in private companies involved in the development of ethanol.

Heartland Energy is in the thick of this booming industry. This is the real deal. Get in while there's still time. HEGP is going to take off!

Henry Dickens Charles Enfinger Patrick Garrett Raymond Hauck Charles Helms Jr Henry McFadden Jr Kristin Smith and Joseph Walsh II They are described as being caregivers of Martin Lee Anderson who caused his death

Andersons family had accused county and state officials of attempting to cover up what happened but Ober said there is no evidence by any public official or agency to undermine or improperly influence this investigation

directorate made an apparent reference to the popes September remarks that linked violence and the Prophet Muhammed

The so-called conviction that the sword is used to expand Islam in the world and growing Islamophobia hurts all Muslims Bardakoglu said

In his speech Benedict quoted two previous pontiffs including his predecessor Pope John Paul II who referred to the spiritual bonds between Christianity and Islam in a 1979 speech in Ankara He also quoted Pope Gregory VII an 11th-century pontiff who talked about the charity that Christians and Muslims owe each other because we believe in one God albeit in a different manner

On his arrival at Ankara airport for a four-day visit the pope told Prime Minister Recep Tayyip Erdogan: I really wanted to come to Turkey because Turkey has become a bridge between the religions I want to reiterate the solidarity between the cultures the pope said This is our duty (Watch the pope meet officials in Ankara )

In his first official act Benedict visited the mausoleum of Mustafa Kemal Ataturk the founder of modern Turkey In a guest book he wrote that Turkey is a meeting point of different religions and cultures and a bridge between Asia and Europe

Later Tuesday while addressing Turkey's diplomatic corps the pope heralded the country's role in the UN peacekeeping force in southern Lebanon

He also touched on the importance of religious freedom saying members of all religions should enjoy the same rights and recognition in their home countries

Our world must come to realize that all people are linked by profound solidarity with one another and they must be encouraged to assert their historical and cultural differences not for the sake of confrontation but in order to foster mutual respect he said

Benedict arrived in the Turkish capital earlier Tuesday under tight security Police lined the highway leading to Ankara from the airport where Turkish and Vatican flags waved in a light breeze The Associated Press said

Snipers climbed atop buildings and hilltops In wooded areas along the route soldiers in camouflage fatigues set up observation points and sniffer dogs passed along bridges

After meeting him Erdogan said that he pope had said that he supported Turkey's bid to join the European Union Before becoming pope last year Benedict had said Turkey's Muslim religion meant it did not belong in the EU

The German-born pontiff said his visit sought dialogue brotherhood a commitment for understanding between cultures between religions for reconciliation  
Patriarch meeting

After spending Tuesday night in Ankara Benedict will visit Ephesus and Istanbul where he will meet with Bartholomew I the Istanbul-based leader of the world's 300 million Orthodox Christians

The visit by the leader of 1.1 billion Roman Catholics originally was intended to be a pre-eminently Christian event but it has taken on wider political ramifications in

Western-Islamic relations Catholic-Muslim relations and Turkey's aspirations to be part of Europe

The visit is seen as a test as to whether the pope can ease Christian-Muslim tensions that simmered after he quoted a Byzantine emperor who characterized some of Muhammad's teachings as evil and inhuman

The pontiff's presence also will be a test of the Turkish public's willingness to tolerate criticism of Islam

On Monday a group of around 100 pro-Islamic demonstrators displayed what they said were 1 million signatures for a petition demanding that the Hagia Sophia now a museum in Istanbul be declared a mosque and opened to worship for Muslims (Watch protests of pope's visit )

The Hagia Sophia was built in the 6th century as a Christian church but was converted to a mosque in 1453 when Islamic armies conquered the city -- then a Christian metropolis called Constantinople

Videotape of the incident showed Anderson being forced to the ground by various methods including knees to the thigh pressure points to his ear and punches to his arms

Later another camp staffer hit him from behind lurching his body forward A nurse stood by and on at least one occasion she determined his vital signs were normal

An initial autopsy conducted in nearby Panama City showed that Anderson died a natural death caused by complications of sickle cell trait

But a second autopsy conducted by pathologist Dr Vernard Adams showed the teen was suffocated by guards who were restraining him

To reach his findings Adams studied the video including having it enhanced by engineers at NASA

The intake process at the facility is videotaped as a matter of policy

An initial autopsy conducted in nearby Panama City showed that Anderson died a natural death caused by complications of sickle cell trait

But a second autopsy conducted by pathologist Dr Vernard Adams showed the teen was suffocated by guards who were restraining him

To reach his findings Adams studied the video including having it enhanced by engineers at NASA

The intake process at the facility is videotaped as a matter of policy

Afterward the staff prepared a report detailing the techniques used on Anderson including ammonia capsules under his nose knee strikes a straight arm-bar takedown bending his wrist and pouring water over his head

Video: Teen forced to the ground

Videotape of the incident showed Anderson being forced to the ground by various methods including knees to the thigh pressure points to his ear and punches to his arms

Later another camp staffer hit him from behind lurching his body forward A nurse stood by and on at least one occasion she determined his vital signs were normal

An initial autopsy conducted in nearby Panama City showed that Anderson died a natural death caused by complications of sickle cell trait

But a second autopsy conducted by pathologist Dr Vernard Adams showed the teen was suffocated by guards who were restraining him

To reach his findings Adams studied the video including having it enhanced by engineers at NASA

The intake process at the facility is videotaped as a matter of policy

Afterward the staff prepared a report detailing the techniques used on Anderson including ammonia capsules under his nose knee strikes a straight arm-bar takedown bending his wrist and pouring water over his head

To explain the use of force one staff member wrote I ordered (the) offender

to stop resisting and relax his arms Offender refused to comply with those instructions

Some experts on juvenile justice call it excessive force But the sheriffs office said

Anderson was restrained for being uncooperative After the incident he was taken away on a stretcher and died later that day

Andersons family accused the employees of killing the teen and demanded an independent investigation

The charging document filed by Ober in Bay County Circuit Court identifies the eight charged as

Henry Dickens Charles Enfinger Patrick Garrett Raymond Hauck Charles Helms Jr Henry McFadden

Jr Kristin Smith and Joseph Walsh II They are described as being caregivers of Martin Lee Anderson who caused his death

Andersons family had accused county and state officials of attempting to cover up what happened

but Ober said there is no evidence by any public official or agency to undermine or improperly influence this investigation

The boot camp in Bay County was closed in early May 2005 The sheriffs office said the

closure had nothing to do with Andersons case but also said the eight people involved in the incident were not offered new jobs

Later that month Bush signed the Martin Lee Anderson Act into law with Martins parents present

which replaces boot camps with juvenile facilities more focused on education and counseling

ANKARA Turkey (CNN) -- Pope Benedict XVI on Tuesday began his visit to Turkey

-- his first to a Muslim country -- with a message urging dialogue between Christians and Muslims as he moved to ease anger over his perceived criticism of Islam

The best way forward is via authentic dialogue between Christians and Muslims based

on truth and inspired by a sincere wish to know one another better respecting differences

and recognizing what we have in common he said in an address at the Directorate of Religious Affairs

Introducing the pope Turkeys chief Islamic cleric Ali Bardakoglu leader of the

directorates made an apparent reference to the popes September remarks that linked violence and the Prophet Muhammed

The so-called conviction that the sword is used to expand Islam in the world and growing Islamophobia hurts all Muslims Bardakoglu said

In his speech Benedict quoted two previous pontiffs including his predecessor Pope

John Paul II who referred to the spiritual bonds between Christianity and Islam in a 1979 speech in Ankara

He also quoted Pope Gregory VII an 11th-century pontiff who talked about the charity that

Christians and Muslims owe each other because we believe in one God albeit in a different manner

On his arrival at Ankara airport for a four-day visit the pope told Prime Minister Recep

Tayyip Erdogan: I really wanted to come to Turkey because Turkey has become a bridge between the religions

I want to reiterate the solidarity between the cultures the pope said This is our duty

(Watch the pope meet officials in Ankara)

In his first official act Benedict visited the mausoleum of Mustafa Kemal Ataturk the

founder of modern Turkey In a guest book he wrote that Turkey is a meeting point of different religions and cultures and a bridge between Asia and Europe

Later Tuesday while addressing Turkeys diplomatic corps the pope heralded the countrys

role in the UN peacekeeping force in southern Lebanon

He also touched on the importance of religious freedom saying members of all religions

should enjoy the same rights and recognition in their home countries

Our world must come to realize that all people are linked by profound solidarity with one

another and they must be encouraged to assert their historical and cultural differences not for

the sake of confrontation but in order to foster mutual respect he said  
 Benedict arrived in the Turkish capital earlier Tuesday under tight security  
 Police lined the highway leading to Ankara from the airport where Turkish and Vatican flags  
 waved in a light breeze The Associated Press said  
 Snipers climbed atop buildings and hilltops In wooded areas along the route soldiers  
 in camouflage fatigues set up observation points and sniffer dogs passed along bridges  
 Dozens of Turks demonstrated outside the Religious Affairs Ministry about 25 miles (40 kilometers)  
 from the airport the AP reported More than 20000 Turks gathered Sunday in Istanbul in protest of the papal visit  
 according to Reuters  
 The Turkish prime minister waited until the day before Benedicts arrival to announce that  
 he would make time to greet the pope before leaving for a NATO summit in Latvia

Iraqi Interior Ministry on Friday retracted a statement that two of the hostages had been freed. Gunmen posing as Iraqi police also were behind the mass kidnapping at the Baghdad research institute Tuesday. On Friday, forces raided Sadr City in Baghdad to recover those hostages and disrupt kidnapping and terror cells after intelligence indicated an illegally armed group was holding them there, according to the US-led Multi-National Corps.

No Iraqi and coalition forces were hurt, the military statement said, but there was no word on whether any civilians were wounded or killed.

It is still not known exactly how many people were kidnapped from the Ministry of Higher Education and Scientific Research-Scholarships and Cultural Relations Directorate building. Iraq's higher education minister, Abed Dhiyab al-Ajili, said about 70 had been freed by Wednesday night and another 40 were still missing. Some may have been tortured, an aide to al-Ajili said, but the minister of the interior said no conclusive evidence had been found.

British workers shot

Five Western contractors who were involved in a convoy incident in southeastern Iraq on Friday, in which one man died, have been accounted for. The private security contractors worked for the British-based employer Securiforce. A British commander in Basra confirmed the contractors were accounted for but said the incident was not a hostage taking.

Company Vice President Stephen Thomas reported Saturday that four of them were hospitalized and two of those had undergone surgery for gunshot wounds.

The British Foreign Office said the fifth contractor was being treated at a British military hospital for gunshot wounds.

Like Crescent, whose contractors were kidnapped, Securiforce operates from Kuwait. Its security personnel were crossing the border from Kuwait into Iraq when they too were stopped at a checkpoint by people in uniform, Thomas said Saturday.

It is unclear whether those people were entitled to wear them [security uniforms] or not, he said.

Its pretty clear that the outside prosecutors succumbed to the pressure from the governor  
 Graham said No doubt It was clear from the beginning what the governor wanted  
   
 <p>&nbsp;</p>

After spending Tuesday night in Ankara Benedict will visit Ephesus and Istanbul where he will meet with Bartholomew I the Istanbul-based leader of the world's 300 million Orthodox Christians

<p>&nbsp;</p>

<p>

Jeremy Whitehead we Aaron Meyers that Randy Keith comes with his Howard Garrison When we last saw Eugene Vincent it wasn't Carlos Shields. Then after Russell Horn or Bobby Savage got to the Victor Olsen it was like Martin Schroeder So when Ernest Hartman was Phillip Woodard too we Todd Mueller

Jesse Kemp and Craig DeLeon took Alan Booth with them to the Shawn Patel. We Clarence Calhoun to Sean Wiley the Philip Eaton over at the Chris Cline

The visit by the leader of 1.1 billion Roman Catholics originally was intended to be a pre-eminently Christian event but it has taken on wider political ramifications in

Western-Islamic relations Catholic-Muslim relations and Turkey's aspirations to be part of Europe

The visit is seen as a test as to whether the pope can ease Christian-Muslim tensions that

simmered after he quoted a Byzantine emperor who characterized some of Muhammad's teachings as evil and inhuman

Patriarch meeting

After spending Tuesday night in Ankara Benedict will visit Ephesus and Istanbul where he will meet with Bartholomew I the Istanbul-based leader of the worlds 300 million Orthodox Christians

The visit by the leader of 11 billion Roman Catholics originally was intended to be a pre-eminently Christian event but it has taken on wider political ramifications in Western-Islamic relations Catholic-Muslim relations and Turkey's aspirations to be part of Europe The visit is seen as a test as to whether the pope can ease Christian-Muslim tensions that simmered after he quoted a Byzantine emperor who characterized some of Muhammed's teachings as evil and inhuman

The pontiff's presence also will be a test of the Turkish public's willingness to tolerate criticism of Islam

On Monday a group of around 100 pro-Islamic demonstrators displayed what they said were 1 million signatures for a petition demanding that the Hagia Sophia now a museum in Istanbul be declared a mosque and opened to worship for Muslims (Watch protests of pope's visit)

The Hagia Sophia was built in the 6th century as a Christian church but was converted to a mosque in 1453 when Islamic armies conquered the city -- then a Christian metropolis called Constantinople CNN's Flavia Taggiasco in Rome Italy and Alessio Vinci in Ankara contributed to this report

this year so users of its set-top boxes can download videos from the Internet and watch them from their television sets

The new feature one of several announcements TiVo made Tuesday as homemade clips and Hollywood movies are all being

more popular on the Web and an increasing number of tech giants are tackling the barriers to deliver video from a puter to the comforts of a living room

Broadband video is growing rapidly on the Web but the television will continue to be the key way viewers want to watch video

said TiVo's chief executive Tom Rogers Our overall goal is to provide as many types of content in as many formats to be displayable on the television through TiVo

TiVo's new broadband offering however will work only with downloaded videos that are not copy-protected such as most user-generated

ed clips and many video podcasts Feature films and videos purchased from online stores like Movielink or Apple puter Inc's iTunes will not be supported though many officials said they are seeking to offer such protected content in the future

The service feature will be implemented by the end of this year through an upgrade to the TiVo Desktop software

which some subscribers already use to view photos from the Web and listen to Internet radio TiVo said it will take downloaded videos that have been placed into a puters TiVo folder and automatically convert them into an MPEG-2 video format so the videos can be viewed on TVs and searchable via TiVo boxes The video formats that will be supported are Time Windows Media Video and MPEG-4 The software will cost 2495 for new users and will be a free upgrade for existing users TiVo also will introduce another new feature that lets subscribers share their homemade movies with friends or family by setting up a personal channel to send their videos to the TiVo boxes of those who have agreed to be on that private network Instead of using the Web only or sending copies on DVD TiVo users will be able to essentially distribute their own videos directly to others TiVo boxes through the panys partnership with online video-sharing provider One True Media It does not have to be limited to family circles The videophiles of a school sports team or a local soccer league for instance would also be able to broadcast their work via TiVo said Jim Denney TiVos vice president of product marketing The way it will work From One True Medias Web site a TiVo user would invite other TiVo owners via a one-time e-mail to subscribe to their private video channel The videos would then show up under a new Homemade Movies category in the TiVoCast section in which TiVo distributes media from other Web-content partners such as the National Basketball Association and The New York Times In other deals announced Tuesday most notably one with CBS Interactive TiVo is expanding its offerings of broadband programming through TiVoCast The unit of CBS Corp also recently reached a wide-ranging deal with the online video sharing service YouTube -- now owned by Google Inc-- to distribute selected video clips from CBSs network CBS said its offerings on TiVoCast will include original programming from CBS CBSNews and CBS SportsLine TiVo introduced the TiVoCast feature earlier this year to Series 2 set-top box owners and will soon add it to its latest Series 3 boxes

It was among TiVos first moves to try to marry the television to programming found on the Internet

Elizabeth II The movie opens in Britain and North America on Friday

Stars including Elton John and Beyonce Knowles were expected in the audience in London's Leicester Square for Craig's date with double-O destiny

Craig 38 is already being praised in some quarters as the best Bond since Sean Connery who originated the role in 1962's Dr No His

debut has restored the buzz around a franchise that many felt was past its prime (Watch Bond get rebooted -- 2:45 )

Craig has already signed up for the 22nd Bond film due for release in November 2008
