## II. ALTERNATIVE DISPUTE RESOLUTION

The parties agree to participate in [choose as appropriate:] [mediation] [early neutral evaluation] [a settlement conference] with [the Court's Alternative Dispute Resolution program] [JAMS][a private mediator] [another magistrate judge of this court] to occur by the date specified in the above chart if possible. [include if appropriate:] [The settlement conference judge will contact

1 the parties with a date and time for the settlement conference.] The parties shall notify the Court  
2 promptly if the case resolves.

3 **III. DISCOVERY PROCEDURES**

4 A. The parties shall comply with the procedures regarding discovery and discovery disputes in  
5 Judge Beeler's standing order.

6 B. Each side shall be limited to ten depositions and twenty-five interrogatories, as provided by  
7 Federal Rules of Civil Procedure 30 and 33, absent a further court order.

8 C. If the ADR specified in the previous section is being conducted before the discovery cut-off  
9 deadline, counsel must meet and confer in person or by telephone no later than 21 days before the  
10 ADR and **before** preparing any exchanged or confidential settlement statements required by the  
11 ADR process. The purpose of the meeting is to identify and exchange whatever discovery is needed  
12 for all sides to evaluate the case for settlement. Counsel shall cooperate in providing discovery  
13 informally and expeditiously before ADR.

14 [include if appropriate:] In addition, before the parties participate in the ADR specified in the  
15 previous section, each party shall be limited to three depositions each absent stipulation or a further  
16 order of the Court.

17 **IV. MOTIONS**

18 The parties shall file any motions, oppositions, and reply briefs on the schedule set forth in Civil  
19 L. R. 7. The parties also shall file the procedures in Judge Beeler's standing order regarding  
20 statements of fact in summary judgment motions.

21 **V. PRETRIAL FILINGS AND PROCEDURES**

22 A. **21 Days Before Final Pretrial Conference.** The exact date is in the chart above. The  
23 parties shall file the following:

24 **1. Joint Proposed Final Pretrial Order** (in lieu of a joint pretrial conference statement)  
25 that contains the following:

26 (a) a brief description of the claims and defenses to be decided;  
27 (b) a statement of the relief sought;  
28 (c) all undisputed facts;

- (d) all disputed fact issues organized by count;
- (e) each disputed legal issue with citations but without extended argument;
- (f) the parties' stipulations;
- (g) the parties' estimates of total trial time; and
- (h) the status of settlement negotiations and whether further negotiations might be productive.

The proposed order should specify which issues are for the Court to decide instead of the jury.

8 The parties should append the following to the proposed order: (a) the parties' specific, signed  
9 stipulations in a form that can be introduced as evidence at trial; (b) a joint exhibit list with columns  
10 for exhibit number, offered into evidence, admitted into evidence, sponsoring witness, limits on use,  
11 and description and bates range (see section V.C regarding numbering and organization of exhibits);  
12 and (c) each party's separate witness list for case-in-chief witnesses (including those appearing by  
13 deposition) summarizing their testimony, specifying separately their non-cumulative testimony, and  
14 providing an hour-and-minute time estimate. Experts and witnesses not included in the witness list  
15 may not be used in a party's case-in-chief.

16       **2. Joint Proposed Jury Instructions.** The instructions shall include a table of contents  
17 and be arranged in a logical numerical sequence. The instructions should not include -- and need  
18 only list by instruction number -- any unmodified preliminary, general, or concluding model jury  
19 instructions from the *Ninth Circuit Manual of Model Civil Jury Instructions* (2007) (available at  
20 <http://www.ce9.uscourts.gov>). The instructions must include any modified instructions (with the  
21 modifications clearly identified) and all case-specific instructions on substantive issues of law from  
22 the *Ninth Circuit Manual, California Civil Jury Instructions (CACI)*, or other applicable instructions.  
23 The parties shall include a short statement of the case to be read to the jury during voir dire as part of  
24 the preliminary instructions. Undisputed instructions must be identified as, e.g., "Stipulated  
25 Instruction No. \_\_\_\_: [Instruction Title]." Disputed instructions must be identified as "[Party's  
26 Name]'s Disputed Instruction No. \_\_\_\_: [Instruction Title]." The parties' different versions of  
27 disputed instructions shall bear the same instruction number and be filed together in their logical

1 place in the jury instructions. All instructions -- disputed or undisputed -- shall be supported by  
2 citation (including pin cites) in the format used by the *Ninth Circuit Manual*.

3       **3. Separate Memoranda on Disputed Jury Instructions.** Each party should file a  
4 memorandum of law -- organized by instruction number -- regarding disputed jury instructions.

5       **4. Motions In Limine.** Each motion shall be in a separate memorandum entitled  
6 “[*Party's Name*]’s Motion in Limine [#] to Exclude [*Subject*],” be limited to circumstances requiring  
7 advance ruling, and be no longer than seven pages absent leave of court. Usually five motions in  
8 limine are sufficient.

9       **5. Trial Briefs On Any Issues of Law.**

10       **6. Joint Voir Dire Questions Supplemented With Separate Requests.**

11       **7. Joint Proposed Verdict Form** or separate verdict forms if a joint form is not possible.

12       **8. Copies of Federal Rule of Civil Procedure 26(a)(3) Disclosures.** *See* Section V.D  
13 for procedures regarding designation of depositions. By designating an exhibit, a party generally  
14 waives any objection to it if offered by the other side absent clearly available objections (such as  
15 objections under Rules 402 and 403 or admissions by party opponents that would be inadmissible  
16 hearsay if offered by the party opponent).

17       **9. Wordperfect or Word Versions Emailed To Chambers.** In addition to e-filing and  
18 lodging paper copies of all filings, *see* Judge Beeler’s standing order, counsel shall email the joint  
19 proposed order, the jury instructions, and the verdict form in Wordperfect or Word to  
20 lbpo@cand.uscourts.gov.

21       **B. 14 Days Before Pretrial Conference.** The exact date is in the chart above. The parties  
22 shall file the following:

23       **1. Oppositions to Motions In Limine.** Each opposition shall be in a separate  
24 memorandum entitled “[*Party's Name*]’s Opposition to Motion in Limine [#] to Exclude [*Subject*],”  
25 link electronically to the prior e-filed motion in limine, and be no longer than seven pages absent  
26 leave of court.

27       **2. Objections to Exhibits and Use of Depositions** as set forth in Federal Rule of Civil  
28 Procedure 26(a)(3)(B). Objections not raised are waived.

1                   **3. Lodge Joint Set of Trial Exhibits with Deputy Clerk.** The parties must prepare a  
2 *joint, single* set of all trial exhibits. *See* V.C (regarding exhibit numbering and organization). The  
3 exhibits shall be in three-ring binders, and each exhibit must be tagged and separated by a label  
4 divider identifying the exhibit number. Spine labels should identify the exhibits in a particular  
5 binder. The exhibit binders should be marked “Original” and will be the official record both at trial  
6 with the witnesses and on appeal. Lodge the exhibits with the deputy clerk, Lashanda Scott.

7                   **4. Lodge Second “Chambers Copy” of Joint Set of Trial Exhibits.** The parties shall  
8 lodge (not file) a second “chambers copy” of the binders of trial exhibits referenced in the preceding  
9 paragraph. Those binders should be marked “Chambers Copy.”

10                   **5. Copies of Deposition Designations For Witnesses Appearing Only By Designation.**

11 *See* V.D (transcript designation procedures and process for filing copy with the Court).

12                   **6. Copies of Designation of Interrogatories and Admissions.** *See* V.E (procedures and  
13 process for filing copy with the Court).

14                   **C. Exhibit Numbering and Organization**

15                   **1. Meet and Confer Re Exhibit Numbers.** Before submitting exhibit lists and binders,  
16 counsel must meet and confer to establish usable numbering conventions and eliminate duplicate  
17 exhibits. Use numbers only, not letters, and if possible, exhibit numbers should be the same  
18 numbers used in depositions. Otherwise, the deposition transcript must be conformed to the new  
19 exhibit number to avoid jury confusion and to ensure that every exhibit has a unique number.  
20 Blocks of numbers should be assigned to fit the needs of the case: *e.g.*, Plaintiff has 1 to 99,  
21 Defendant A has 100 to 199, Defendant B has 200 to 299, *et cetera*. All exhibits should be marked  
22 “Trial Exhibit No. \_\_,” not Plaintiff’s Exhibit or Defendant’s Exhibit.

23                   **2. Exhibit Tags and Binders.** The exhibit tag shall be in the following form:

24

25

26

27

28

UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA

# TRIAL EXHIBIT 100

Case No. \_\_\_\_\_

Date Entered \_\_\_\_\_

By \_\_\_\_\_  
Deputy Clerk

11 The tag should be on or near the lower right-hand corner if possible and on the back if it is not.

12 | Counsel should fill in the tag but leave the last two spaces blank.

13      **D. Deposition Designation For Witnesses Appearing By Deposition.** These procedures  
14      apply only to deposition designation for witnesses who appear by deposition and do not apply to  
15      reading depositions of live witnesses into the record while the witnesses are testifying.

16       **1. Designating Counsel.** To designate deposition testimony, counsel shall photocopy the  
17 cover page, the page where the witness is sworn, and each page with any proffered testimony (with  
18 lines through testimony not proffered). Counsel shall put lines through objections or colloquy unless  
19 they are needed to understand the question. Any corrections (including conforming exhibit numbers  
20 to trial exhibit numbers) shall be done by hand. The finished packet should be the script that allows  
21 smooth presentation of the witness, the oath, and the testimony. The packet must be provided to the  
22 other parties at least 30 days before the pretrial conference. For voluminous designations, the Court  
23 requires advance notice by designating counsel because more lead time is required. Counsel must be  
24 reasonable.

25       **2. Reviewing Counsel.** Reviewing parties must promptly review the packet and highlight  
26 in yellow any passages objected to and write in the margin the legal basis for the objections. If a  
27 completeness objection is made, the objecting party must insert the additional passages needed to  
28 cure the completeness objection. A completeness objection generally should be made only if a few

1 extra lines will cure the problem. Such additions shall be highlighted in blue, and an explanation for  
2 the inclusion shall be legibly handwritten in the margin. Counsel must line out any irrelevant  
3 portions of the additional pages. Reviewing counsel must return the packets to the proffering party  
4 to consider whether to accept the adjustments.

5 **3. Counsel To Meet And Confer Re Adjustments.** Counsel must meet and confer to  
6 address reviewing counsel's comments and any other issues.

7 **4. Designating Counsel To Assemble Final Packet.** Counsel for the proffering party  
8 must collate and assemble a final packet that covers all remaining issues and provide it to the Court  
9 14 days before the pretrial conference (as required by section V.B.5). Any objections must be  
10 highlighted and annotated as described in the preceding paragraphs. If exhibits are needed to  
11 resolve the objections, designating counsel should include copies, with the relevant passages  
12 highlighted and tagged. The Court will read the packet and make its rulings in the margins in a  
13 distinctive manner.

14 **5. Counter-Designations.** The reviewing party must make any counter-designations by  
15 providing a packet with the counter-designated passages to the original designating counsel at the  
16 same time as the reviewing party returns its objections to designating counsel. The original  
17 designating counsel must supply any objections in the manner described in this section.

18 **6. Video Depositions.** The parties shall follow the same procedures to facilitate ruling on  
19 objections. The videos should omit dead time and objections and colloquy not necessary to  
20 understand the answers.

21 **E. Requests For Admissions And Interrogatories.** Please designate responses to requests for  
22 admissions and interrogatory answers in the same manner and under the same timetable as  
23 deposition designations.

24 **VI. PRETRIAL CONFERENCE**

25 Lead counsel for each party shall attend.

26 **VII. PRETRIAL ARRANGEMENTS**

27 **A. Daily or Real-Time Reporting.** Please make arrangements ten days before the trial date  
28 with Debra Campbell, Supervisor of the Court Reporting Services, at 415-522-2079.

1       **B. Electronic Presentation of Evidence.** The Court provides no equipment other than an  
2 easel. If counsel will use electronic equipment such as computers, projectors, and screens, the  
3 parties should share equipment to the extent possible. Extension cords should be taped to the carpet  
4 for safety. The United States Marshal requires a court order to allow equipment into the  
5 courthouse. Please work with Lashanda Scott (415-522-3140) on all courtroom layout issues.

6 **VIII. TRIAL AND TRIAL PROCEDURES**

7       **A. Schedule.** The trial day is 8:30 a.m. to 1:30 p.m. (or slightly longer to finish a witness)  
8 with two fifteen-minute breaks, Monday through Friday. Counsel should arrive at 8:15 a.m. or  
9 earlier if any matters must be addressed outside of the jury's presence.

10       **B. Jury Selection.** There are no alternate jurors in civil cases, and the jury will be selected as  
11 follows.

12       The attached questionnaire will be given to the potential jurors, and copies of the responses will  
13 be given to counsel at the beginning of voir dire.

14       The Court's jury selection procedures vary depending on the size of the ultimate jury.  
15 Assuming a final jury of 8 and 6 peremptory challenges, the Court will call eighteen jurors to fill the  
16 jury box and a row in front of the bar. The jurors will be given numbers 1 through 18. The  
17 remaining jurors will be seated in the public benches. The Court will generally consider hardship  
18 excuses at this point. The Court then will question the 18 jurors and will allow counsel limited voir  
19 dire. The Court will address challenges for cause outside of the jurors' presence, determine whether  
20 to fill any empty seats, and if so, question the new jurors and consider any additional challenges for  
21 cause. After a short recess, each side will exercise its peremptory challenges out of the presence of  
22 the jurors. Of the remaining jurors, the eight (or other number of ) jurors with the lowest numbers  
23 will be the final jury.

24       The Court will adjust the starting numbers depending on the number of jurors to be seated and  
25 the number of peremptory challenges allowed. Also, the Court may alter these procedures in its  
26 discretion.

27       Once the jury is selected, the jurors' names will be read, and they will be seated in the jury box  
28 and sworn.

1       **C. Jury Notetaking.** Jurors may take notes. Note pads will be distributed at the beginning of  
2 each trial and collected at the end of the day and locked in the jury room. The Court will instruct the  
3 jury on the use of notes in its preliminary and final jury instructions.

4       **D. Time Limits.** Ordinarily, the Court sets time limits for opening statements, witness  
5 examinations (direct, cross, or re-direct), and closing arguments at the final pretrial conference. All  
6 of your examination time for all witnesses must fit within your witness time limits. The time taken  
7 at a side bar or on objections will be charged to the examining party unless otherwise ordered.

8       **E. Opening Statements.** Counsel must meet and confer about, and exchange, any visuals,  
9 graphics, or exhibits to be used in the opening statements, allowing for time to work out objections  
10 and any reasonable revisions. Opening statements begin after the jury is sworn.

11       **F. Advance Notice of Witness Order of Proof.** By 2 p.m., counsel must give written notice  
12 of the order of witnesses for the next court day and the exhibits (including merely illustrative  
13 exhibits) to be used on direct examination (other than for true impeachment of a witness). The  
14 parties shall notify the Court by the end of the day of any objections to the exhibits, and the Court  
15 will schedule a conference that afternoon or the following morning to resolve the dispute. The Court  
16 encourages two days' notice. If two days' notice is given, then by 2 p.m. on the calendar day  
17 immediately preceding the testimony, opposing counsel must provide any objections to the exhibits  
18 and shall provide a list of all exhibits to be used with the same witness on cross-examination (other  
19 than for impeachment).

20       **G. Witness Examinations.** Generally there should be only one examining lawyer per witness  
21 per party, and the examining lawyer must make any objections to the opposing counsel's  
22 examination. The parties shall have witnesses ready to testify so that trial gaps are avoided. Gaps  
23 may be construed as resting one's case. In cases with multiple parties, counsel must coordinate  
24 cross-examination to avoid duplication of testimony. When multiple parties are on one side, only  
25 one counsel may cover a subject matter. Counsel shall place copies of exhibits to be used by a  
26 witness on the witness stand before the witness testifies.

27       Witnesses (except named parties) are excluded from the courtroom except when they are  
28 testifying. If a testifying witness has not been excused before a recess, that witness shall be seated

1 back on the stand when the court reconvenes. If a new witness is ready to be called immediately  
2 after a recess, the witness should be in the first row after the recess.

3 Counsel should refrain from eliciting testimony about undisputed facts set forth in stipulations  
4 filed with the court. The appropriate party or the Court may read into the record the undisputed facts  
5 at appropriate points in the trial.

6 **H. Expert Testimony.** Direct expert testimony is limited to matters disclosed in the expert's  
7 reports. Omitted material ordinarily may not be added on direct examination. Illustrative  
8 animations, diagrams, charts, and models may be used on direct examination only if they were  
9 part of the expert report, except that an expert may use simple drawings (such as those drawn by the  
10 witness at trial) that plainly illustrate a report's contents. If cross-examination fairly opens the door,  
11 however, an expert may go beyond the written report on cross-examination and/or re-direct  
12 examination. By written stipulation, all parties may relax these requirements. As to damages  
13 studies, the cut-off for *past damages* is the date of the expert report (or an earlier date selected or  
14 used by the expert). Experts may project *future damages* after this cut-off date if they can meet  
15 substantive standards for future damages. With timely leave of Court or by written stipulation, the  
16 experts may update their reports (or provide supplemental reports) to a date closer to the time of  
17 trial.

18 **I. Use of Depositions To Impeach A Trial Witness.** The following procedures apply.

19 1. On the first day of trial, counsel shall bring the original and clean copies of the  
20 depositions to be used at trial. If counsel might use a deposition against a witness, counsel shall  
21 provide the Court with a copy at the outset of the examination. Opposing counsel should have  
22 copies of witness depositions immediately available.

23 2. Counsel should seek permission from the Court before reading a passage into the  
24 record. For example, counsel should state, "I wish to read page 210, lines 1 to 10, from the witness's  
25 deposition." Counsel should pause briefly to allow any objection.

26 3. The first time counsel reads a deposition, counsel should state the deponent's name, the  
27 name of the lawyer asking the question, and whether the deposition was a Federal Rule of Civil  
28

1 Procedure 30(b)(6) deposition. The first time a deposition is read, the Court will instruct the jury  
2 about depositions.

3       4. When reading the passage, counsel shall employ the following technique. Counsel shall  
4 state, "question" and then read the question exactly, and then state, "answer" and read the answer  
5 exactly. This will allow the jury and court reporter to follow who said what at the deposition.  
6 Opposing counsel may ask to read additional testimony necessary to complete the context. It is not  
7 necessary to ask, "didn't you say XYZ in your deposition" to lay a foundation.

8       **J. Use of Depositions of Party-Deponents.** Subject to Rule 403, a party's depositions may be  
9 used for "any purpose" and may be read into the record whether or not they contradict (and  
10 regardless of who is on the stand). For example, a short party deposition excerpt may be used as  
11 foundation for questions for a different witness on the stand.

12       **K. Use of Depositions For Witnesses Appearing Only By Deposition.** When the packet (*see*  
13 V.D for procedures to assemble deposition packets) is read to the jury, the examiner shall read the  
14 questions (and any relevant colloquy) from the lectern while a colleague sits in the witness stand and  
15 reads the answers. While reading the deposition, the reader and "witness" shall refrain from undue  
16 emphasis or dramatization. If a read-in is short, a single attorney can read it all, being careful to say  
17 "question" and "answer" for the court reporter's and jury's comprehension. Exhibits may be  
18 projected onto the screen as they are referenced. Court reporters do not transcribe video excerpts so  
19 counsel must file an exact copy of what was shown.

20       **L. Exhibits.** The parties must obtain prior permission from the Court for jury notebooks. At  
21 the end of each day, counsel must confer with each other and with the deputy clerk to confirm what  
22 exhibits are in evidence and any limitations on their use. Counsel should bring any differences to  
23 the Court's attention. Similarly, before closing argument, counsel must confer with each other and  
24 the deputy clerk to finalize the exhibits and prepare any final exhibit list. That list may include a  
25 brief non-argumentative description of the exhibit to help the jury access the exhibits.

26       **M. Stipulations.** Counsel must read all stipulations to the jury for them to be part of the  
27 record.

1      **N. Objections.** Counsel shall stand when making objections, give only the legal basis  
2 (“objection, calls for speculation” or “objection, hearsay”), and refrain from making speeches.

3       **O. Side Bar Conferences** are discouraged. If matters must be discussed outside the jury's  
4 presence, counsel should raise them at the beginning or end of the day or while the jury is on break.

5       P. **Charging Conference.** Before the close of evidence, the Court will provide draft final jury  
6 instructions to the parties and allow a reasonable time for review. Thereafter, the Court will hold  
7 one or more charging conferences to address objections, modifications, or additions to the  
8 instructions. The parties must renew any specific instruction request -- including those requested  
9 pretrial -- at the conference or it will be deemed waived. For example, if a party wants to request an  
10 instruction that the Court omitted from its draft instructions, the party must re-request it at the  
11 charging conference or the request will be deemed waived or abandoned.
