Compatible with the latest MacBook Pro our Perforated Hardshell Case for 15" MacBook Pro features durable, injection-molded construction for excellent notebook coverage and a custom fit. With a hardshell exterior, soft-touch coating, raised rubber feet, thermal vents and unobstructed access to all features, the Perforated Hardshell Case is the most sophisticated and discreet option for protecting your 15" MacBook Pro.

- Made to fit with latest Apple 85W MagSafe Power Adapter
- Excellent notebook protection
- Exterior high-gloss coating
- Precision cut-out features for trouble-free access to magnetic power cable, headphone and microphone input jacks, CD ROM drive and all side ports
- Vents and rubber feet elevate notebook away from surface, allowing notebook's internal fans to circulate air more freely

- Simple to use and easy to clean

Our Hardshell Case features durable, injection-molded construction for excellent notebook coverage and a custom fit. With a frosted hardshell exterior, soft-touch coating, raised rubber feet, thermal vents and unobstructed access to all features, the Hardshell Case is the most sophisticated and discreet option in notebook protection.

NOT compatible with the new white unibody 13" MacBook.

- Excellent notebook protection
- Exterior rubberized soft-touch coating
- Precise cutout features for trouble-free access to magnetic power cable, headphone and microphone input jacks, CD ROM drive, battery level check button and all side ports
- Vents and rubber feet elevate notebook away from surface, allowing notebook's internal fans to circulate air more freely
- Simple to use and easy to clean

 Based on 5 reviews

Love It!

POSTED ON 5.24.09 • BY Ollioop

This case is a tad bright when you get it, but when it is on the Mac it is so pretty. The bottom color is a little more purple than you would expect and the top is hot pink! I love it!

Simply Great!

POSTED ON 5.16.09 • BY www.blueapple.synthasite.com

This laptop shell is so great that pink and magenta color is pretty and attracts a lot of people. I reccomend this case from speck!

Very cute!

POSTED ON 3.18.09 • BY Carla

I originally had the frosted hardshell. But when I saw this two-tone in the Apple store I just had to have it! Since having it, whenever I'm out and about at a coffee shop or anywhere that offers free wi-fi, I get alot of comments, and stares. I know this is something most guys won't like because of the color, but I think GoIncase should consider making other two-tone colors for the B&W MacBooks, but for the Aluminum versions as well. The only other two-tone I know of is for the MacBook Air.

GoIncase, keep up the great work with your products.

Nice!

POSTED ON 2.15.09 • BY Carla

I previously purchased the Frost case back in November. When I saw this case on the website, I just had to have it. Like the Frost case, I love this one even more.

awesome case but a bit heavy

POSTED ON 2.07.09 • BY jtesnani

i got this case at the apple store yesterday. it's great! i love the look of it with a black macbook. the top pink is more subtle, which is what i'd prefer. almost went with the red but this one is more unique. i didn't have any problems installing it and am able to open the screen past a 90 degree angle, although not by a whole lot but i have not been affected by it. one drawback is that it does add a significant amount of weight to the macbook, which was surprising as the case itself didn't seem to have weighed much.

Our Hardshell Case features durable, injection-molded construction for excellent notebook coverage and a custom fit. **macbook unibody cover**

POSTED ON 2.17.10 • BY Nicole Hoffman

This cover is great! Really pretty color of pink, fits perfectly, looks very cute, and easy to put on!
