Email, from Maureen Raymond advising: Mr. Harmon: As requested, I am getting back to you with the print quantities for World Geography:

© 1998: 39,501, © 2000: 115,057, © 2002: 65,779, © 2003: 109,333, © 2005: 57,578, © 2007: 8,054

We licensed the images for the 1998 edition and received permission to print over 40,000. 2000 and 2002 were simply copyright updates-no substantial changes were made and since the original license gave us permission to print over 40,000, we were within the limits of our contract. 2003 was the new copyright that we re-licensed with Network Aspen. That license gave us permission to print up to 200,000. We have not yet exceeded that number.

I hope that this information satisfies your needs. I do apologize for the delay in getting it to you. Audit report completed. I forwarded this information to Maurice. **Maurice advised he would be contacting Prentice Hall.**

Hi Phil,

There were 100,000 copies previously printed in 2002. Distribution rights are the same as those listed in my prior email. The ISBN numbers for the books in which your images appear are as follows:

0-134-34485-5 (iron filings on magnet)
0-314-34493-6 (parking lot)

Both images appear once in their respective books, and are each used at a 1/4 of a page.

I'd also like to give you a background on why we are just now obtaining the rights to these images. A Pearson affiliate took the original Science Explorer program to China, assuring us that they would obtain all of the image rights themselves. We then found out that they did not, and immediately took the program back over to re-permission all of the images before the remaining 150,000 copies are printed. We do apologize for those previous 100,000 copies that were already printed.

Thank you, and please let me know if you have any additional questions.
~Karen

Hello

I work in the photo permissions department at Pearson. I need to re-license 2 images from the ©2000 Science Explorer program that is being used in a new edition for China. While working on this program, it was discovered that permission was inadvertently not requested for prior printings of the Program in China, in which these images were included. We apologize for the omission and ask that you include in this request a print quantity of 100,000 to reflect such earlier use.

The program details are as follows:

Science Explorer China - new edition of ©2000
Publication date: 2002/2009
Distribution: People's Republic of China only

Language: *Chinese and English
Print run: **250,000
Electronic rights: Not Applicable
Term: ***11 years

* Approximately 5% of print is in English, mainly just proper names
** 100,000 previously printed, balance of 250,000 going forward
*** From the years 2002-2012
NOTE: the 100,000 copies were printed in 2002, the balance will be printed at the end of this year.

The image numbers that we have on file for these images are as follows:
MVB25P1077 (iron filings on magnet)
Image number not found. Image is an example of sodium vapor lighting in a parking lot
Both images are used in the interior of the books at 1/4 of a page each.

Please let me know the usage fee you require for the re-use of these images in this China edition and I'll get a billing request to you straight away.

Thank you!
~Karen
