the City's position that information identifying employees who are receiving public assistance is protected by California Welfare and Institutions Code section 10850 which makes the disclosure of such information a misdemeanor under California law. It is Plaintiff's position that this information is highly relevant and necessary for Plaintiff to litigate her discrimination and harassment claims against the City because a number of these individuals were witnesses to Plaintiff's alleged harassment and/or alleged similar claims of harassment against Plaintiff's supervisor.

The Parties hereby make this Stipulated Motion for Administrative Relief in order to timely resolve this discovery dispute so that documents can be produced and an initial round of depositions can occur before the Court ordered mediation, currently set for May 20, 2015, takes place. Waiting 35 days to resolve this dispute through formal motion procedures would needlessly delay the process and possibly prevent the parties from adequately preparing for the mediation. Moreover, filing a single letter outlining the parties respective positions will reduce the attorney time spent resolving this dispute.
