

1 The parties recognize that the outcome of dispositive motions potentially obviates the need for  
2 further damages discovery. The United States has conducted two independent medical exams to date,  
3 but defendants may seek another exam, pending the outcome of dispositive motions. Pursuant to the  
4 July 25, 2016 Scheduling Order, the deadline for filing dispositive motions is January 19, 2017, and the  
5 deadlines for damages expert disclosures are March 9, 2017 (Plaintiffs) and March 16, 2017  
6 (Defendants). The parties agree to postpone the December 6, 2016 deadline for conducting a neuro-  
7 psychological independent medical examination until after dispositive motions are completed, to avoid  
8 unnecessary examination of Plaintiff. The Plaintiff is not waiving his right to object to this IME.
